RE: Proposed One Story Addition
Application No. 2472
Sec. 49, Blk. 293, Lot 34

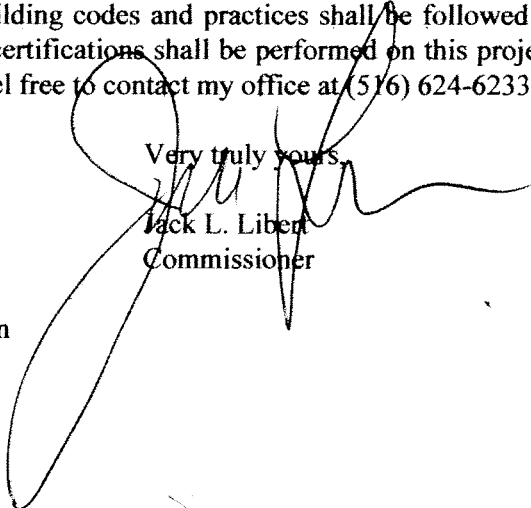

Gentlemen:

A meeting was held on March 18, 2008 to address comments from prior Town of Oyster Bay plan examinations. We have reviewed the above noted application prepared by Brian Keith Blanchard P.E. dated March 31, 2008 that was resubmitted to address all comments from the meeting of March 18, 2008.

It is the opinion of this office that all comments and issues relating to the construction of this interim remedial plant have been addressed, as this project is located on Town of Oyster Bay property and is issued by another municipality (New York State Department of Environmental Conservation) this letter shall serve as your construction authorization in lieu of a permit.

Please note that all New York State building codes and practices shall be followed for this project and that all of the required inspections and certifications shall be performed on this project. If you have any further questions or comments please feel free to contact my office at (516) 624-6233.

Very truly yours,

Jack L. Libert
Commissioner
