Phase 2 Operable Unit 4 Remedial Activities
October 15, 2014 Weekly Construction Coordination Meeting Summary
Weekly Progress Report #6 (October 6, 2014 – October 10, 2014)

This memorandum summarizes items discussed during the October 15, 2014 weekly construction coordination meeting, including work performed during the previous week, in connection with the Phase 2 Operable Unit 4 (OU4) remedial activities at the above-referenced Site. The remedial activities are being implemented by Bayer MaterialScience LLC's (Bayer's) remedial contractor (Posillico) with onsite construction/engineering oversight provided by ARCADIS. The work activities during the reporting period were as observed by Gregory McDermott of ARCADIS.

MEETING ATTENDEES

The following personnel attended the weekly construction coordination meeting:

- Steven Scharf – NYSDEC (call-in)
- Renata Ockerby – NYSDOH (call-in)
- Julia Schneider – Cashin Spinelli & Ferretti, LLC (CSF)(representing the Town of Oyster Bay) (call-in)
- Scott Krall – Bayer (call-in)
- David Paule – Bayer (call-in)
- John Brussel – ARCADIS (call-in)

- David Kingsley – ARCADIS (call-in)
- Andrew Enigk – ARCADIS (call-in)
- Greg McDermott – ARCADIS
- Lee Kaplan – Posillico
- Chris Hurst – Posillico
- Marc Atamian – Posillico

HEALTH AND SAFETY MOMENT

- Posillico discussed its 30/30 lightning safety policy, which indicates work shall be suspended for 30 minutes after thunder or lightning is first observed and remain suspended until at least 30 minutes after thunder or lightning is last observed.

SAFETY/SAFE WORK PRACTICES

- Posillico indicated that no incidents have occurred this week and that work has proceeded safely.

AIR MONITORING

- Preferred began performing community air monitoring in accordance with the project-specific Community Air Monitoring Plan (CAMP) on October 3, 2014 and continued during this monitoring period. No exceedances of air monitoring action levels were recorded during this monitoring period.

ACTION ITEMS OUTSTANDING FROM PREVIOUS MEETING

- Bayer provided an updated schedule for the OU5 final soil vapor monitoring event at the Site and subsequent abandonment of soil vapor monitoring probes. Bayer indicated a driller will be onsite the week of October 20, 2014 to start preparing the soil vapor probes for sampling, and the actual soil vapor monitoring event is scheduled to start between November 3 and 5, 2014. Bayer also noted that survey coordinates for the soil vapor monitoring probes were provided to ARCADIS so that ARCADIS could plot the probe locations on the *Remedial Design Addendum* (ARCADIS, August 2014)(RDA) Figure 3 and determine which soil vapor monitoring probes fall within proposed Phase 2 OU4 excavation and/or cap areas. Soil vapor probes that fall within excavation/cap areas may require sampling and abandonment prior to November 3, 2014 to facilitate OU4 remedial activities.

COMPLETED WORK / WORK-IN-PROGRESS

Work activities performed by Posillico and its subcontractors during this period consisted of continued site preparation services, including the following:

- Collecting samples from an additional 2,000 cubic yards (CY) of soil from its offsite clean fill source (Beth Moses Cemetery located in West Babylon, New York) on October 9, 2014 for laboratory analysis by York Analytical Laboratories, Inc. Posillico collected two sample sets (each set representing 1,000 CY of backfill) with each set including one composite sample for semi-volatile organic compounds (SVOCs), inorganics, polychlorinated biphenyls (PCBs), and pesticides, and two discrete samples for volatile organic compounds (VOCs) in accordance with the sampling requirements in Table 5.4(e)10 of the New York State Department of Environmental Conservation (NYSDEC) document titled, “DER-10 Technical Guidance for Site Investigation and Remediation” (DER-10). ARCADIS observed the sampling activities at the fill source.
- Completing baseline/topographic survey activities on October 10, 2014.
- Completing partial disassembly of the heating, ventilation, and air conditioning (HVAC) unit located on the western side of the Administration Building roof on October 10, 2014, to facilitate asbestos-containing material (ACM-) roofing removal from under the unit prior to demolition.
- Completing removal of non-structural building components from inside the Administration Building (e.g., wood framing and interior sheetrock walls, drop ceilings, sinks, toilets, plumbing fixtures, etc.), except those components containing lead-based paint on October 10, 2014, in preparation for lead-based paint abatement and subsequent building demolition.
- Continuing to perform pre-excavation topographic survey activities.
- Continuing to clear trees (less than 8-inch in diameter) and large brush from the cap area.
- Continuing chipping of trees and large brush from site clearing activities.
- Starting construction of site haul roads with tree and large brush chippings.
- Starting installation of new erosion and sedimentation control measures (e.g., silt fence) as specified in the RDA.
- Continuing erosion/sedimentation control measures inspection, maintenance, and documentation.
- Continuing routine air monitoring in accordance with the project-specific Community Air Monitoring Plan (CAMP). The air monitoring was performed by Preferred.

PROPOSED WORK ACTIVITIES

Posillico's two-week “look ahead” schedule is included as Attachment A and summarized below:

- Complete site clearing activities.
- Continue mobilizing equipment needed for project earthwork.
- Continue chipping trees and large brush generated from site clearing activities.
- Continue constructing site haul roads with tree and large brush chippings.
- Continue installing new erosion and sedimentation control measures.
- Start removing fire suppression system post indicator valves and associated bollards.
- Start downsizing concrete debris in existing Stockpile #10 (to 6-inches or less per the disposal requirements of the Gloucester County Landfill).
- Start excavation of Phase 2 OU4 excavation areas.
- Start loading Toxic Substances Control Act- [TSCA-] regulated PCB waste/New York State hazardous waste soil piles for disposal at the Waste Management(WM) Landfill located in Model City, NY disposal facility.
- Start loading non-hazardous waste soil piles for disposal at the Gloucester County Landfill.
- Continue collecting samples of the clean backfill material from Beth Moses Cemetery in accordance with DER-10 and start importing material from the cemetery to the site.
- Start backfilling and in-place compaction testing of the existing Phase 1 OU4 excavation areas.
- Start removing the steel underground tank (suspected former tower water system return tank) located in the eastern portion of the property.
- Remove loose lead-based paint (LBP) chips from the Administration Building interior walls and transport the drums of paint chips offsite for disposal at Cycle Chem located in Elizabeth, New Jersey.
- Continue air monitoring in accordance with the CAMP.
- Continue erosion and sedimentation control measures inspection, maintenance, and documentation.

OPEN DISCUSSION

- The NYSDEC requested an anticipated schedule for starting transportation and offsite disposal of the non-hazardous waste soil to Gloucester County Landfill. ARCADIS and Posillico informed the NYSDEC that Gloucester County Landfill has requested additional sampling (via test pitting) of the non-hazardous waste soil excavation areas and existing stockpiles for laboratory analysis before providing approval to accept the waste. Posillico indicated that it had already collected the samples, York labs had provided the analytical results, the lab results were sent to the landfill, and the landfill is currently reviewing the lab results.
- The NYSDEC inquired about the status of offsite transportation and disposal of TSCA-regulated PCB waste/New York State hazardous waste soil at the CWM Chemical Services, LLC landfill in Model City, NY. ARCADIS and Posillico informed the NYSDEC that CWM requested the NYSDEC Analytical Services Protocol (ASP) Category B reports to supplement the RDA tabulated data that Posillico had already provided to CWM. Posillico provided the ASP lab reports to CWM after acquiring them from ARCADIS, and CWM is in the process of reviewing the reports. CWM has not yet provided approval for disposal of the waste.
- The NYSDEC asked for an update on Bayer pursuing offsite access agreements. Bayer and ARCADIS informed the NYSDEC that the “draft” agreements and corresponding cover letters (presenting a remedial plan overview) are completed for both the Long Island Railroad (LIRR) right-of-way and 70 Commerce LLC, and Bayer’s legal counsel is currently reviewing the “draft” letters.
- The NYSDEC inquired about data and plans for addressing additional PCB-impacted soil identified in the southeastern corner of the Site. ARCADIS informed the NYSDEC that final laboratory results have been tabulated and reviewed for the samples collected from delineation sampling locations V-RD-280 through V-RD-283 on September 10, 2014. PCBs were identified at only one sampling location (V-RD-281) at a concentration exceeding the 10 parts per million (ppm) PCB subsurface soil cleanup level. ARCADIS is currently preparing RDA Modification #1, which presents the plan for additional excavation.
- The NYSDEC discussed the informational e-mail correspondence distributed by CSF on the site rail spur and asked the group if using rail for offsite transportation and disposal of waste soil was still a viable option. ARCADIS indicated that rail disposal for this phase of work was considered, but determined to not be feasible because of the small TSCA-regulated PCB waste/New York State hazardous waste soil volume and the lack of a rail spur at the proposed hazardous waste landfill (CWM Model City Landfill) and non-hazardous waste landfill (Gloucester County Landfill). ARCADIS also indicated that the spur would not be useful for importing backfill because the proposed source is close by in West Babylon, New York.

- The NYSDEC asked if Bayer had started working on preparing the Environmental Easement (EE). Bayer informed the NYSDEC that there have been discussions with Bayer's in-house legal counsel, but the EE has not yet been prepared.
- The NYSDEC inquired about the project involvement of Impact Environmental. Bayer informed the NYSDEC that Impact Environmental has been copied on all of the Weekly Progress Reports but will not be attending weekly status update meetings.
- The NYSDEC suggested that ARCADIS hold a call following the meeting to discuss the verification sampling performed on the Phase 1 OU4 open excavation areas before Posillico starts backfilling these areas.
- ARCADIS informed the NYSDEC that Posillico is collecting additional samples from the Beth Moses Cemetery backfill source and that Posillico's subcontractor/backfill source owner (Stony Creek Services, Inc.) has segregated the soil sampled by Posillico for exclusive use at the Hicksville site.
- The NYSDEC inquired about receiving an updated project schedule. ARCADIS indicated that work is generally proceeding according to the schedule that was e-mailed to the NYSDEC on August 29, 2014 (which consists of an updated version of the schedule from the RDA, incorporating timeframes from Posillico's overall construction schedule). ARCADIS commented that a few items (e.g., waste load-out) have slipped slightly, but Posillico anticipates getting back on schedule once landfill approvals are received. ARCADIS indicated that it will revise the project schedule if there are further delays in construction. ARCADIS indicated that the two-week look ahead schedules attached to the Weekly Progress Reports are also a good source of scheduling information.
- ARCADIS notified the NYSDEC of previously unidentified soil mounds that were exposed in the design cap area during the tree/brush clearing activities. The mounds range in size from less than approximately 1 cubic yard (CY) to 5 CY. ARCADIS noted that it would provide the NYSDEC with a figure showing all of the pile locations identified at the site, photos of each pile, and the proposed measures being taken to address each pile.
- ARCADIS notified the NYSDEC that a previously unidentified concrete vault was identified south of Excavation Area 9B, in an area that had previously been overgrown with brush. The vault is located within the proposed cap area and is not addressed in the RD Addendum. ARCADIS will review historical drawings to try and determine the former use of the vault and inspect the inside of the vault to see if it can be decommissioned similar to the vaults discussed in Weekly Progress Report #3.

ACTION ITEMS

- ARCADIS will complete and provide RD Modification #1 to the NYSDEC.

- ARCADIS and the NYSDEC will discuss the Phase 1 OU4 excavation area verification sampling results.
- ARCADIS and Posillico will revise the project schedule to reflect construction activities to date and send the updated schedule to the NYSDEC.
- ARCADIS will provide the NYSDEC with the laboratory analytical results for the additional samples of clean fill material to imported from the Beth Moses Cemetery, following receipt of the results from Posillico's laboratory subcontractor.

ATTACHMENTS

- Attachment A: Posillico's Two-Week "Look Ahead" Schedule
- Attachment B: Weekly Sign-In Sheet
- Attachment C: Weekly Site Photos
- Attachment D: Weekly Air Monitoring Report

For future memorandums, the following attachments will also be provided:

- Excavation/Backfilling Progress Table
- Excavation/Backfilling Progress Figure

Upon receipt of this memorandum, please notify Mr. Andrew Enigk of ARCADIS at 315.671.9548 within 5 days if you believe that any portion of this summary does not accurately reflect issues discussed/resolved during the meeting, or if additional items should be recorded in this summary. If modifications are made, a follow-up memorandum will be distributed.

Weekly Air Monitoring Report

**COMMUNITY AIR MONITORING WEEKLY REPORT
(WEEK ENDING 10/10/14)**

**BAYER MATERIALSCIENCE LLC.
OU4 REMEDIAL ACTION – NYSDEC SITE #130004
125 NEW SOUTH ROAD, HICKSVILLE, NEW YORK**

This report summarizes the results of the community air monitoring performed by Preferred Environmental Services (PES) from October 6, 2014 to October 10, 2014 in connection with the implementation of the OU4 remedial action by Posillico Environmental (Posillico) and its subcontractors, on behalf of Bayer MaterialScience LLC. (Bayer) at the Bayer site in Hicksville, New York (the "site").

A. AIR MONITORING ACTIVITIES

Air monitoring activities were performed in accordance with the Community Air Monitoring Plan (CAMP) included as Appendix D to the New York State Department of Environmental Conservation (NYSDEC) approved Remedial Design (ARCADIS, February 2013) for the above referenced site. Air Monitoring was performed at stations that were labeled with the following IDs:

- UP = Upwind
- DN1 = Downwind 1
- DN2 = Downwind 2
- DN3 = Downwind 3

The daily locations of the air monitoring stations are shown on the site maps included in Attachment 1. No intrusive activities were performed from October 6, 2014 to October 8, 2014. CAMP monitoring during intrusive activities commenced on October 9, 2014. However, intrusive activities were not performed on October 10, 2014.

B. AIR MONITORING RESULTS

No volatile organic compounds (VOCs) or particulates (PM-10) were measured above the action levels in the CAMP for the above-referenced monitoring period. The action levels are 5 parts per million (PPM) above background for VOCs and .150 milligrams per cubic meter (mg/m³) above background for PM-10. The range of VOCs and PM-10 concentrations measured during this monitoring period (15 minute time-weighted averages) are summarized below.

Monitoring Station	VOC Results (PPM)		PM-10 (mg/m ³)	
	Minimum	Maximum	Minimum	Maximum
UP	0.0	0.1	0.006	0.034
DN1	0.0	0.1	0.000	0.036
DN2	0.0	0.1	0.002	0.066
DN3	0.0	0.1	0.002	0.028

The VOC and PM-10 data collected for the week are plotted on the graphs included in Attachment 2. A separate graph is provided for each monitoring station and each graph presents the full set of 15 minute time-weighted averages (TWA) for VOCs and PM-10 for that station. The raw data files from the individual monitors and meteorological data from the weather station are included in Attachment 3.

Please do not hesitate to contact Daniel Prisco-Buxbaum (PES CAMP Monitor) at 516-987-2472, Gregory McDermott (ARCADIS Onsite Construction Oversight) at 516-993-1995 or Andrew Enigk (ARCADIS Assistant Project Manager) at 315-671-9548 if you have any questions or need additional information regarding this report.
