Re: Certificate of Completion and Registry Reclassification from “2” to “4”  
20 West Centennial Avenue  
Roosevelt, Nassau County, Site No. 130154

Dear Mr. Baer

Congratulations on having satisfactorily completed the remedial program at the 20 West Centennial Avenue site (the “Site”). Enclosed please find an original, signed Certificate of Completion (“COC”). The New York State Department of Environmental Conservation (“Department”) is pleased to inform you that the Final Engineering Report for the Site is hereby approved, allowing the COC to be issued for the Site, referenced above. This also results in the reclassification of the Site on the Registry of Inactive Hazardous Waste Disposal Sites in New York State (“Registry”) from Class “2” to Class “4”.

Please note that you are required to perform the following tasks:

- If you are the Site owner, you must record a notice of the COC in the recording office for the County (or Counties) where any portion of the Site is located within 30 days of issuance of the COC; or if you are a prospective purchaser of the Site, you must record a notice of the COC within 30 days of the date that you acquire the Site. If you are a non-owner, you must work with the owner to assure the notice of COC is recorded within the time frame specified. In all cases, proof of filing must be provided to the Department within 30 days of receipt. A standard notice form is attached to this letter.
- Place the notice of the COC in the document repository for the Site within 10 days of issuance of the COC; and
- Implement the Department-approved Site Management Plan (SMP) which details the activities necessary to assure the performance, effectiveness, and protectiveness of the remedial program. You must report the results of these activities to the Department in a Periodic Review Report (PRR) which also includes any required IC/EC certifications. The Site IC/ECs are identified on the attached Site Management Form. The first PRR including the certification of the IC/ECs is due to the Department in December 2022.

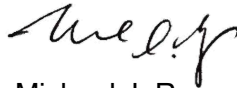

The Department will prepare and distribute to the Site Contact List a fact sheet describing the institutional and engineering controls that are required at the Site, and notifications relating to the reclassification or delisting of the Site on the Registry.

Department of  
Environmental  
Conservation

If you have any questions regarding the reclassification or any of the above tasks, please contact Chris Heller at (518)-402-0163 or [chris.heller@dec.ny.gov](mailto:chris.heller@dec.ny.gov).

Sincerely,
