Receive Site Information by Email. See next page to Learn How.

Site Name: Busy Bee Dry Cleaners

October 2019

Site No. 130094

Tax Map No. 62-1-177

Site Location: 1818 Merrick Road, Merrick, Nassau County

State Superfund Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry). The site identified above, and located on a map on the reverse side of this page, has been added to the Registry as a Class 02 site that presents a significant threat to public health and/or the environment for the following reason(s):

- On-site groundwater is contaminated with volatile organic compounds. Tetrachloroethene and its breakdown products trichloroethene and cis-1,2-dichloroethene have impacted the groundwater in excess of standards, criteria and guidance values. The groundwater plume has migrated off-site with the flow of groundwater to the south-southeast. Further investigation is needed to identify the nature and extent of site-related contamination, and to address any potential human exposures.

DEC will keep you informed throughout the investigation and cleanup of the site.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact DEC's Project Manager listed below.

FOR MORE SITE INFORMATION

Additional information about this site can be found using DEC's "Environmental Site Remediation Database Search" engine which is located on the internet at:

www.dec.ny.gov/cfm/extapps/derexternal/index.cfm?pageid=3

Comments and questions are always welcome and should be directed as follows:
