**Inactive Hazardous Waste Disposal Site Classification Notice**

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (Department) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (the "Registry"). The site identified above, and located on a map on the reverse side of this page, was recently reclassified on the Registry as a Class 4 site as it no longer presents a significant threat to public health and/or the environment for the following reason(s):

Hazardous waste disposal at this site was addressed by implementation of the remedy identified for the site by the March 2001 Record of Decision (ROD) and April 2007 Explanation of Significant Differences (ESD). These remedial actions included: excavation and offsite disposal contaminated soils and asphalt, backfilling with clean fill, construction and maintenance of a soil cover system (asphalt); removal and on-site drywell and installation of a new sanitary management system; removal and off-site disposal of underground storage tanks' epoxy resin sealing of the floor; and abatement of asbestos-containing material in the floor tiles. In addition, engineering and institutional controls will restrict land use and the implementation of a Site Management Plan will address long-term management of remaining contaminated soils and provide for continued groundwater monitoring. The site is properly remediated and requires site management, therefore, a significant threat to public health and the environment no longer exists at the site.

**If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact the Department's Project Manager listed below.**
