## OBSERVATIONS, DISCUSSIONS, ETC

Roux Environmental Engineering and Geology, D.P.C. (Roux) was on-site to collect groundwater samples from PW-7S, PW-7D, PW-11S, and PW-11D as part of the Remedial Investigation.

## GENERAL COMMENTS:

### Contractor Work Performed On-Site (if applicable):

- N/A

### Roux Conducted Work Performed On-Site:

- Roux performed low-flow groundwater sampling using a bladder pump at groundwater monitoring wells PW-7S, PW-7D, PW-11S, and PW-11D located at the adjoining property to the north (151 Sunnyside Boulevard).

### Material Imported/Exported:

- None.

### Air Monitoring:

- CAMP was not performed during groundwater sampling activities.

### Samples Collected:

- PW-7S: sampled at 15:23. Analyzed for VOCs, PFAS, and 1,4-Dioxane.
- PW-7D: sampled at 17:35. Analyzed for PFAS, Pesticides, Herbicides, PCBs, and 1,4-Dioxane
- PW-11S: sampled at 11:44. Analyzed for VOCs
- PW-11D: sampled at 13:30. Analyzed for VOCs
- Trip blank and field blank (PFAS) collected.

### Other Relevant Comments or Problems Encountered:

- None.

### Health and Safety:

- Level D PPE was worn on-Site.
