Re: Westbury Cleaners Groundwater  
123 Post Ave  
Westbury, NY 11590

Dear Mr. Putnam:

On Tuesday, June 8, 2004, Anson Environmental Ltd. (AEL) collected groundwater samples from the three on-site monitoring wells at the above referenced site, under the direction of the NYSDEC. Samples were submitted to Ecotest Laboratories in North Babylon for analysis utilizing EPA Method 8260.

The samples from Monitoring Well #1, Monitoring Well # 2 and Monitoring Well # 3 were collected utilizing a whale pump. The well was purged until the water discharging from the pump was colorless. The sample was collected directly from the discharge tubing. Between each sampling the pump and tubing was decontaminated utilizing a "Liqui Nox" detergent and water solution.

A table showing the summary of the data is included below. Attached to this report is a historical review of groundwater analytical data (Appendix A) as well as depth to water measurements (Appendix B). The actual laboratory analytical data is attached in Appendix C.

Chemical	MW #1 (ug/L)	MW #2 (ug/L)	MW #3 (ug/L)	NYSDOH TOGS (ug/L)
c-1,2- Dichloroethene	ND	ND	ND	5
Trichloroethylene	ND	ND	ND	5
Tetrachloroethene	<b>9</b>	<b>9</b>	<b>7</b>	5

ND= Non Detect

Numbers in **BOLD** exceed NYSDOH TOGS levels.

*"Your Environmental Partner"*

The next round of groundwater sampling from the on-site monitoring wells is scheduled for December 2004 or January 2005. If you have any questions please feel free to contact me at 631-351-3555 ext. 15 or Dean Anson at ext. 12.

Respectively submitted,

Matthew Schieferstein  
Environmental Scientist
