<b>Recommendations:</b>																													
This SVE system has removed 1838 lbs of VOCs during the year 2000.																													
The air sparging remains off and higher removals occur with it off.																													
The chart at the right shows specific monthly removals for the on-site SVE system (Y axis is pounds removed, X axis is month of 2000).																													
Monthly reports are in on time and no problems are outstanding.																													
<u>The performance at this site is quite good.</u>																													
<u>Review consent order for compliance</u>
