

QUARTERLY SUMMARY REPORT

PERIOD: January 1, 2015 through March 31, 2015

Date of Report: April 10, 2015

Location: American Drive-in Cleaners Site, 3801 Hempstead Turnpike, Levittown, NY

Activities During Reporting Period (January through March 2015)

- Monthly monitoring of the Beverage Center SSDS
- Submission of Soil Vapor Intrusion (SVI) Sampling Work Plan – March 2, 2015
- Approval of SVI Sampling Work Plan by NYSDEC/NYSDOH - March 19, 2015
- Shutdown of SSDS system in preparation for SVI Sampling - March 19, 2015

Anticipated Activities During Next Reporting Period (April through June 2015)

- Monthly monitoring of the Beverage Center SSDS.
- SVI sampling at the Beverage Center (Conducted on April 2, 2015)
- Performance of groundwater monitoring in accordance with SMP with approved revisions.
- Submission of Annual PRR report.

Summary and Conclusions

Groundwater Monitoring – Modification to the frequency of groundwater monitoring from quarterly to every fifth quarter have been requested and approved by NYSDEC. The next groundwater monitoring event is planned for the second quarter of 2015.

Beverage Center SSDS Monitoring - Monitoring of the Beverage Center SSDS was performed monthly during the monitoring period. No issues with SSDS performance or operation were noted. SVI Sampling to assess continued need for SSDS will be evaluated upon receipt of data and will be submitted in an Interim Data Submittal to NYSDEC for review.
