Re: **Off-Site Remedial Design/Remedial Action (RD/RA) Work Plan**
A.K. Allen Company, Inc.
Mineola, New York

Dear Mr. Wunderlich:

Attached is a copy of our RD/RA Work Plan for the above-referenced site. The NYSDEC has reviewed this document and have informed us that they have no comments relative to activities involving coordination with the LIRR. As such, we would like to schedule a meeting with the LIRR in the near future.

As you are aware, this work plan includes the excavation and disposal of contaminated soil from below the LIRR tracks adjoining our client's Mineola property. Section 5.3 of this document – **Excavation Design and Pre-Excavation Tasks** – outlines a list of pre-excavation activities that must be completed prior to performing the work. We request that you review both Section 5.3 and Section 5.4 – **Excavation Equipment and Procedures** – so that we may discuss them at a meeting. We understand from earlier communications that next planned track outage is scheduled for April 2007. In light of this schedule, we request that you or a member of the LIRR staff meet with us at the site within the next 30 days.

I will be the lead contact for technical matters regarding this project. For all legal matters, such as development of an access agreement, the environmental Attorney currently retained by our client is Charlotte Biblow, Esq. Her direct dial phone number is (516) 227-0686 and her mailing address is: Farrell Fritz, P.C., 1320 Reckson Plaza, Uniondale, New York 11556-1320. In addition, the current NYSDEC Site Manager is Kerry Maloney and her phone number is (518) 402-9622.

Your prompt attention to this letter and Work Plan are greatly appreciated. We look forward to meeting with you soon.

Sincerely,

CA RICH CONSULTANTS, INC.

Eric A. Weinstock
Vice President
