

**Technical Assistance Committee Meeting
Naval Weapons Industrial Reserve Plant
(NWIRP) Bethpage**

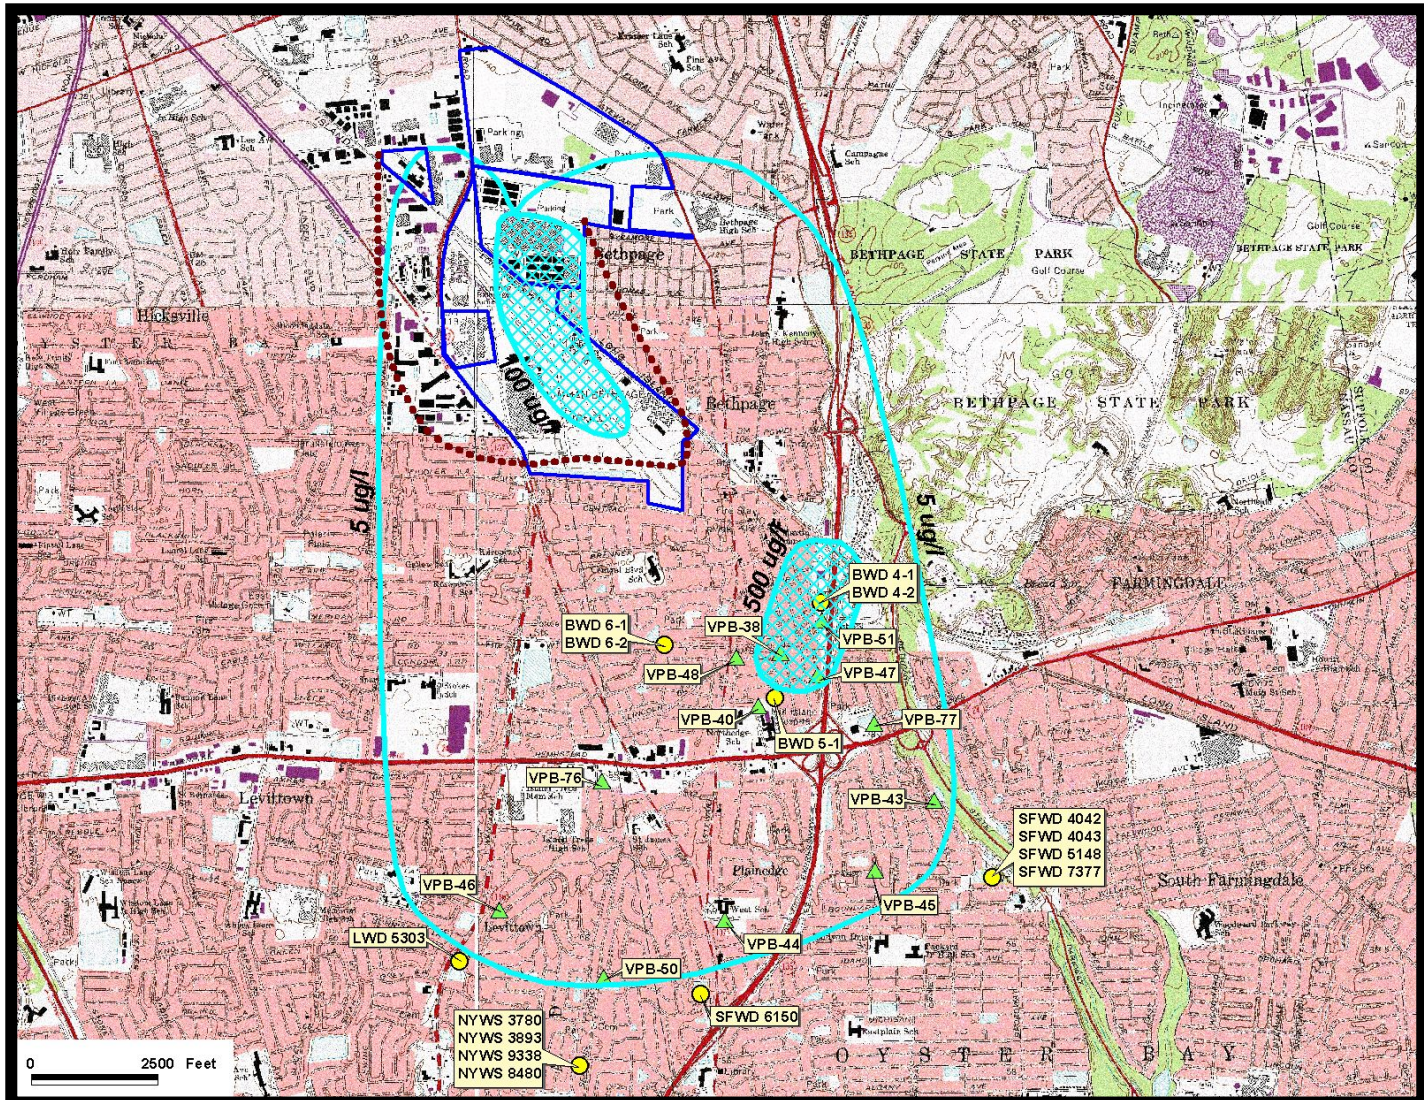

**GM-75/Off Site Groundwater Investigation
March 19, 2008**

OBJECTIVES

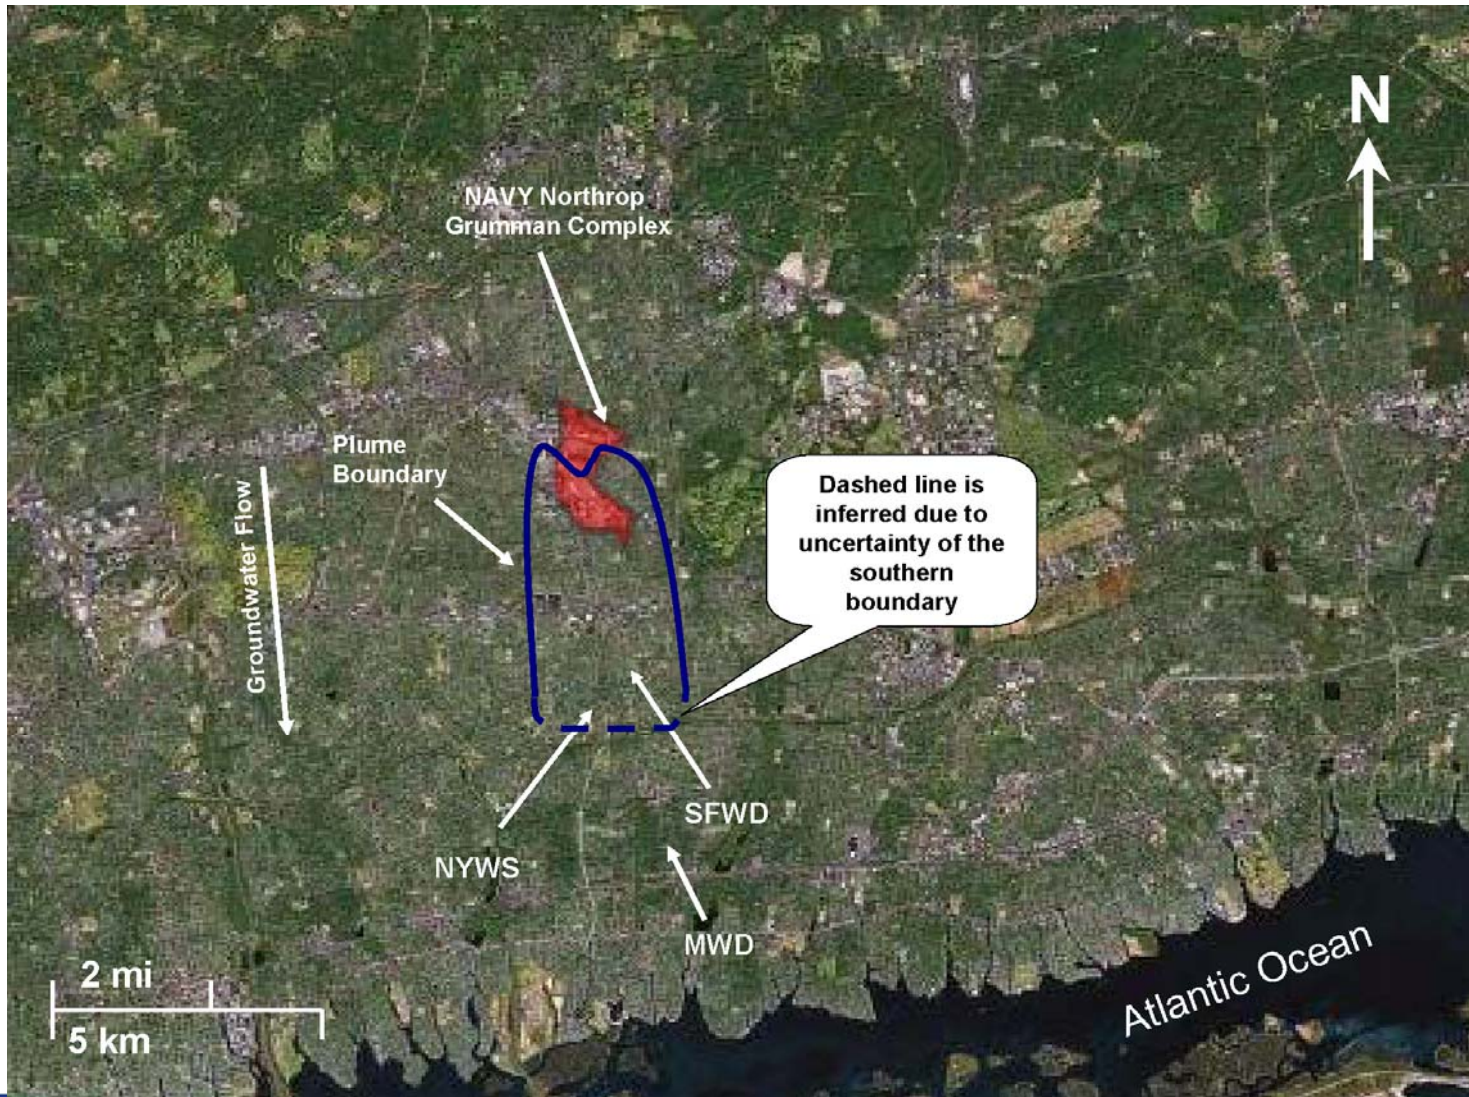

1. Present currently planned boring locations.
2. Identify and prioritize other off-site groundwater data requirements.

Current Understanding of Offsite Groundwater Contamination

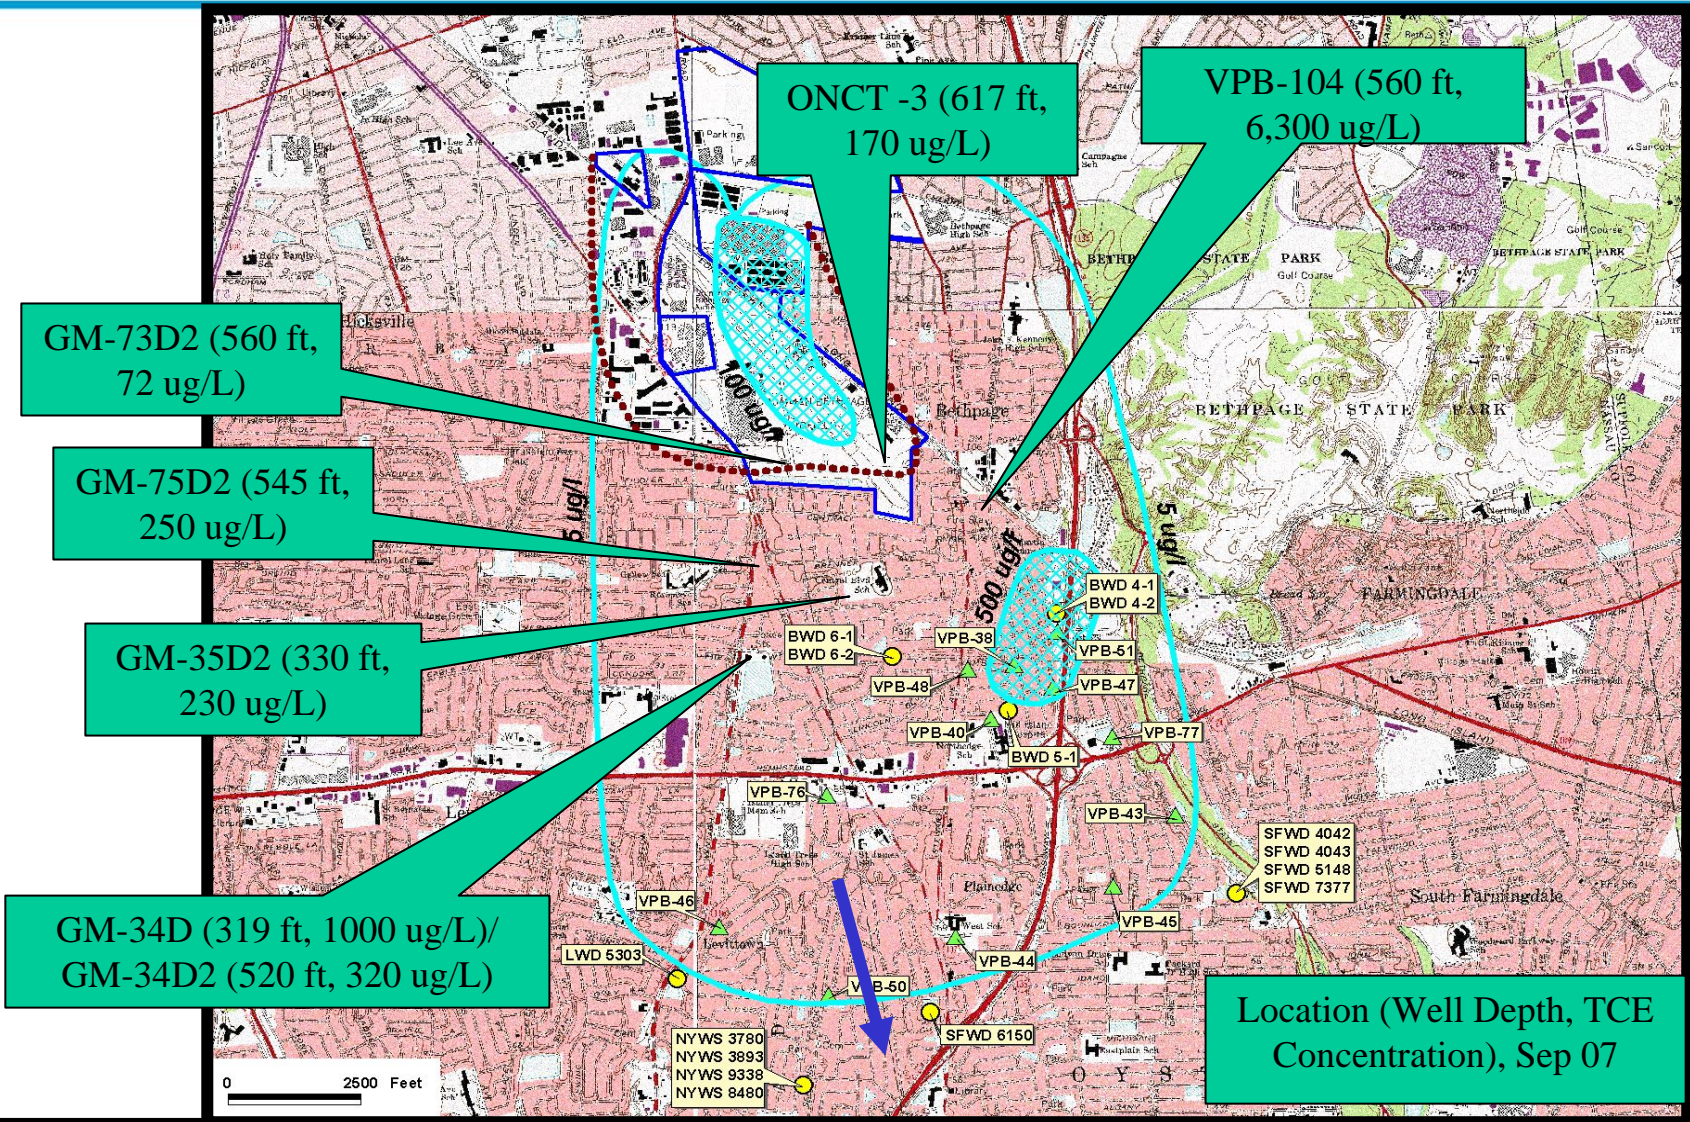

Current Understanding of Offsite Groundwater Contamination

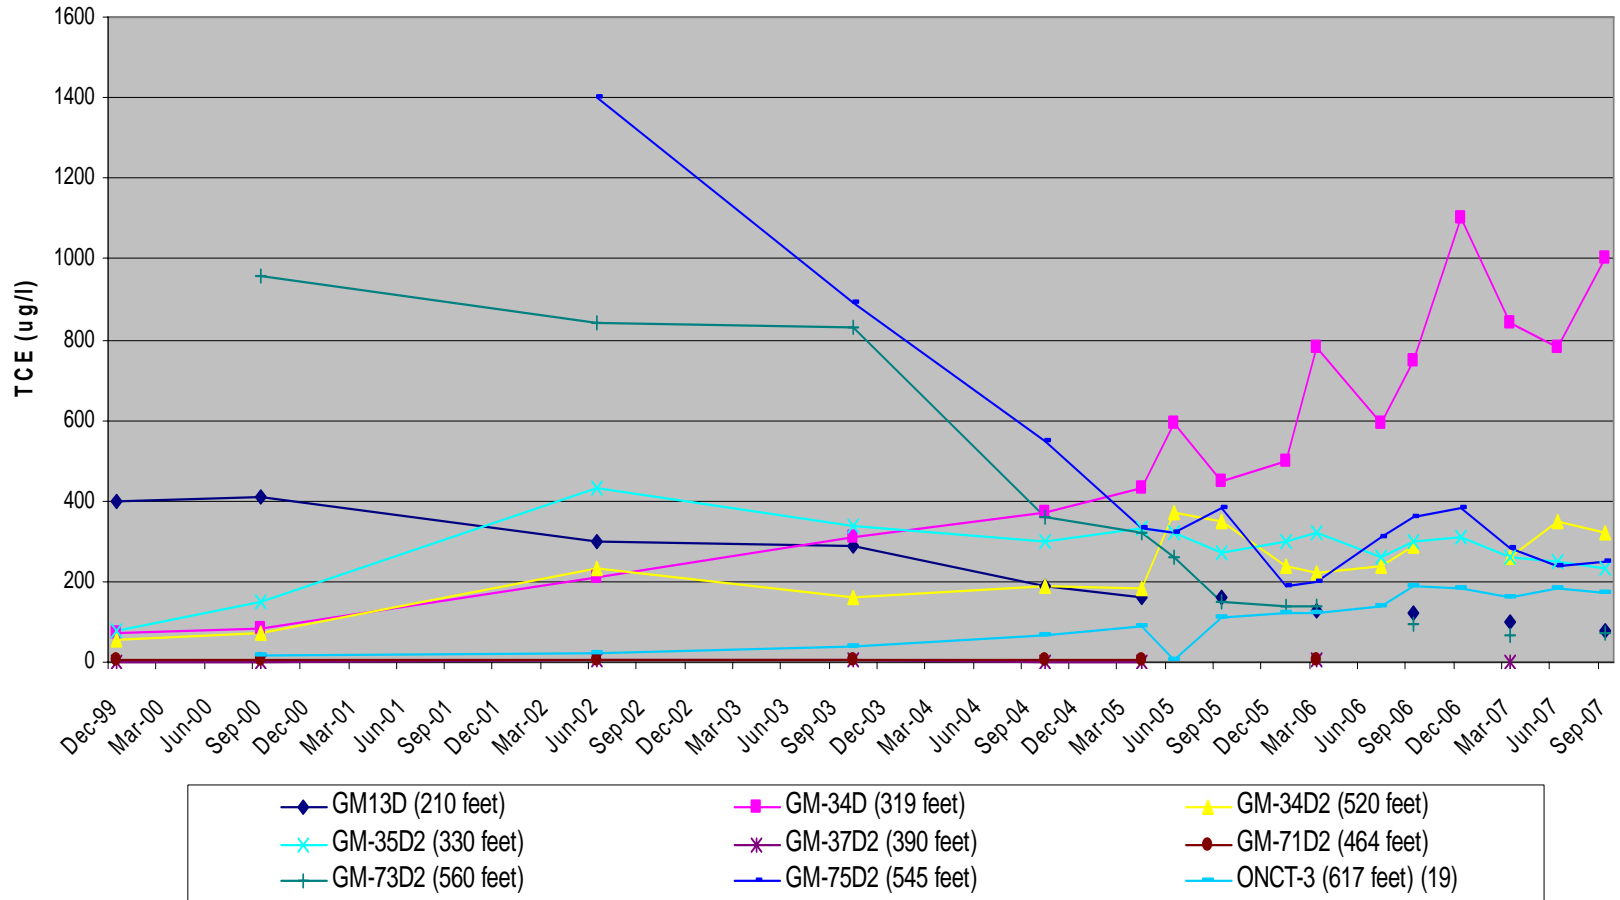

Offsite Groundwater Contamination

Offsite Groundwater Contamination

OU 2 Groundwater

PLANNED ACTION

- **Install one vertical profile boring near GM-35D2 to evaluate deeper groundwater in this area. Well is between GM-75 and BWD Plant 6.**
- **Install one vertical profile boring down gradient of GM-34 to track/evaluate southern extent of hotspot.**
- **Install one vertical profile boring north of eastern SFWD Plant.**
- **Install one vertical profile boring north of MWD.**
- **Other data needs?**

Planned Actions
