

AGENDA

09-11-12 Meeting between NYSDEC and USEPA,

NYSDEC Region 3 Offices, New Paltz, NY

Re: Navy/ Northrop Grumman

NYSDEC Sites 130003A and 130003B, Bethpage, NY

- (1) The 8 priority points identified at New Paltz meeting held 07-26-2012
(noted on separate attachment)
- (2) The proposed expanded language for the OU-3 ROD, as per Doug Garbarini's e-mail to Jim Harrington, dated 09-07-12
- (3) Discussion of whether the existing ROD has sufficient flexibility to allow for proposed augmentations of work to be done under the ROD (i.e., additional sampling, possibility of 2 extraction wells in southwest plume upgradient from SFWD #6); or

Whether a short ESD should or fact-sheet might be warranted (possibly concurrently with OU-3 ROD) to inform public of the overall USEPA/NYSDEC strategy for off-site groundwater.

- (4) Overall timing for completion of the OU-3 ROD and Responsiveness Summary.
