## **Notice of Drilling Activities for the Northrop Grumman Site, Bethpage, New York**

The New York State Department of Environmental Conservation (NYSDEC) is sending this letter, in addition to the enclosed area-wide fact sheet, to select residential streets south of the Bethpage Community Park. This letter is advance notice of investigative work that will occur on public rights of way in your neighborhood. Northrop Grumman contractors will be using a drill rig to install four monitoring wells in your immediate area. The monitoring well locations, as currently proposed, and are listed below.

**Monitoring Well MW-200-1**: the northeast corner of the intersection of N. 6<sup>th</sup> Street and Sycamore Avenue.

**Monitoring Well MW-201-1**: the northeast corner of the intersection of N. 5<sup>th</sup> Street and Sycamore Avenue.

**Monitoring Well MW-202-1**: the northeast corner of the intersection of N. 4<sup>th</sup> Street and Sycamore Avenue.

**Monitoring Well MW-203-1**: the corner of the intersection of N. 3<sup>rd</sup> Street and Sycamore Avenue.

Contractors for Northrop Grumman are presently marking the above locations to identify and avoid underground utilities (e.g., gas lines, etc). Taking utilities into account, the location may change slightly. Your concerns are important. Please see the enclosed fact sheet for more information and who to call, write, or e-mail with any questions you may have.
