**Re: New York Water Service Corporation
Seamans Neck Road Plant Site
Wellhead Treatment System
H2M Project No.: AQUA 07-01**

Dear Mr. Scharf:

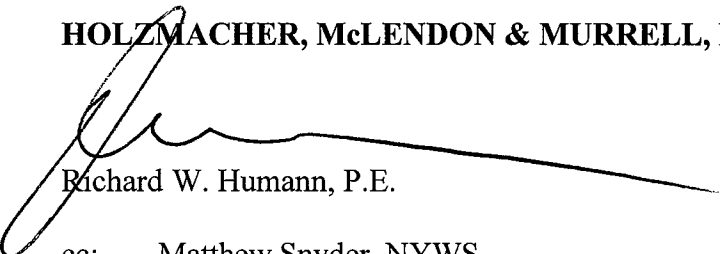

As discussed at our March 30, 2007 meeting with the Navy, split samples were taken from New York Water Service (NYWS) Well Nos. 3 and 4 at the Seamans Neck Road Plant Site for volatile organic contaminants. The split samples were taken on April 25, 2007 by NYWS, H2M and the Navy. Enclosed you will find the laboratory reports for the samples taken by NYWS and H2M, indicating trichloroethene (TCE) contamination at Well No. 3 (0.6 ppb by NYWS, 0.5 ppb by H2M).

We have yet to receive copies of any laboratory reports from the Navy's split samples. Please forward copies of the attached sample results to the Navy, and have the Navy forward copies of their results to NYWS and H2M. We ask that Navy results be provided by Friday, June 29, 2007.

Should you have any other questions or comments, or wish to further discuss this project, please feel free to contact this office.

Very truly yours,

HOLZMACHER, McLENDON & MURRELL, P.C.

Richard W. Humann, P.E.

cc: Matthew Snyder, NYWS
Joseph Trotta, NYWS
Preston Luitweiler, Aqua
Susan Clarke, Navy
