RE: Bi-Annual Groundwater Monitoring Report
Arkwin Industries
Site ID #130043D
New Cassel, Nassau County

Dear Mr. Jones:

I reviewed the September 2005 Bi-Annual Groundwater Monitoring and Status Report for the Arkwin Industries site located within the New Cassel Industrial Area (NCIA). According to the data, it appears that the soil vapor extraction (SVE) system is addressing groundwater contamination. The site is also being considered for reclassification based on the groundwater data. This site is part of the NCIA legacy sites and will need an evaluation of the potential for soil vapor intrusion prior to its reclassification. I look forward to reviewing the soil vapor intrusion work plan for the site.

If you should have additional questions concerning this issue, please contact me at (518) 402-7870.

Sincerely,
