Section 1
Introduction

This record search report for the Shames Drive Industrial Park (herein referred to as the "site") was prepared by Camp Dresser and McKee (CDM) for the New York State Department of Environmental Conservation (NYSDEC) under the Engineering Services for Investigation and Design, Standby Contract No. D004437. The report was developed in accordance with the "State Superfund Standby Contract Work Assignment D004437-11, Site Characterization, Shames Drive, Site No. 130173."

The Shames Drive Industrial Park is comprised of twenty-six municipal lots. The Industrial Park is identified by a looped roadway, Shames Drive, accessible from Brush Hollow Road in Westbury, Nassau County, Long Island, New York. The property is comprised of Nassau County Section 11, Block B, Lots 938, 935, 962, 1073, 1048, 1050, 1052, 918, 954, 955, 956, 1014, 965, 959, 960, 964, 1050, 958, 923, 970, 921, 922, 930, 941, 934, and 933. Each property is improved with an industrial, commercial, or office building.

1.1 Project Objectives

The objective if this work assignment is to determine if on-site sources of contamination are present within the industrial park which would warrant the site being listed as a New York State Hazardous Waste Site. A secondary objective is also to determine if the industrial park properties have been impacted by upgradient sources of contamination. Specifically, the Solvent Finishers Site, a former industrial dry cleaner located at 601 Cantiague Rock Road, is suspected as a strong potential source of tetrachloroethene contamination in groundwater. Since the Shames Drive Industrial Park is downgradient of the Solvent Finishers site, relative to the south/ southwest flow of groundwater, it is a suspected that Shames Drive properties may be impacted. See Figure 1-1. The record search was the first step in the process of characterization, and serves to identify potential contaminated sites, and potential sources of contamination at the site. The records/ background search was performed to meet the requirements of the New York State Department of Environmental Conservation (NYSDEC) Division of Draft Remediation DER-10 Technical Guidance for Site Investigation and Remediation issued December 25, 2002

The information identified in this report will be used as the foundation of the characterization strategy for the site. This report is comprised of the following sections:

- **Section 1 - Introduction**

  This section presents a description of the sites, including the location, environmental setting, area geology and hydrogeology, and discussion of the project objectives.

Section 2 – Project Description

This section presents a general description of the site, its surroundings, and past operations.

- **Section 3 – Environmental Setting**

  This section describes the overall environmental setting of the subject property including geology and hydrogeology.

- **Section 4 – Records**

  This section presents a summary of the federal, state, and local records reviewed.

- **Section 5 – History**

  This section presents a summary of historic aerial photographs, maps and directories reviewed.

- **Section 6 – Findings and Recommendations**

  This section presents the results of the record search and provides a list of potential sources

The objective of this work assignment is to determine if environmental contamination id present and whether characterize the site should be listed as a New York State Hazardous Waste Site (NYS HWS). In order to accomplish this task, the following tasks were completed:

- Perform a site reconnaissance to identify potential on site sources
- Perform a historic records search of the twenty-six properties to determine if historic uses of the properties may warrant additional investigation at particular lots. The record search included the review of:
  - Federal, state and local databases
  - Local records (Nassau County and Oyster Bay files)
  - Aerial photographs
  - Topographic maps
  - Sanborn maps
  - City directories
- Utilize local geologic and hydrogeologic information to determine site characteristics, including soil type, depth to groundwater and groundwater flow direction.

1.2 Limitations and Statement of Use

The results of this record search are based on a review of available information related to the industrial park properties. The information included a limited site reconnaissance of the industrial park, a review of acquired environmental and regulatory and related agency documents, public records, and a review of historical uses.

The conclusions presented represent CDM's professional opinion based on the aforementioned sources of information. A records search, as presented here, is not a comprehensive site characterization, Phase I Environmental Site Assessment, or regulatory compliance audit and should not be construed as such. CDM will not and cannot represent that the property contains no hazardous or toxic materials, products, or other latent conditions beyond that observed by CDM. Further, the services herein shall in no way be construed, designed or intended to be relied upon as legal interpretation or advice.

1.3 Data Sources

The industrial park was assessed for environmental contamination problems and general usage. Adjacent properties were also considered for obvious environmental contamination problems and general usage. The assessment was performed in accordance with NYSDEC DER-10. The following summarizes the sources used to acquire information for this report. Upon authorization to proceed, CDM requested information relevant to the assessment of the subject property from the NYSDEC.

CDM performed a reconnaissance of the site on May 17, 2007. The site visit included a walk through of the industrial park and a sidewalk assessment of the properties. CDM did not perform walk-throughs of industrial park properties to assess the interior conditions and features. The site reconnaissance provided information on current conditions of the industrial park properties. NYSDEC accompanied CDM during the site reconnaissance. CDM's field notes are provided in **Appendix A**.

A radius map report was prepared for the Solvent Finishers property at 601 Cantiague Rock Road by Environmental Data Resources Inc. (EDR). This report is a compilation of current federal, state, local and tribal data sources and is provided in **Appendix B**. Information obtained from the USEPA Envirofacts and NYSDEC Spills Incident online database searches is included as **Appendix C**. Information received from the Nassau County Department of Health is provided in **Appendix D**. Nassau County Tax Assessor property cards and records received from the Town of Oyster Bay Building Department are provided in **Appendix E**. Aerial photographs ordered through EDR are provided in **Appendix F**. Historical 7.5-Minute Series topographic maps were reviewed for the subject property and are provided in **Appendix G**. A Sanborn Map search conducted by EDR produced a single map from 1968. A copy of the map is provided in **Appendix H.** A city directory search for listings at the subject property address is provided in **Appendix I.**

The geology and topography in the area of the subject property were reviewed to determine the potential for migration of possible contaminants. Geologic and hydrogeologic data was obtained from the published sources referenced in Section 7. General site physiography, geology, and hydrogeology are also discussed in Section 3.

Section 2
Project Description

2.1 Project Location

The combined acreage of all industrial park properties is approximately 24 acres. Shames Drive is located in Nassau County, Long Island, NY and spans across the towns of Westbury, Jericho and Oyster Bay. See Figures 2-1 and 2-2 for site location maps. The Site is relatively flat and paved and lies at an approximate elevation of 160 feet above mean sea level (msl). The industrial park properties are all developed with buildings constructed in the late 1950s early 1960s.

The ground water table lies at an approximate elevation between 70 and 80 feet above msl at the Site (~80 feet below ground surface). The water table generally parallels land surface.

The property is surrounded by commercial and industrial properties. The site is bound to the north by Montrose Road, to the west by Brush Hollow Road, to the south by the NorthFork Theatre, and to the east by Cantiague Rock Road and commercial/ industrial buildings.

2.2 Site Background and Operational History

Development of Shames Drive first began in the 1940s as farmland with residential and farm buildings. Based on the 1947 Hicksville 7.5 minute topographic map (Appendix G) and 1953 aerial (Appendix F) a driveway leading to three structures, likely a house and farm buildings existed. A clearing south and east of the buildings is defined and appears to be farmed. Based on the size, shape and location of the clearing it is further thought to set the outline for the Shames Drive circle. The start of industrial development began in the late 1950s – early 1960s with construction of the road. Historic Sanborn maps (Appendix H) and Nassau County property cards show that nearly all of the buildings along Shames Drive were constructed between 1958 and 1961 with improvements such as additions, garages, shops, and paving being completed shortly after.

The majority of the Shames Drive properties were first developed for manufacturing and industrial use. Site construction has remained fairly unchanged with only the occupants and property use changing over the years. Table 2-1 on the following page lists the properties aligning Shames Drive by block and lot, current address, lot size, year of development and original occupant or use.

Section 3
Environmental Setting

The Site is relatively flat and lies at an approximate elevation of 160 feet above mean sea level (msl). The ground water table lies at an approximate elevation between 70 and 80 feet above msl at the Site (~80 feet below ground surface).

The water table generally parallels the land surface and is expected to flow to the south-southwest. However, pumping at local public supply wells may complicate the groundwater flow direction.

3.1 Geology

Long Island is comprised of Cretaceous and Pleistocene unconsolidated deposits underlain by Early Paleozoic to Precambrian bedrock. The hydrogeology of Long Island has been well documented over the years by the USGS (Doriski and Wilde-Katz, 1983; Smolensky et al, 1989). Three major aquifers are present on Long Island: the upper glacial aquifer, the Magothy aquifer and the Lloyd aquifer.

Bedrock

The base of Long Island's aquifer system is Early Paleozoic (Ordovician and Cambrian) to Precambrian crystalline metamorphic and igneous rock, predominately schist, gneiss, and granite (Smolensky et al, 1989). The bedrock is relatively impermeable and is not known to transmit or store significant amounts of groundwater. Sections of the bedrock have been highly weathered, forming saprolite that has been removed in many places by glacial scouring. Glacial scouring has also left several buried valleys that have been subsequently filled by silt and clay. The bedrock slopes to the southeast, and overlying unconsolidated deposits thicken to the south.

3.2 Hydrogeology

Lloyd Aquifer

The Lloyd Sand Member of the Raritan Formation of the Late Cretaceous Age overlies the saprolitic bedrock surface and is Long Island's deepest aquifer. The Lloyd sand was deposited as a series of braided streams and deltaic deposits consisting of white and pale yellow sand with interbedded lenses of gravel and white clay (Smolensky et al, 1989). The aquifer does not outcrop on Long Island and is believed to extend to the north beneath Long Island Sound in eastern Nassau County and in Suffolk County, and offshore to the south, beyond the barrier beaches. The Lloyd aquifer is confined in most places, except where the overlying Raritan clay has been eroded away. The thickness of the Lloyd aquifer varies from 0 feet where it is not present along the north shore of Nassau County, to more than 500 feet in the southeastern areas of Nassau County. The average horizontal hydraulic conductivity is reported to be approximately 40 ft/day with a 10:1 vertical anisotropy.

Raritan Clay

Overlying the Lloyd aquifer is the Cretaceous Age clay member of the Raritan Formation, referred to as the Raritan clay. The Raritan clay is the major confining unit on Long Island, ranging between 150 and 250 feet in thickness. Like the Lloyd aquifer, the Raritan clay is absent from areas of northern Queens and northern Nassau County where it had been eroded. The Raritan clay outcrops in parts of Queens, and is believed to be present north of the island beneath Long Island Sound, and south of the island, beneath the barrier islands. This confining unit consists of solid, multicolored, compact clay (gray, white, red, or tan) with interbedded lenses of sand. The average vertical hydraulic conductivity is reported to be approximately 0.001 ft/day.

Magothy Aquifer

The Magothy aquifer is an upward fining sequence of the Cretaceous Age Matawan Group consisting of fine to medium grained quartz sand, silt, clay, and gravel and is up to 1,100 feet thick. The base of the Magothy is very coarse, having been deposited in a high-energy environment involving stream and deltaic deposition. This high-energy deposition abruptly ended as fine sands, silts and clays form the majority of the unit. The Magothy Aquifer is unconfined in the site area. The Magothy aquifer is the principal water supply aquifer in Nassau and Suffolk Counties, attributing to its thickness. Its average horizontal hydraulic conductivity is reported to be approximately 50 ft/day with a vertical anisotropy of 100:1 (Smolensky et al, 1989).

Upper Glacial Aquifer

The upper glacial aquifer is the surficial unit on Long Island and is therefore entirely unconfined. Along the Harbor Hill and Ronkonkoma terminal moraines and parts of the north shore, the unit is composed of till consisting of poorly sorted clay, sand, gravel, and boulders. The till is generally poorly permeable and may contain perched water. The outwash deposits that are found are mainly between, and south of, the moraines. The outwash deposits are moderately to highly permeable, consisting of gray, brown, and yellow fine to very coarse sand and gravel. The upper glacial aquifer ranges up to 600 feet thick, however the saturated thickness is often much lower. The estimated average horizontal hydraulic conductivity generally exceeds 225 ft/day.

Ground Water

Based on Nassau County regional groundwater information obtained in the *Nassau County Groundwater Monitoring Program, 2002-2003* (NCDPW, 2005) the water table lies at an elevation of 70 to 80 feet above mean sea level (MSL). Flow in the water table aquifer is complicated by a groundwater divide located approximately 1,000 feet northeast of Cantiague Rock Road. In general, it is expected that groundwater flow at the site will be to the west/southwest, however because of its proximity to the groundwater divide there is a potential for flow to the north and south from the site as well. In addition, groundwater extraction from local public supply wells can also influence groundwater flow at the site.

The EDR report provided information on several USGS wells and former public supply wells in the vicinity of the site. The well depths vary from 77 feet bgs to 865 feet bgs with depth to groundwater consistently around 80 feet bgs. The wells located closest to the site include the following:

Well	*Location*	*Type*	*Depth*	*Aquifer*
N-01194	North	Industrial	1000 ft	Upper Glacial
N-09511	North	Industrial	206	Magothy
N-03925.1	West	Monitoring	143	Upper Glacial
N-07030	Southeast	Monitoring	531	Magothy
N-11457	Southeast	Monitoring	865	Lloyd
N-11458	Southeast	Monitoring	625	Magothy
N-01195	Southeast	Monitoring	155	Upper Glacial

Flow in the Magothy Aquifer is more towards the south/southwest near the site. Groundwater flow in the deeper Lloyd Aquifer is expected to be to the southwest.

A public supply well (PWS NY0002831) owned and operated by the Jericho Water District is active and has a report of a single violation in 1993. The February 1993 coli form count exceeded the standard maximum contaminant level. The following month the coli form count was reported at an acceptable level. Two State supply wells were also identified in the EDR report. The wells are identified with well ID NY2902829, Name N-03878-Well 6-2 and well ID NY2902829, Name N-06190 - Well 7-1. Both wells reportedly are owned by the Hicksville Water District and are Active. Figure 1-4 shows the simulated water table and topography. The depths to water at the wells vary from 70 to 90 feet bgs.

Section 4
Records Information
4.1 Environmental Databases

This section summarizes findings of agency databases that were reviewed to identify facilities that generate, transport, store, or dispose of hazardous materials or wastes on or near the property and sites having, or suspected of having, soil or groundwater contamination that may impact the property. Environmental Data Resources (EDR) was used to conduct the search. Their report, which provides detailed descriptions of each database, summaries of listed sites, and figures with locations and other pertinent information, is included with this report in **Appendix B**. In addition, public information available from PADEP and USEPA was also searched to identify sites near the subject property, which are known to have contamination.

Instead of generating a new search for each of the twenty-six Shames Drive lots a review of the database report generated during the investigation of the 601 Cantiague Rock Road site was examined. The 601 Cantiague Rock Road property is located approximately one-third-mile north of the industrial park. None of the Shames Drive properties were listed in the databases report. The following table lists the number of Federal and State ASTM Standard sites by database within the prescribed search radius appearing in the EDR report:

The following databases identified a surrounding property:

Resource Conservation and Recovery Act (RCRA) Information System (RCRIS). These sites include generators of hazardous waste regulated under RCRA. Under RCRA, hazardous waste generators are classified by the mass of hazardous waste generated in a calendar month into the following categories: Large Quantity Generator (LQG), greater than 1,000 kilograms (kgs); Small Quantity Generator (SQG), 100 to 1,000 kgs; and Conditionally-Exempt Small Quantity Generator, less than 100 kgs. RCRIS Generators, while they represent some form of hazardous waste activity, are most significant if they are determined to have Class I Violations or to be non-compliant. The search identified one large quantity hazardous waste generator and four small quantity hazardous waste generators including the target property.

Site Name	Location	LQG/SQG	Distance/ Direction

Table Wraps Limited II	666 Cantiague Rock Road	SQG	1/4- 1/2 mile/north
Jericho Water District	Cantiague Rock Road and Saratoga	SQG	1/8- 1/4 mile/north

- **Rubies Costume Co Inc** is identified by EDR as a SQG. The site is also listed on the FINDS and NY Manifest databases. The site is not reported as a Transport, Storage, or Disposal facility (TSDF) but is listed as having three violations. The areas of violation are listed as generator- general requirements (04/04/2000), generator- all requirements/oversight (12/16/1992), and generator- land ban requirements (12/16/1992). Compliance was achieved on 05/08/2000 and 02/02/1993. Twenty NY manifests are included under the site detail in the EDR report. All manifests identify the waste generator as College House Inc. Wastes generated include non-listed ignitable wastes, non-listed corrosive wastes, silver, 1,1,1-trichloroethane, and tetrachloroethylene. The site is listed under EP ID: NYD005906904.

- **Solvent Finishers Inc.** is listed as a SQG. The site is also listed on the FINDS database. The site is not listed as a TSDF facility and no violations are reported. The site is listed under EP ID: NYD0065942815.

- The **Adams-Fairchild Property** is listed as a LQG. The site is located less than a ¼ mile northwest of the subject property and at a relatively lower elevation. Additionally the site is listed on the FINDS and NY Manifest databases. The site is not reported as a TSDF facility or listed with any violations. The site is not reported as a TSDF facility or listed with any violations. Two NY manifests are detailed in the EDR report. The manifests are dated December 1999 and indicate the site was the generator of lead and unknown materials. The site is listed with EPA ID: NYR000078972.

- **La France Cleaners Inc** is identified by EDR as a SQG. The site is located less than a ¼ mile northwest of the subject property and at an equal elevation. Additionally the site is listed on the FINDS and NY Manifest databases. The site is not reported as a TSDF facility or listed with any violations. La France Cleaners is listed as a local dry cleaner. Twenty NY Manifest documents are referenced in the EDR report. Details of the manifests identify the site as a generator of halogenated solvents and still bottom from the recovery of solvents. La France Cleaners is listed with EPA ID: NYD981079544.

- **D H L** is identified by EDR as a SQG. The site is located less than a ¼ mile west northwest of the subject property and situated at a lower elevation.

Additionally the site is listed on the FINDS and NY Manifest databases. The site is not reported as a TSDF facility or listed with any violations. D H L is listed with EPA ID: NYD986910909.

- **Table Wraps Limited *II*** is identified as a SQG. The site is located less than a ¼ mile west northwest and at a relative lower elevation than the subject property. Additionally the site is listed on the FINDS and NY Manifest databases. The site is not reported as a TSDF facility or listed with any violations. Table Wraps Limited II is listed as a local dry cleaner. Twenty NY manifest documents are referenced in the EDR report. Details of the manifest identify the site as a generator of halogenated solvents and still bottoms from the recovery of solvents. Table Wraps Limited II is listed with EPA ID: NYD981481963.

- **Jericho Water District** is identified as a SQG. The site is located less than a ¼ mile south southeast of the subject property and located at a lower elevation. The site is not listed as a TSDF facility or listed with any violations. One manifest is included in the EDR report. The site was listed as having generated non-listed corrosive wastes, date unknown. The Jericho Water District is listed with EPA ID: NY0000130914.

Facility Index System/Facility Identification Initiative Program Summary Report (FINDS): FINDS contains both facility information and pointers to other sources that contain more detail.

Site Name	Location	Distance/ Direction
Rubies Costume Co Inc Solvent Finishers Inc.	601-603 Cantiague Rock Road	1/4 - 1/2 mile/north

See the details reported under ***Resource Conservation and Recovery Act (RCRA) Information System (RCRIS)*** for more information.

Inactive hazardous Waste Disposal Sites in New York State (SHWS): SHWS refers to the State Superfund Program. The Inactive Hazardous Waste Disposal Site Remedial Program is the cleanup program for inactive hazardous waste sites and now includes hazardous substance sites. The EDR report identified one site within 1 -mile of the subject property.

Site Name	Location	Distance/ Direction
Air Techniques Inc	Cantiague Rock Road	1/2 - 1 mile/south southeast

- Air Techniques Inc. is listed as a SHWS. The site is located within 1 mile of the subject property and located at a lower elevation. Air Techniques is downgradient of the site. In addition to being listed on the SHWS database, Air Techniques is also listed under CERCLIS, FINDS, RCRA-LQG, and NY, NY and CT Manifest databases.

Air Techniques Inc. is currently closed with remedial action being performed under the management of NYSDEC. The active site has been occupied by a manufacturer of dental equipment since 1979. On December 28, 1986, while excavating to build an extension to an existing facility a number of drums, attributable to a former site operator, were discovered. Approximately 57 drums and 80 to 90 cubic yards of contaminated soil were removed from the site. The primary constituents found in the drums were tetrachloroethene and trichloroethene. Confirmatory soil samples that there was some residual soil contamination. A Phase I, Phase II and Supplemental Phase II have been completed. Angle borings completed beneath the new building extensions did not identify volatile organic compounds in the soil. Groundwater sampling in 1992, 1993, and 1994 from up gradient and down gradient wells however; detected significant levels of tetrachloroethene (PCE) and, to a lesser extent, trichloroethene (TCE). PCE and TCE concentrations exceeded state standards. In addition to contamination expected from the buried drums there is also an up gradient source.

The NYSDEC has completed a file search for two up gradient properties and the Air Techniques as well as performed site inspections and limited soil sampling. Voluntary and Supplemental Voluntary Investigations have been performed at the Air Techniques parcel and two up gradient parcels. In July 2004 56,500 cubic yards of soil contaminated with uranium, thorium, nickel, and tetrachloroethene was removed from these parcels. Additional areas of soil contamination still require excavation. The off-site groundwater investigation has completed 55 profile borings up to one-third mile down gradient of the Air Techniques site. Additional sampling is planned.

The site is listed with 11 Generator - All Requirements (Oversight) violations during compliance inspections. Manifest details indicate the site generated wastes that were at times non-ignitable wastes, heavy in lead content, non-listed corrosive wastes, and high in toluene content or unknown.

Hazardous Substance Waste Disposal Site Inventory (HSWDS): HSWDS includes any known or suspected hazardous waste disposal site as well as sites delisted from the Registry of Inactive Hazardous Waste Disposal Sites and non-Registry sites that the U.S. EPA Preliminary (PA) reports or Site Investigation (SI) reports were prepared. The EDR report identified one site within ½ -mile of the subject property.

Site Name	Location	Distance/ Direction
Brinkmann Instruments Inc.	Cantiague Rock Road	1/8- 1/4 mile/east

- **Brinkmann Instruments Inc** is listed as a HSWDS. The site is located less than a ½ mile south southeast from the subject property and located at a lower elevation relative to the target property. The site is also listed on the RCRA SQG, FINDS and NY Manifest databases. The site is not a TSDF facility nor does it have any violations. The site is not listed on the NYS Registry of Inactive Hazardous Waste Disposal Sites. The site operated in 1974 and at

sometime received volatile organic compounds. The site is not a threat to public or environmental health or known to be contaminated. Twenty NY manifests are included in the EDR report site detail. Manifests indicate unknown liquids and non-listed ignitable wastes were generated and removed from the site by waste scavengers. The site is listed under EP ID: NYD002054351.

NYCDEP Underground Storage Tank Directory (UST): UST refers to facilities that have petroleum storage capacities in excess of 1,100 gallons and less than 400,000 gallons. Facilities are listed in the Petroleum Bulk Storage (PBS) database. The EDR Report identified four sites within ¼ mile radius of the site in the UST database.

Site Name	Location	Distance/ Direction
Inactive- TEXACO	125 Jericho TPKE	1/4- 1/2 mile/ northeast
HESS Station #32341	60 Jericho TPKE	1/4- 1/2 mile/ northeast
MOBIL R/S #11955	3 Jericho TPKE	1/4- 1/2 mile/ northeast
EXXON #70272 Division of CFI	99 Jericho TPKE	1/4- 1/2 mile/ northeast

- The **Inactive-TEXACO** site is listed on the UST database. The site is located less than ¼ mile from the subject property and at a lower relative elevation. The site is inactive. A total of six tanks once occupied the site but are now empty.

- **HESS Station #32341** is listed in the UST database. The site is less than ¼ mile north of the subject property and at a relatively lower elevation. The site is registered as having four USTs: two (2) 10,000 gallon low unleaded gasoline tanks, one (1) 10,000 gallon high unleaded gasoline tank, and one (1) 10,000 gallon diesel tank.

- The **MOBIL Repair Station #11955** is listed in the UST database. The site is less than ¼ mile north northwest of the subject property and at a relatively lower elevation. The site is registered as having four USTs: one (1) 6,000 gallon middle unleaded gasoline tank, one (1) 10,000 gallon low unleaded gasoline tank, two (2) 15,000 gallon low unleaded gasoline tanks, and one (1) 12,000 high unleaded gasoline tank.

- The **EXXON Station #70272** is listed in the UST database. The site is less than ¼ mile north northwest of the subject property and at a relatively lower elevation. The site currently utilized three USTs. The site is equipped with 10,000 gallon USTS filled with low, medium, or high unleaded gasoline. Three empty tanks are also registered to the site.

NYCDEP Aboveground Storage Tank Database (AST): AST refers to facilities that have petroleum storage capacities in excess of 1,100 gallons and less than 400,000 gallons. The EDR Report identified four sites within ¼ mile radius of the site in the AST database.

Site Name	Location	Distance/ Direction
Jericho Fire Dept Sub Station	680 Cantiague Rock Road	1/4- 1/2 mile/north/ northwest
ZAV Restaurant Corp (Burger King)	62 Jericho TPKE	1/4- 1/2 mile/northeast
The Home Depot #1213	86 Jericho TPKE	1/4- 1/2 mile/northeast
Acme Bus Corporation	1 Brush Hollow Road	1/4- 1/2 mile/northwest

- The **Jericho Fire Department Substation** site is listed on the AST database. The site is located less than ¼ mile from the subject property and at a lower relative elevation. The site is registered with one (1) 280 gallon diesel AST.

- The **Burger King** owned by **ZAV Restaurant Corporation** is listed in the AST database. The site is less than ¼ mile north of the subject property and at a relatively lower elevation. The site is registered as having four 100 gallon Liquid Propane Gas (LPG) ASTs.

- **Home Depot #1213** is listed in the AST database. The site is less than ¼ mile north of the subject property and at a relatively lower elevation. The site is registered with one (1) 250 gallon diesel tank.

- The **Acme Bus Corporation** is listed in the AST database. The site is less than ¼ mile west northwest of the subject property and at a relatively lower elevation. The site is registered as having three ASTs. The tank capacities and contents are 240 gallons (motor oil), 150 gallons (transmission fluid), and 275 gallons (waste oil).

NYCDEP Leaking Storage Tanks List (LTANKS): LTANKS refers to leaking storage tank incident reports. These records contain an inventory of reported leaking storage tank incidents reported from 4/1/1986 through the present. This list includes both leaking USTs and ASTs. The EDR Report identified twenty sites within ¼ mile radius of the site in the LTANKS database.

Site Name	Location	Date Closed	Distance/ Direction
School of the Holy Child	25 Stone Hill Road	12/20/89	1/2 -1 mile/north northwest
Chase Bank	200 Jericho Quadrangle	12/22/99	1/2- 1 mile/north

Brush Hollow Gulf Inc	6049 Brush Hollow Road	08/28/00	0- 1/4 mile/west

Of the twenty sites reported with leaking tanks only two are not listed with closure dates. These are:

- An **Office Building** located at 100 Jericho Turnpike. The site is listed on the LTANKS database. The site is located less than ½ mile north from the subject property at a lower relative elevation. Tank failure resulting in a spill was reported to the NYSDEC on 10/31/05. An unknown volume of #2 fuel oil leaked from a 20,000 gallon tank (AST/UST not identified) that appeared to have holes in it. Approximately 5 cubic yards of contaminated soil was removed from around the fill port. The spill record was last updated 11/1/05.

- **Concord Auto** is listed on the LTANKS database. The site is located less than ½ mile north northeast of the subject property and at a relatively lower elevation. Tank failure resulting in a spill was reported to the NYSDEC on 3/8/06. An unknown volume of gasoline leaked into soil from a UST located on site.

Dry Cleaners: The dry cleaners database provides a listing of all registered dry cleaning facilities. The EDR Report identified two sites within ¼ mile radius of the subject property.

Site Name	Location	Distance/ Direction
La France Cleaners	8 Jericho TPKE	1/4-1/2 mile/north
Table Wraps Limited II	666 Cantiague Rock Road	1/4- 1/2 mile/north

See the details reported under Resource Conservation and Recovery Act (RCRA) Information System (RCRIS) for more information.

NY Manifests: The NY Manifest database is a document that lists and tracks hazardous waste from the generator through transporters to a TSD facility. The EDR Report identified five sites within ¼ mile radius of the subject property.

Site Name	Location	Distance/ Direction
Adams-Fairchild Property	660-666 Cantiague Rock Road	1/8- 1/4 mile/east
La France Cleaners	8 Jericho TPKE	1/4-1/2 mile/north
D H L	660 Cantiague Rock Road	1/4- 1/2 mile/north
Table Wraps Limited II	666 Cantiague Rock Road	1/4- 1/2 mile/north
Jericho Water District	Cantiague Rock Road and Saratoga	1/8- 1/4 mile/north

The EDR report also identified twenty-seven un-mappable sites in the general area that are listed as "orphan sites" and are not plotted on the EDR maps. CDM reviewed the orphan sites list. Based upon knowledge of the local area, eight sites have the

potential to be listed within ¼-mile of the site. Those sites are listed in the table below.

Site Name	Site Address	City	Distance from Site	Database
NYSDOT BIN 1049179	Rte 495 over Rte 495 WB	Jericho	¼ - ½ mile	RCRA-SQG, FINDS, NY Manifest

4.2 United States Environmental Protection Agency (USEPA) and New York State Department of Environmental Conservation (NYSDEC)

CDM performed a site search for the Shames Drive properties on the USEPA Envirofacts database and the NYSDEC Spills Incident Database and the Environmental Site Remediation Database. The following addresses were listed on the USEPA Envirofacts multisystem database:

Accurate Chemical Co	300 Shames Drive, Westbury, NY
New York Telephone	500 Shames Drive, Westbury, NY
Westbury Alloys Corp	750 Shames Drive, Westbury, NY
Westbury Metals Group	900 Shames Drive, Westbury, NY
Computer Instruments Corp	1000 Shames Drive, Westbury, NY
Aircraft Turbine Service- Div Airwork	1150 Shames Drive, Westbury, NY
Collexis Realty Co-Vacant Building	1200 Shames Drive, Westbury, NY
BERCO Industries Corp	1250 Shames Drive, Westbury, NY
Energy Efficiency Systems Inc	1300 Shames Drive, Westbury, NY
SLANTCO Manufacturing Company	1500 Shames Drive, Westbury, NY
Sprague-Goodman Electronics Inc	1700 Shames Drive, Westbury, NY
ELECTRO Industries	1800 Shames Drive, Westbury, NY
Worldwide Industrial Corp	2000 Shames Drive, Westbury, NY
Math Associates Inc	2200 Shames Drive, Westbury, NY
KEMP Metal Products Inc	2300 Shames Drive, Westbury, NY

These sites were found on the RCRAINFO, NJ-NJEMS, NCDB, AIRS/AFS, FIS, ICIS, and NEI information systems.

The NYSDEC Spill Incidents Database contains records of chemical and petroleum spills dating back as far as January 1, 1978. Under New York State law, petroleum and hazardous chemical spills that can impact the waters of the state must be reported by the spiller or in some cases anyone who has knowledge of the spills. Each spill record includes: Administrative information (NYSDEC Region and Spill number), spill date and time, location, spill description (source, cause, material, volume, resource affected), and cleanup activity and close date. CDM performed a Spills Incidents database search using the street and county criteria of Shames Drive, Nassau County. A total of seven incidents were found.

Spill #	Date Reported	Spill Name	Address	Material	Resource Affected	Date Closed
8603873	9/15/86	DME	1200 Shames Dr	Hydroquinone	Sewer	6/04/87
8809732	3/17/89	Match Assoc/ CMI	2200 Shames Dr	Unknown Petroleum (20 Gal)	Soil	3/20/89
8903127	6/26/89	Canoli Factory	1250/1400 Shames Dr	Unknown Petroleum & Flour	Air	7/31/89
9314569	3/13/94	Accurate Chem	300 Shames Dr	N/A	N/A	2/10/04
9509259	10/26/95	US 1 Line Co	1150 Shames Dr	#2 Fuel Oil	Soil	11/27/95
9905866	8/16/99	CA Closet Company	700 Shames Dr (rear)	Unknown Hazardous Material	Ground-water	8/18/99
0325420	12/30/03	Commercial Bldg	700-750 Shames Dr	Unknown Hazardous Material	Soil	

The database search did not provide any additional information regarding these spills or any other spills in the industrial park.

Records are closed by the NYSDEC case manager under the conditions that either the records and data submitted indicate the necessary cleanup and removal actions have been completed and no further remedial activities are necessary, or b) administrative reasons (i.e., multiple reports of a single incident consolidated into a single spill number).

Printouts if the information retrieved from the EPA Envirofacts Warehouse and NYSDEC Spills Incident online database searches are provided in **Appendix C.**

4.3 County and Municipal Records Review

CDM conducted file reviews at the Nassau County Department of Health and Town of Oyster Bay Building Department. The Health Department file review was completed on June 28, 2007 and the Town of Oyster Bay file review was completed on June 13 and June 19, 2007. Nassau County Health Department files are included in **Appendix D.** Town of Oyster Bay files are included as **Appendix E.** Property summaries of the information obtained from Nassau County and the Town of Oyster Bay are provided below.

Lot	Property Card Address	Current Occupant	Current Type of Business	Previous Occupant	Previous Type of Business	Potential Concern
918, 924, 1052	4800-5000 Brush Hollow Rd	Alita Ceramic Tile, Public accountants	Sales of ceramic tile, Accounting services	1958 - MFG Toy Vending Machines; 1960 - Kiddie Lane Corp. 1980 - Bonardy 1984 - Westbury Industrial Park Properties	Warehouse/distribution center, office space	None Found

Town of Oyster Bay Building Department

Lots 918, 924 and 1052, Section 11, Block B encompass 4800 to 5000 Brush Hollow Road and are located on the northeast corner of Brush Hollow Road and Shames Drive. According to Building Department records, the property was owned by William Shames in 1957. In 1958 a building that was used as a warehouse/distribution center and office was erected. The original occupant of the structure was M.F.G. Toy Vending Machine Company. The one-story building was constructed with a cement block foundation with a twelve foot glass facade. The building was constructed with a ramped loading area (north side of the building), two overhead doors and a canopy. The building was equipped with four roof stacks, seven Westinghouse gas heaters, one coal burner, and automatic sprinklers throughout. The year it was constructed a fire damaged part of the building.

In October 1960, the Kiddie Lane Corporation leased a portion of the building and 4 unit heaters and one boiler were installed. In December 1960, a 90-foot by 60-foot addition to the existing building was constructed and repairs were made to the portion of the building that was damaged during the 1958 fire.

In 1961, a paved area (14,000 sq feet) to accommodate 175 cars was added.

In 1980, the Nassau County property card lists the owner of lots 918 and 1052 to be Bonardy and indicates that plumbing was added.

In 1984, W. Shames still owned the property and the occupant was Westbury Industrial Park Properties, Inc. A permit for interior alterations was issued.

Alita Ceramic Tile is a current occupant of 4800 Brush Hollow Road. Currently, several public accountants occupy 5000 Brush Hollow Road.

Lot	Property Card Address	Current Occupant	Current Type of Business	Previous Occupant	Previous Type of Business	Potential Concern
1048	3400 Brush Hollow Rd	Tivoli Terrace	Motel	Tivoli Motel 1960- Brush Hollow Arms (old folks home)	Motel	None found
1050	25 Shames Dr & Brush Hollow Road	Tivoli Terrace	Restaurant	Tivoli Motel & Restaurant	Motel and food service	None Found
970	3400 Brush Hollow Rd	Regency Adult Home	Adult Care	Restaurant to the Tivoli Motel	Food service	None Found

Town of Oyster Bay Building Department
Lots 1048, 1050 and 970, Section 11, Block B, at 3400 Bush Hollow Road were combined to accommodate the 43-unit Tivoli Motel and its associated office, pool, recreational areas, restaurant(s) and parking lot. All facilities were erected in 1958 and owned by JAMCO; a partnership formed between Abraham Shames, James Maccarone and Frank Esposito.

Lot 1048
The Tivoli Motel consisted of two rectangular shaped buildings that were composed of cement block and brick and joined in an "L" shape; a 2-story building (212' x 64') with a glass front and canopy that faced Brush Hollow Road and a one-story building (5,740 sq feet) that faced the south side of Shames Drive. In 1963, a second story (5,180 sq feet) containing office space was constructed over the existing one-story building that faced Shames Drive. The motel was equipped with one oil burner, one gas hot water heater, an automatic sprinkler system throughout and 8 septic tanks (3,240 gallon capacity and 325 sq feet, each). A one-story office was located on the northwestern corner of the motel.

A rectangular shaped in-ground pool (2,900 sq feet) was situated east of the motel building fronting Brush Hollow Road and was surrounded by a 3,500 square foot concrete apron. Other recreational areas located east of the motel, included a fountain (south east of the in-ground pool), a badminton court (33' x 62'), a shuffleboard court 1,140 sq feet), a wading pool (280 sq feet), a tennis court (6,384 sq feet) and a small un-named paved area. All of these structures were demolished in 1974.

Also located on lot 1,048 was a one-story (2,120 sq feet) restaurant constructed of cement block and not equipped with a sprinkler system. This building served as a support area for a larger, main restaurant (described below under lot 1050) and was located in the center of lot 1048.

The property cards obtained from the Nassau County Department of Assessment document the construction of an "old folk's home" named the Brush Hollow Arms in March 1960. This 2 story building (34, 716 sq feet) was constructed of cement brick or

concrete block and had a basement (24' x 65' x 9' high), 2 chimneys, a sprinkler system and a parking area (15, 000 sq feet).

A building permit for interior alterations to the Tivoli Motel was issued in May of 1991.

Lot 1050
The main restaurant (6,192 sq feet) of the Tivoli Motel was located on the corner of Brush Hollow Road and Shames Drive (lot 1050) and was constructed of cement block and brick. This building had a basement (2,034 sq feet), a fire place and a chimney. The building did not have a sprinkler system. In 1964, a cement block and brick addition (876 sq feet) was constructed onto the main restaurant.

In 1990, interior alterations and the installation of plumbing fixtures to the restaurant were approved.

Lot 970
The black top parking lot (20, 801 sq feet) of the motel was paved in 1959 and was located east of the main restaurant, on the south side of Shames Drive.

In 1974, additional construction on lot 970 resulted in a 2 story (176' x 204') motel that was equipped with an automatic sprinkler system. This building was located south of the original motel structure, on the south side of Shames Drive (lot 970). A one story open pavilion (50' x 25') made of heavy timber, 5 dry wells, 8 leaching fields, and a private sewer system were also constructed that same year. The property owner was J. Maccarone.

In August 2001, the Regency Adult Home (a senior assisted living facility; maximum occupancy of 493 people) was issued a building permit for additional construction and interior alterations to existing buildings. A permit was issued for the addition of a 2nd floor, a 1,350 square foot lobby/atrium, a one-story (160 sq feet) kitchen addition, first floor (6,912 sq feet) interior alterations, 8 cooking equipment units, 5 gas fired roof top HVACs, one gas hot water heater, and 14 gas burners.

Currently the Regency Adult Home, which is owned by Regency Realty Association, LLC, operates on lot 970.

Lot	Property Card Address	Current Occupant	Current Type of Business	Previous Occupant	Previous Type of Business	Potential Concern
938	100 Shames Drive	First Investors Corporation	Financial Services	1958 -Intercontinental Electronics, 1971 - Jasik Laboratories, Inter-County Tabulating Co., Inc.	Manufacture of electronic equipment, research/ development of high frequency antenna & microwave transmission systems, tabulating service	USTs previously on site

Town of Oyster Bay Building Department
Lot 938, Section 11, Block B at 100 Shames Drive is 0.4653 acres in size and is located on the south side of Shames Drive. In 1958, the one-story building sheltered by a composition roof with iron, tin lad shutters was erected for factory use. A 300 gallon septic tank was also installed. Improvements made that same year included a hollow concrete block flat with metal clad framing was constructed on the property. The facility at the time was occupied by Intercontinental Electronics which manufactured electronic equipment. The front of the building was used as an office and the rear was a factory. Parking was located in the rear of the property.

In 1971, the property was owned by Hanover Sales Corp. During this time interior alterations were made to the building concerning the plumbing, air conditioning, and pavement. The building also contained two overhead doors, five stacks, and a slop sink. Two tenants occupied the facility; Jasik Laboratories, which engaged in the research and development of high frequency antenna and microwave transmission systems and the Inter-County Tabulating Co., Inc., which operated as a tabulating service.

On July 3, 1979, Brandland Associates was the permitee of an installation request for two 5,000 gallon tanks. G.H. Landauer of G.D.C. Medical Electronics changed the request to two in-ground 8,000 gallon steel gasoline storage tanks. The permit stated the 96 inch tank was for private use. Sniffer tubes and vents were constructed with the tanks toward the end of the year.

The current occupant of the target property is the First Investors Corporation and they provide financial services. Please note that this property was identified as Section 11, Block B, Lot 923 at 300 Shames Drive on the 1968 Sanborn Map.

Nassau County Department of Health
In July 1989, a special permit was issued to Harold Dobbs of Dobbs Real Estate for a sewer connection. The permit stated that the connection was for a Sewage Treatment Facility only. Therefore, floor drains and ejectors were not permitted and roof and storm drains were not allowed to discharge into Nassau County Public Sewer Systems. Also, during this year, A NCDOH inspector noted that two cesspools were pumped and filled.

Lot	Property Card Address	Current Occupant	Current Type of Business	Previous Occupant	Previous Type of Business	Potential Concern
923	300 Shames Drive	1988- Accurate Chemical and Scientific Corp & 1994-Accurate Surgical & Scientific Instruments	Supplies laboratory research products & precision surgical instruments	Unknown, 1968- Electronic Equipment Manufacturing, 1971-Automatic Data Processing, 1975 -Coca-Cola Bottling Co.	Machine shop/office, manufacture of electronic equipment, data processing and computer center,	None found

Town of Oyster Bay Building Department

Lot 923, Section 11, Block B located at 300 Shames Drive is 0.61 acres in size and is located on the south side of Shames Drive. In October of 1956, Abil Construction Corp. was issued a permit to erect a machine shop (80' x 125') and office on the target property. The property was owned by Brush Hollow Corp., Abraham Shames. The realty company who participated in the transaction and building was Mamendy Realty Co. The building was constructed of hollow concrete block atop a metal clad frame flat. The one-story building had a composition roof and iron or tin clad shutters with two over head doors and six stacks. Two cesspools were also installed; one 16 feet above groundwater and a second 5 feet above groundwater. A septic tank (8' x 8') was installed adjacent to the cesspools, along the eastern side of the building.

In 1958, Harry and Irene Samoorian were stated as the owners in an easement agreement concerning Hanover Sales Corp construction of a building on the property immediately adjacent to 300 Shames Drive. The agreement also mentioned the installation of a cesspool and septic tank in the right of way between the two buildings.

In 1968, Electronic Equipment Manufacturing occupied lots 923 and 938. The buildings on each lot are identical. In 1971, Automatic Data Processing occupied lot 923 and was granted permission to renovate and use the existing building as a data processing and computer center. The renovation included paving, air conditioning, and the installation of 2 gas heaters. In 1975, Coca-Cola Bottling Co. of New York, Inc. occupied the building and put in a glass partition.

The Accurate Chemical and Scientific Corp. has occupied the property since 1988 and Accurate Surgical and Scientific Instruments has occupied the property since 1994; both currently occupy the property.

Nassau County Department of Health

The property was connected to the public sewer system in November 1988 under permit number S131648.

921	400 Shames Drive	General Welding Supply Co.	Sales of welding supplies and industrial/medical gases	1958-General Welding Supply Corp. Welding Supplies, Inc.	Warehouse and sales of welding supplies	Storage and sale of gases (propane, oxygen). USTs previously on site

Town of Oyster Bay Building Department
Lot 921, Section 11, Block B at 400 Shames Drive is located on the north side of Shames Drive. In 1958 the property owner was Sukhdeep Kapoor, president of the General Welding Supply Corporation. The one-story building was used an office/ showroom and warehouse (8,470 sq feet) for the storage and sales of welding supplies. On the northeastern corner of the building a canopy covered metal shelter was used as a storage area for propane and oxygen gas. An enclosed loading platform (2,100 sq feet) was located on the eastern side of the building, adjacent to the metal shelter. The building was constructed of hollow concrete block and cement brick, with a flat metal clad frame, a gypsum roof with 4 stacks, 11 overhead doors. A 15, 000 square foot black top parking lot and an 8-inch water pipe, which was oriented parallel to the loading platform, were also present on the property. The building did not have a sprinkler system.

In 1966, a 2,000 gallon underground fiberglass gas tank and a 4,000 gallon underground fiberglass gas tank were installed.

In 1990 S. Kapoor was still listed as the property owner.

The current occupant is the General Welding Supply Co., which sells welding supplies and industrial (i.e. Argon) and medical gases (i.e. Oxygen).

Nassau County Department of Health
The property was connected to the public sewer system on September 18, 1990.

Lot	Property Card Address	Current Occupant	Current Type of Business	Previous Occupant	Previous Type of Business	Potential Concern
922	500 Shames Dr	Verizon	telecommunications	1957- Stanat MFG Company, Inc., 1992 NY Telephone Bell Atlantic	Machine shop; Maintenance garage, telecommunications	1990; cesspool soils contained halogenated hydrocarbons & heavy metals; presence of a long, grate-like drain w/unknown discharge point USTs previously on site

Town of Oyster Bay Building Department

Lot 922, Section 11, Block B at 500 Shames Drive is 1.4 acres in size and is located on the south side of Shames Drive. In 1957, the property was owned by Five Hundred Realty Corp and the tenant of the facility was Stanat MFG Company, Inc. The facility was used as a machine shop and office. In 1958 a one-story building was erected using concrete and glass 10 feet above ground. The building was equipped with an automatic sprinkler system and had two delivery flats, 2 rolling steel doors, 4 fire proof doors, 6 stacks, an extended roof area (240 sq feet) and a monitor 20 feet above the roof.

In 1988, several violations were issued against 500 Realty Corp at 500 Shames Drive by the District Court of Nassau County. Violations were due to: 1) renting of two steel containers, one of which was used as an office or workshop and the other for storage located outside of the main business building, 2) outside storage in steel containers and a 45 foot trailer located on the western side outside and inside of a fenced enclosure, 3) parking and storage of trucks on the premises, one owned by Anthony B. Ebron and used for rubbish removal, the other truck was owned by KAO Enterprises International, Inc., loaded with rubbish and apparently abandoned,4) un-permitted change of use of the subject premises in that outside storage, trailers, and containers space was being rented to itinerant tenants, and 5) violating an Ordinance and creating a health hazard to the people of the Town of Oyster Bay due to palettes scattered all around the western, southern and partially on the eastern perimeter of the property. Stuffed chairs, a sofa, drums, and litter stuffed into an abandoned truck were also present on the property.

In 1992, the property owner was Lawrence Raskin and the tenant was New York Telephone who used the facility as a maintenance garage. The contact person at the time was Mr. S. J. Greco. The installation of two storage tanks took place during the winter of 1993. Tank #T-1, located in the southwest quadrant of the target property, is an inground 6,000 gallon double wall fiberglass gasoline storage tank. The tank is equipped with a leak detector probe, dispenser, and island. Two dry wells are also located in this quadrant. Tank #T-2, located in the southeast quadrant of the target

property, is an above ground 275 gallon double wall stainless steel waste oil tank coated with polyamide cured epoxy resin. The exact location is south of Shames Drive and 438.91 feet east of Brush Hollow Road. The tank is equipped with a hydrocarbon leak detector, bollards per specs, and rests upon a concrete pad. Also located in this quadrant are a dry well and a gasoline dispenser with a canopy and Stage II Vapor Recovery System. A fourth dry well and a drain pit are located in the northern end of the target property. An existing oil separator appears to be connected by piping to the drain pit and a trench drain located in the indoor parking facility.

Currently the facility is occupied by Verizon.

Nassau County Department of Health
An inspection of the property by NCDOH performed on January 17, 1990 indicated that 90 percent of the building was vacant and that Stanat MFG has moved. The new owner was Tony Pompeo. Another inspection on February 1, 1990 confirmed that there was no activity at the site.

In March of 1990, the soils in the two cesspools on the property were sampled by the NCDOH for purgeable halogenated hydrocarbons, purgeable non-halogenated hydrocarbons and heavy metals. Sample analysis revealed that the soils contained low levels of all three contaminant types. Metal covers were placed over the pools that same day.

The property was connected to the public sewer system in June 1990 under permit number S131647.

An inspection of the property by NCDOH on May 6, 1999 revealed the presence of a long, grate-like drain running the length of the vehicle storage area. A connection from the drain to the public sewer system could not be established. Subsequently, NCDOH informed the United States Environmental Protection Agency's Groundwater Compliance Section, in writing, about the presence of the drain discovered at the Bell Atlantic Property.

Lot	Property Card Address	Current Occupant	Current Type of Business	Previous Occupant	Previous Type of Business	Potential Concern
930	600 Shames Dr	General Welding Supply Co.	Sales of welding supplies and industrial/medical gases	Westbury Industrial Development Corp., Universal Oven Corp	Welding and steel cutting	Steel cutting operations

Town of Oyster Bat Department of Planning and Development
Lot 930, Section 11, Block B at 600 Shames Drive is 0.69 acres in size and is located on the north side of Shames Drive. The occupants of the building were Westbury Industrial Development Corp. and Universal Oven Corp, which were involved with light manufacturing. Offices were located in the front of the building and the shop was located in the rear. The one-story cement brick building on a concrete block foundation was erected in 1957 and had 4 stacks, an extended roof, one over head

door, and one concrete ramp. The building was equipped with automatic sprinklers and a Siamese fire connection. Two cesspools (450 gallons each) located ten feet from Shames Drive and ten feet from the southwestern front of the building are shown on a 1957 map of the target property

In 1970, Jerry Leibowitz was issued a permit to erect an additional building on the property.

The General Welding Supply Company is the current occupant of the property.

Nassau County Department of Health
J. Maccarone and F. Dinapoli were listed as the original property owners (1957) and welding and steel cutting occurred on the property. Inspections by NCDOH noted that the building did not have any floor drains or chemical storage and waste oils were not present.

The property was connected to the public sewer system on June 21, 1990.

Lot	Property Card Address	Current Occupant	Current Type of Business	Previous Occupant	Previous Type of Business	Potential Concern
941	700 Shames Drive	California Closet Co	Sales of storage & closet equipment supplies & materials	1957-Sem Co Westbury Industrial Development Corporation & Champion Storm-Sash Co. 1990-Westbury Alloys	Aluminum sash fabrication. Warehouse and masonry shop, refining and smelting precious metals	Refining and smelting precious metals using hydrochloric acid, nitric acid and cyanide USTs previously on site

Town of Oyster Bay Building Department
Lot 941, Section 11, Block B at 700 Shames Drive is 1.06 acres in size and is located on the northwestern portion of Shames Drive circle. In 1957, Sem Co (president Abraham Shames) erected a one-story cement block or brick building atop flat metal clad frame with glass ten feet above ground on target property. The building includes a Siamese sprinkler connection, automatic sprinklers, composition roof, connected office space, 4 stacks, and 4 overhead doors. A cesspool, sewer connection, and water service were installed south of Shames Drive and 645 feet east of Brush Hollow Road. Lawrence Raskin was also listed as a property owner. Westbury Industrial Development Corporation and Champion Storm-Sash Co. used the factory for fabrication of aluminum sash.

In 1968, the rear of the building received an addition that was constructed with same materials as the existing building. The addition was to be used as a warehouse and masonry shop and included an oil burner, sewer connection, and septic tank.

In 1983, a 2,550 gallon underground fiberglass tank for storage of spent acids was installed on the property. The tank was 8 feet wide x10 feet long, 3/5 of an inch thick and surrounded by Pea gravel. A concrete pad (10' x 12') was also installed to prevent leaks. Plumbing and an HVAC system were also installed during this time.

In 1988, depressed fittings were installed under concrete block walls and Dur-O-Wall was installed every 2nd block course in all new concrete block walls.

In 1990, the occupant was Westbury Alloys Inc.

In 1991, 3 gas fired furnaces were installed.

Currently California Closet Co., which sells storage and closet equipment supplies and materials, occupies the property.

Nassau County Department of Health
When Westbury Alloy occupied the property they refined and smelted precious metals. Refining process used Hydrochloric Acid, nitric acid and cyanide. The wastes were stored in an isolated area that had a cement floor and a 6-inch cement berm and hauled off-site by an independent waste hauler (Chemical Waste Management of New Jersey).

934	800, 810 and 820 Shames Drive	Independent Resources Network, Amazing Wholesale Scarves, vacant	Payment processing, Sales of scarves and accessories, none	1958-Sem Co. Research Plan Electronics. Consolidate	Office/factory	None Found

Town of Oyster Bay Building Department
Lot 934, Section 11, Block B at 800 Shames Drive is 0.93 acres in size and is located on the north side of Shames Drive. In 1958, Sem Co. (president Abraham Shames) erected a one-story cement block building atop flat metal clad frame, with glass ten feet above ground. The building included a Siamese fire connection, an automatic sprinkler system, Typek copper water service pipe, a composition roof, 5 stacks, 2 overhead doors, one metalbestor chimney (12 inches high), 11 gas unit heaters, and one oil burner. Three dry wells, 3 cesspools (each 12 feet deep), 1 septic tank, and a sewer connection were installed north of Shames Drive and 575.11 feet east of Brush Hollow Road. The property was occupied by Research Plan Electronics who used the building for office space and factory work. An ash pit was also located onsite.

In 1959, Richard Grayson was listed as an owner of the property.

In 1974, 5 plumbing fixtures were installed, including industrial washrooms at the rear of the building and one drinking fountain.

In 1985, Jerry Spiegel Associates was listed as the owner of the property. During this time cesspools were pumped and backfilled. A trench was also backfilled and asbestos cement (A.C.) and ductile iron pipe (D.I.P.) were installed on the property.

Consolidate was another former occupant of the property.

Currently Independent Resources Network and Amazing Wholesale Scarves respectively occupy the buildings at 800 and 810 Shames Drive and the area at 820 Shames Drive is vacant.

Nassau County Department of Health
The buildings located at 800, 810 and 820 Shames Drive were connected to the public sewer system on October 31, 1984.

Lot	Property Card Address	Current Occupant	Current Type of Business	Previous Occupant	Previous Type of Business	Potential Concern
933	900 Shames Dr	2001- PPE-Production Packaging Equipment	Sales/storage of packaging equipment and packaging products	1958- Sem Co 1970-Air Craft Turbine Co 1990- Gold Coast Transport	Industrial/office Manufacture and testing of air craft components, limousine company Sale of packaging equipment, private garage, offices, and a warehouse	Remediation of petroleum hydrocarbon and chromium contaminated soil in former cesspools and stormdrains conducted in 2001.

Town of Oyster Bay Building Department
Lot 933, Section 11, Block B, at 900 Shames Drive, is 0.82 acres in size and is located on the west side of Shames Drive circle. In 1958, Sem Company (president Abraham Shames) erected a one-story building (9,975 sq feet) that was used for industrial purposes and office space. The building was constructed of cement brick or cement block atop a metal clad frame, with two overhead doors, a gypsum roof with 4 stacks, glass 10 feet above ground and a paved parking area (15,000 sq feet). The facility was equipped with 7 gas heaters, a 3,000 gallon septic tank and 7 cesspools. A sewer connection was constructed 976.34 feet east of Brush Hollow Road.

In 1959, J. Maccarone was listed as the owner of the property.

In 1970, a building permit was issued to J. Maccarone and the building was occupied by Air Craft Turbine Company. The facility was used for the manufacture, testing, and storage of aircraft components. A one-story addition (70' x 62') was constructed aligning the rear side of the existing building and equipped with a sprinkler system and 2 floor drains. A 6,000 gallon storage tank was installed 975.98 feet west of Brush Hollow Road. The building also received a new sprinkler system and a one-story

addition (2,977 sq feet) constructed of cement brick on cement block later that same year.

In 1990, 6-inch PVC pipes were installed to connect existing roof drains to 3 existing sanitary pools (8'x 8'); the polls were located 25 feet from the southern side of the building. The pools were pumped before the construction began.

An additional floor drain was installed in 1991, along with urinals and lavatories.

In 2001, Maccarone and Dinapoli installed 3 dry wells, at a depth of 11 feet and 2 feet above groundwater, west of Shames Drive and 1114 feet east of Brush Hollow Road. Also in 2001, Production Packaging Equipment (PPE) became tenants of the building. PPE sells packaging equipment, i.e. weighing machines, heat sealers, etc., and packaging products, such as shrink wrap.

In 2002, improvements were made to the interior (plumbing) and exterior (new façade, front entry canopy, new doors and windows) of the building. A backflow prevention device, 5 rooftop HVAC units and 3 dry wells (located in the parking lot) were also installed. An occupancy permit during this year indicates the presence of oil tanks inside and outside the building.

PPE is the current occupant. The building is currently being used as a private garage, offices, and a warehouse.

Nassau County Department of Health
The property was connected to the public sewer system on June 21, 1990.

September 5, 1990 a limousine company called Goldcrest Transport occupied the building and would hand-wash their fleet of vehicles on-site. NCDOH prohibits disposal of car wash water into floor drains and requires that the water from such activities is intercepted by a "grit pit" or is discharged into a sealed drum. A permit was obtained by Goldcrest Transport in 1990 to discharge the waste from car washing activities into a sealed 1,000 gallon internal sand grit interceptor.

January 2001 a Phase I Site Assessment conducted by GCI Environmental and Engineering Consultants in Happauge, New York revealed the presence of 2 septic vent lines on the south western side of the building, 2 closed cover manholes and slop sinks in a storage room at the rear of the building and outside the boiler room. A magnetometer indicated the presence of two anomalies on the south side of the building, approximately 3 feet below grade. Four concrete block enclosures (3' x 3') on the west side of the building were also found; each filled with debris. Historical use of the site raised concerns that accidental spills and/or illegal discharges to cesspools may have caused subsurface soil or groundwater contamination, while the presence of vent lines and gaps in existing documents regarding underground storage tanks raised concerns that underground storage tanks may be present.

The two anomalies on the southern side of the building were determined to be the original cesspools that were most likely abandoned when the building was connected to the public sewer system in 1991. The presence of charred masonry indicated that the four enclosures were used as chimneys. No underground storage tanks were found.

In mid-August 2001 NCDOH was on-site with GCI to observe the use of a backhoe to uncover the two former cesspools (FCP-1 and FCP-2); soil was visually contaminated and odors were present 25 feet below grade at FCP-2. Laboratory analysis of subsurface soils indicated that FCP-1 was "slightly impacted" due to the presence of Benzo-a-pyrene (207 ppb) at levels exceeding New York State Department of Conservation (NYSDEC) standards (61 ppb) and that FCP-2 was "significantly impacted" due to the presence of total petroleum hydrocarbons (60,688) and Chromium (90.3 ppm) at levels exceeding NYSDEC standards (50 ppm). In late September 2001, the cesspools were remediated, i.e. contaminated soil removed and replaced with fresh soil.

A Phase II report was done by GCI in mid-September 2001 due to the presence of two storm water drains (SD-1 and SD-2) on the western side of the building, and one roof drain (RD-1) on the southwestern portion of the building. Analysis of soil samples revealed the presence of semi-volatile organic compounds at levels exceeding NYSDEC standards at SD-1 and RD-1, while SD-2 contained lead and arsenic at levels greater than NYSDEC standards. Subsequently, the area around SD-2 was remediated.

In mid to late October 2001, satisfactory end point soil samples prompted the NCDOH to authorize continued use of the RD-1, SD-1 and SD-2 and require no further remedial action.

In a letter dated October 25, 2001 the United States Environmental Protection Agency Groundwater Compliance Section informed Mark Buckley of Westbury Metals Group, Inc. that the continued operation of Class V injection wells (RD-1, SD-1 and SD-2) were authorized for continued use.

On February 5, 1992 the liquid contents of the two cesspools was pumped out and the floor drain was sealed with cement.

Lot	Property Card Address	Current Occupant	Current Type of Business	Previous Occupant	Previous Type of Business	Potential Concern
935	1000 Shames Dr	Orly's Treehouse; owner Orly Regrev	Childcare Center	1958 - Sem Co/Sinclair Manifold Company 1971-1979 Muzak Company 1991 – Computer Instrument	Carbon inter-leaf business forms; child day care	VOCs identified in cesspool water and soil – no remediation conducted Presently operates as Day Care Center

Town of Oyster Bay Building Department
Lot 935, Section 11, Block B, at 1000 Shames Drive, is located on the north side of Shames Drive circle. In 1958, the property owner was Sem Company and the original occupant was the Sinclair Manifold Company. The one-story building (20, 148 sq feet) was used as office space and for the manufacture of carbon inter-leaf business forms. The building was constructed of cement brick on cement block, with one overhead door, a gypsum roof with 4 stacks, and glass 10 feet above ground. The facility was equipped with two delivery flats and a concrete ramp.

The Nassau County property card lists Harlow Associates as owners of the site in 1961. Documents reviewed at the Town of Oyster Bay Planning and Development indicated that the Muzak Corporation owned the property from 1971 to 1979.

In 1972, interior alterations, including the installation of an air conditioning unit were made.

Around 2006 Orly Regrev became the property owner and performed minor site improvements and interior alterations to the existing facility. The building was equipped with a sprinkler system, 46 plumbing fixtures, 2 gas fired rooftop HVAC units, 4 gas burners and one hot water heater.

The current occupant of the facility is Orly's Treehouse.

Nassau County Department of Health
In 1991 the property owner was H. Haft of Shacker Realty and the occupant of the building was Computer Instrument, Inc.

During a routine NCDOH inspection of the property, on October 29, 1991, the observation of degreaser to clean computer parts and a surface sheen on two cesspools prompted sampling of the water in the cesspools. Analysis of the samples by the Cedar Creek Laboratory revealed the presence of several volatile organic compounds at concentrations exceeding the New York State Department of Environmental Conservation limits for surface water.

The presence of contaminants found in the cesspools prompted the NCDOH to require Mr. Haft to: 1) pump the liquid in the cesspools and properly dispose of it at the Bay Park Sewage Treatment Plant, 2) remove sludge from the cesspools and have a subsurface soil samples collected, 3) have the samples analyzed by a State approved laboratory for the presence of volatile organic compounds, total petroleum hydrocarbons and heavy metals and 4) notify NCDOH ten days before sampling was to occur and of the results.

Complying with NCDOH requirements, the cesspools were pumped in December 1991 and sludge and soil samples were collected in January 1992. Analysis conducted by Cedar Creek Labs (March 1992) revealed the presence of low levels of volatile organic compounds. NCDOH determined that the levels present were "within the

normal range typical of cesspools" in industrial areas. On April 3, 1992 the NCDOH informed Mr. Haft that remediation of the cesspools was not required.

This property was connected to the public sewer system under permit number S136758.

953	1100 Shames Dr	Multi Occupant: Compu Billing Services Limited; ALA Scientific Instruments; Kwale Marketing Group; Mercury Commerce; RCM Group LLC/Dealyard.com; CP Mortgage Inc.	Facility subdivided into a shipping area, CAD room, supplier library, offices, storage of power supplies & resistors, & manufacturing space	1958 - Nat'l Vending Corporation, 1968 - Electronic Equipment MFG 2000 – ALA Scientific	Candy storage and sales	None Found

Town of Oyster Bay Building Department
Lot 953, Section 11, Block B at 1100 Shames Drive is located on the western side of Shames Drive circle. In 1958, Abraham Shames of the Sem Company owned the property and the occupant was the National Vending Corporation. The building contained office space and was used for the storage and sale of candy. The one-story (7,208 sq feet) building constructed of concrete block with a flat metal clad frame and one overhead door, a gypsum roof with 4 stacks, a canopy and glass 10 feet above ground.

The 1968 Sanborn map shows Electronic Equipment Manufacturing as the building occupant.

In December 1969 a building permit was issued to J Maccarone for the construction of a 2 story structure (40' x 100').

In 1990, a building permit was issued to J. Maccarone and F. Dinapoli for the installation of 2 dry wells, each measuring 8 feet x 8 feet with cast iron covers and connected with 6-inch PVC to roof drains.

In January 1998, a letter of testamentary transferred property ownership from Erika Maccarone to Brigitte and Frank Dinapoli.

In 2000, Triangle Properties owned the property at 1100 Shames Drive and ALA Scientific occupied the first floor.

In February 2000, the Town of Oyster Bay re-issued a permit for the completion of the December 1969 2 story (40' x 100') addition. This permit was for the "shell only".

In April 2000, Triangle Properties performed interior alterations on the first floor of the building in order to accommodate ALA Scientific accessory offices. These alterations included installing plumbing fixtures, 2 gas connections and 2 gas fired roof top HVAC units.

The property is currently occupied by Compu Med Billing Services Limited, ALA Scientific Instruments, Kwale Marketing Group, Mercury Commerce, RCM Group LLC/ Dealyard.com, CP Mortgage Inc.

Nassau County Health Department
Cesspools originally used for sewage were found to be free of contaminants by the NCDOH. Records reviewed indicated that the building was vacant in 1990 and that the property was connected to the public sewer system on June 20, 1990.

953	1150 Shames Dr	Raffit Ribbons; Basket Extraordinaries	Storage and sale of ribbons	1958 - Radiation Research	Warehouse/shop	None Found

Town of Oyster Bay Building Department
Lot 953, Section 11, Block B also includes 1150 Shames Drive. In 1958 the property owner was Sem Company and the occupant was Radiation Research. The one-story (7,900 sq feet) building was used as office space and a warehouse/shop. The building was constructed of cement block with a flat metal clad frame and one overhead door, a gypsum roof with 4 stacks, a canopy and glass 10 feet above ground. A black top parking area (20,000 sq feet) was used by Radiation Research and the adjacent aircraft turbine service facility on lot 962.

In 1971, a second story constructed of hollow concrete brick or cement block was added to increase shop and office space.

In 1990, a building permit to install one 1 dry well was issued to F. Dinapoli and J. Maccarone.

The current occupant is Raffit Ribbons, which is a store front for the sale of decorative ribbons.

Nassau County Department of Health
Cesspools originally used for sewage were found to be free of contaminants by the NCDOH. No floor drains were present in the building and the property was connected to the public sewer system on June 20, 1990.

1073	1200 Shames Dr	Multi Occupant: Jordan Fashions; MTS Power Systems; Delfino Insulation Company Incorporated	1958 - HITEMP Wires Company, a Div. of the Simplex Wire and Cable Corp.	Manufacture of wire insulation	Most upgradeint property; former on-site manufacturing

Town of Oyster Bay Building Department
Lot 1073, Section 11, Block B at 1200 Shames Drive is located on the northeast of side of Shames Drive circle. In 1958 the property owner was J. Maccarone of the Westbury Industrial Development Corporation and HITEMP Wires Company, a Division of the Simplex Wire and Cable Company, occupied the building. The one-story building was used to manufacture insulated wire. The interior of the building contained office space, a laboratory (1,772 sq feet) and two different sized shop areas (12, 200 sq feet and 30, 350 sq feet). A transformer cage (846 sq feet) and several loading areas were located at the rear of the building (opposite the office space) and monitoring equipment was located on the roof, 21 feet above the building. The building was constructed of hollow concrete brick or cement block and cement brick, with a flat metal clad frame, a gypsum roof, and glass 8 feet above ground. The building was equipped with an automatic sprinkler system throughout, a 10-inch water pipe, and one gas heater. A parking area and sump were also present on the property.

In 1984, the Collexis Realty Company owned the property and installed 2 dry wells in 1990.

In 1992 a permit for the installation of 12 roof drains was issued to Raffoler, LTD.

The February 2001 photograph posted on the Nassau County Property Assessment website shows the windows of the building covered with particle board. However, in October 2002, the Shames Realty, LLC was granted permission to install plumbing for gas piping to the existing heater and roofing unit.

The property is currently occupied by Jordan Fashions, MTS Power Systems, and Delfino Insulation Company Incorporated.

Lot	Property Card Address	Current Occupant	Previous Occupant	Previous Type of Business	Potential Concern
954	1250 Shames Dr.	Precision Leather Crafters	1958 - Spectrol Electronics and Berco Latex Company	Warehouse/shop	None Found

Town of Oyster Bay Building Department
Lot 954, Section 11, Block B at 1250 Shames Drive is located on the east side of Shames Drive circle. In 1958 the property owner was the Sem Company (J. Maccarone and A. Shames) and Spectrol Electronics and the Berco Latex Company occupied the building. The one-story (102' x 110 x 15 feet high) building contained three separate office spaces and two shop/warehouse areas that were equally divided by an 8-inch cement block fire wall. The building was constructed of cement block and cement brick, with a flat metal clad frame and had one overhead door, a gypsum roof with 4 stacks, one loading ramp, a canopy and glass 5 feet above ground. The building was equipped with 3 gas units, one coal burner and one hot water heater. The hot water heater was installed 1,020.37 feet from east of Brush Hollow Road. The property contained two septic tanks (800 gallons each) and parking for 42 cars.

The 1968 Sanborn Map lists the building occupants as Equipment MFG and Tests Lab.

In June 1990, a building permit was issued to J. Maccarone and F. Dinapoli for the installation of 3 dry wells.

The site is currently occupied by Precision Leather Crafters. However, the sign for Metal Concepts, Inc. is shown in the 2001 photograph posted on the Nassau County Property Assessment website.

Lot	Property Card Address	Current Occupant	Previous Occupant	Previous Type of Business	Potential Concern
962	1300 Shames Dr	Miller Environmental Group Inc.	1958 - Sem Co, Aircraft Turbine Services	Manufacture, Testing and repair of Air Craft Components	Cesspools originally used for sewage were found to be free of contaminants by the NCDOH USTs and ASTS previously on site

Town of Oyster Bay Building Department
Please note that a discrepancy exists between the information provided on the Nassau County Property Cards and the lot numbers to street addresses shown on the 1968 Sanborn Maps. The Nassau County Property cards indicate that Lots 953 and 962 respectively occupy 1100 and 1150 Shames Drive. The 1968 Sanborn Maps indicate that Lot 953 occupies 1100 and 1150 Shames, while Lot 962 occupies 1300 Shames

Drive. Documents reviewed at the Town of Oyster Bay Building Department also indicate that Lot 962 occupies 1300 Shames Drive. All three lots are located on the south side of Shames Drive circle.

In 1958 Lot 962, Section 11, Block B at 1300 Shames Drive was owned by Abraham Shames of the Sem Company and occupied by Aircraft Turbine Services. The building contained office space and was used for the manufacture, service and repair of all air craft components, including parts for commercial and military aircraft. The one-story building was constructed of hollow concrete or cement block, with a flat metal clad frame and had one overhead door, a gypsum roof with 4 stacks, a canopy and glass 10 feet above ground. The building was equipped with one coal burner and automatic sprinklers. A detached storage building was present southwest of the main building. A parking area located between lot 962 and lot 953 joined the two lots.

At the time the building permit was issued for the main building (September 1958) the Town expressed concern regarding the noise level that may be associated with turbine testing. In a letter dated December 2, 1958 A. Shames reassured the Town that "no industrial process is included that emits odor, gas, dust, fumes, noise or vibration is being generated from the repair and overhaul of aircraft turbo compressors" that violated bldg zone ordinances.

In 1960 permits were issued to A. Shames for an additional 9,451 sq feet of paving for 28 cars, 2 septic tanks (1,300 gallons each), 10 floor drains and 4 coal burners.

In 1965 a building permit was issued to Aircraft Turbine Services for the installation of a 550 feet x 1,100 feet outside oil tank.

In 1967 permits were issued to Aircraft Turbine Services for the installation of 1 dry well, one 550 gallon below grade oil tank, and two 550 gallon above grade oil tanks.

The current occupant is the Miller Environmental Group Inc., New York Metro Operations. Miller Environmental is an environmental response and remediation services company.

Nassau County Health Department
Cesspools originally used for sewage were found to be free of contaminants by the NCDOH. The property was connected to the public sewer system on June 20, 1990.

955	1400 Shames Dr	Fabric Quilters Unlimited, Inc.	Manufacture of bedspreads, draperies and window blinds	1958- Fabric Quilters Unlimited, Inc.	Manufacture and storage of fabric	None Found

Town of Oyster Bay Building Department

Lot 955 Section 11, Block B located at a1400 Shames Drive is located on the east side of Shames Drive circle. In 1958 the property owner was the Sem Company and Fabric Quilters Unlimited, Inc. occupied the building. The one-story (7,546 sq feet) building was used for office space and for the manufacture and storage of fabric. The building was constructed of hollow concrete brick or cement block and cement brick, with a flat metal clad frame, a gypsum roof with 3 stacks, and glass 5 feet above ground. The building was equipped with one hot water heater and 5 floor drains. The property contained one septic tank (750 gallon capacity), 2 dry wells installed (at a minimum) 20 feet from the building and 10 feet from the property line and a paved parking area (8,350 sq feet) for 25 cars.

Fabric Quilters Unlimited, Inc still occupies the building and manufactures bedspreads, plastic and textile draperies and window blinds using purchased materials.

Nassau County Department of Health
Cesspools originally used for sewage were found to be free of contaminants by the NCDOH. The property sewage was connected to the public sewer system around November 1988 under permit number S131416.

956	1500 Shames Dr	National Molding and Ornament	Sales of lumber and millwork	1958 - Slantco (aka Slant Fin Corporation), 1965 -Hallmark Lithographers, 1977-Slant Fin	Metal casting foundry, Print shop	Slant Fin began operating without proper certificate from NCDOH, complaints regarding noxious odors; odors from: acid scrubber, bag house and general ventilation system, NCDOH recommended disapproval of certificate to operate

Town of Oyster Bay Building Department
Lot 956, Section 11, Block B at 1500 Shames Drive is located on the south side of Shames Drive circle, 1276.36 feet east of Brush Hollow Road. In 1958, the one-story building sheltered by a composition roof and constructed of cement block or brick atop cement or brick flat, with glass ten feet above ground, 4 roof stacks on the roof, overhead door and a concrete ramp was erected for industrial use. The property was owned by Abraham Shames of the Sem Company and the tenant of the building was Slantco Manufacturing, Inc., also known as the Slant Fin Corporation. The building was used as an office and manufacturing shop. A 1,000 gallon capacity septic tank (226 sq feet), two dry wells, one coal burner, one gas hot water heater, an automatic sprinkler system with a Siamese fire connection and a 6-inch water main were installed in May 1958.

In 1965, the occupant changed to Hallmark Lithographers (also owned by the Sem Company), which used the building as a print shop Seven roof drains, two gas heaters and 14 plumbing fixtures were installed that same year.

In 1966, the building was expanded with the addition of a cement block loading area (1,700 sq feet) on the west side of building, and a warehouse (7,816 sq feet) on the south side of building. Three roof stacks and three rolling steel doors were also added to the building.

In June 1976, the Town of Oyster Bay issued a special use permit to the Slant Fin Corporation, headquartered in Greenvale, New York, "to erect, operate, and maintain" "a foundry for the electrical molding of sections of small capacity boilers to be used in private residences".

On or around March 15, 1977, Slant Fin began operations at its Westbury location without obtaining a certificate to operate from the Nassau County Department of Health (NCDOH). Approximately, two weeks later on April 1, 1977, the NCDOH Bureau of Air Quality Management, acting as the field representative for the New York Department of Environmental Conservation (DEC), received the first odor complaint from area residents against Slant Fin. This compliant was how the DEC first became aware that Slant Fin was operating on this property. On April 26, 1977, Slant Fin submitted the required applications to the NCDOH to obtain a certificate to operate.

During the period from early April to early June 1977, the NCDOH received 16 odor complaints from 11 different residents living approximately 0.3 to 0.4 miles from the Slant Fin facility. Slant Fin agreed to shut-down its operations at the end of June 1977 in order to overhaul the equipment and perform the repairs necessary to eliminate the odorous emissions. In turn, the NCDOH agreed to delay processing Slant Fin's application for a certificate to operate in order to provide Slant Fin with the opportunity to evaluate the facility while all equipment was in proper operating condition. Slant Fin resumed operations on July 13, 1977. Additional odor complaints prompted a meeting between Slant Fin and NCDOH on August 2, 1977, whereby

Slant Fin was granted a two week extension to overhaul equipment with continued close surveillance by NCDOH.

On August 8, 1977, the NCDOH notified Slant Fin management in a letter that "It has been established beyond a reasonable doubt that emissions from the company's metal casting operation are the source of the odorous air contaminants that generated community reaction" and suggested that the odors were coming from the "acid scrubber, the bag house and the general ventilation system, including open doors and windows". The NCDOH also suggested corrective measures for reducing odorous emissions.

On Aug 17, 1977 the Jericho Gardens Civic Association submitted a letter accompanied by a petition, with over 100 signatures, to the Town of Oyster Bay. The letter informed the Town that the "odor causes discomfort as well as burning throats and eyes" "between the hours of 9 a.m. and 5 p.m., on most days".

On August 17 and 18, 1977, NCDOH measured odors levels downwind of the facility and found they were 7 to 31 times greater than the threshold of the scentometer.

In a letter dated August 22, 1977, the NCDOH Bureau of Air Quality Management made a recommendation to the NYSDEC to disapprove Slant Fin's application for a certificate of operation.

Approximately ten years later, on December 15, 1987, Slant Fin installed a backflow prevention device. The photograph of the building on the Nassau County Department of Assessment's website is dated, February 20, 2001; shows the sign for Slant Co on the building.

The current occupant is National Molding and Ornament, which sells lumber, i.e. hardwood and plywood, and millwork items, i.e. lumber yard moldings and picture frame profiles.

Lot	Property Card Address	Current Occupant	Current Type of Business	Previous Occupant	Previous Type of Business	Potential Concern
1014	1600 Shames Dr	AVAD Metro East Distributors	Sales of audio components, flat panel TVs and home theater systems	1957 - Electronic Equipment Manufacturing, 1967 - Radiation Dynamics, Inc.	Manufacture of electronics	Former radiation vault on site.

Town of Oyster Bay Building Department
Lot 1014, Section 11, Block B, at 1600 Shames Drive is 0.6979 acres in size and is located on the east side of the Shames Drive circle. In 1957, Sem Co. erected a one-story cement block or brick building atop cement or brick flat with glass ten feet above ground. The building had 4 stacks, 2 over head doors, a concrete ramp and an

automatic sprinkler system. In October 1957 Sem Co. was a permittee for the construction of one septic tank, one leach pool for sanitary use, and 2 leaching pools for drainage use to be place east of Shames Drive and 1260 feet east of Brush Hollow Road. In December of 1957, the occupancy permit for the property listed Sem Co residing at a one-story building with a 1,300 gallon septic tank and cesspool connected to it. The building was used as an office and factory by Electronic Equipment Manufacturing for the manufacture of electronics.

In 1958, Sem Co. installed a gas oven within the building.

In 1959, Anthony and Joseph Alizio became the new owners of the property.

In 1967, an accessory building used for storage was erected for Radiation Dynamics, Inc. and demolished in 1977.

In 1985 and 1986 several improvements were made to the remaining, main building. Interior alterations were made to convert the factory into offices and a warehouse. Four floor drains and bathrooms were installed. The building façade received changes on the southern and western elevations.

In 1990, five dry wells were constructed in the same location as the septic tank. A sketch of the construction shows a drainage way, concrete pad, ramp and sewer line connection located on the southern side of the property. Drainage way is also located on the eastern side of the property. Roof drains are located along the eastern side of the building.

Currently the target property is occupied by AVAD Distributors, which is involved in the sales of audio components, such as speakers, flat panel televisions and home theater systems.

Lot	Property Card Address	Current Occupant	Current Type of Business	Previous Occupant	Previous Type of Business	Potential Concern
965	1700 Shames Dr	Sprague Goodman Electronics	Manufacture of trimmer capacitors, assembly of electrical parts, & electroplating/metallizing of dielectric tubes.	1959 - Electronics Equipment Manufacturing, 1960 -Power Designs Inc., P-Electronics Inc.	Office/factory use; manufacturing of trimmer capacitors, assembly of electrical parts, and electroplating/metallizing of dielectric tubes	Copper sulfate, Stannous sulfate, 1,1,1-trichloroethane (1,1,1-TCE), and methyl alcohol for degreasing is used during the facility's processing. Rinses from the copper and tin plating process are discharged to a pit in the process area at the front of the building

Town of Oyster Bay Building Department
Lot 965, Section 11, Block B at 1700 Shames Drive is 2.32 acres in size and is located southeast of the Shames Drive circle. In 1957, Sem Co. was the permittee for the installation of one cesspool, one septic tank, and 3 dry wells 14 feet below grade.

In early 1958, a one-story building for commercial/industrial use was beginning to be erected. On June 4, 1959, the building under construction collapsed "exactly as a deck of cards would do if placed in a vertical position" (as stated in a Town of Oyster Bay Building Department Report). Several men were injured and one death occurred. An inspection was made on the constructed building by the Building Department on March 25th 1959. There was no evidence of any concrete or footings failure. In October of the same year, a completed one-story cement block or brick building atop cement or brick flat with glass ten feet above ground building was constructed on the target property. The building contained an automatic sprinkler system, a Siamese fire connection, 8 stacks, 3 overhead doors, and oil, coal and gas burners. The owner of the target property was Jam Co. and the affidavit of property owner was Abraham Shames. During this time Jam Co submitted an application for approval of private sewage disposal to or from two 1,200 gallon leaching pools. A sketch of the property shows three pools located along the north side of the building.

In 1959, Electronics Equipment Manufacturing occupied the building. In 1960, Power Designs Inc. and P-Electronics Inc. occupied the building for office and factory use. A railroad ties retaining wall was constructed east of Shames Drive and 1470.84 feet from Brush Hollow Road.

In January of 1995 Sprague Goodman Electronics Inc relocated to 1700 Shames Drive. An Industrial Discharge Permit to discharge to the public sewer was transferred to the relocated facility. The company is involved in the manufacturing of trimmer capacitors, assembly of electrical parts, and electroplating/metallizing of dielectric tubes. Copper sulfate, Stannous sulfate, 1,1,1-trichloroethane (1,1,1-TCE), and methyl alcohol for degreasing is used during the facility's processing. Rinses from the copper

and tin plating process are discharged to a pit in the process area at the front of the building. Pretreatment include neutralization with marble chips, recovery rinses for copper and tin, and dragout rinses are utilized. Chemicals are stored in secured metal cabinets in process area. Hazardous waste is stored within process area on cement where no floor drains are present. All process tanks are double walled. Two process tanks were replaced with new polypropylene tanks during the relocation process. Cast iron piping was also installed underground. In September 1995 interior alterations were made by constructing a 20'x 5' one-story concrete block compressor room. The property owner was 1st Wall St.

Sprague Goodman Electronics currently occupies the property.

Nassau County Department of Health
This property was connected to the public sewer system under permit number S131451

Lot	Property Card Address	Current Occupant	Current Type of Business	Previous Occupant	Previous Type of Business	Potential Concern
959	1800 Shames Dr	Electro Industries	Manufacture/ sales of power and energy meters & power analyzer technology	1959 - Radiation Dynamics, Electronics Equipment Manufacturing	Research/ development of high voltage particle accelerators & manufacture of X-ray equipment	Former radiation vault on site

Town of Oyster Bay Building Department
Lot 959, Section 11, Block B at 1800 Shames Drive is 0.5111 acres in size and is located on southeastern portion of the Shames Drive circle. In 1958, a one-story cement block or brick building atop cement or brick flat with glass ten feet above ground was erected for industrial use. The building had an automatic sprinkler system and a Siamese fire connection. A 1,300 gallon septic tank and leaching pool was installed in the northeastern corner of the building.

In 1959 the property was owned by Shlomo and Naomi Kagan and Radiation Dynamics and Electronics Equipment Manufacturing occupied the buildings. Radiation Dynamics was involved in the research and development of high voltage particle accelerators and manufactured X-ray equipment. An above ground radiation vault, with a 12-inch fire wall, was constructed on the eastern section of the property. The vault did not have a sprinkler system.

In 1960, Jam Co. was the owner of the target property. Additions were constructed on the existing industrial building and vault. Burners for coal and oil were installed in the addition to the industrial building. The expansion of both buildings allowed Radiation Dynamics to begin production of the high voltage particle accelerators. It also provided space for the storage and assembly of units and additional testing space. A railroad tie retaining wall was also constructed east of Shames Drive and 1420.84 feet south of Brush Hollow Road; rear of property connected to vault building.

In 1977, the vault buildings were demolished.

From 1999 to the present (2007) Electro Industries has been the occupant of the property. This company specializes in the on-site manufacture and sales of power and energy meters, and power analyzer technology.

Nassau County Department of Health
This property was connected to the public sewer system on July 10, 1989 under permit number S132423.

960	2000 Shames Dr	Intelli-Tec Security Services, LLC	Installation/ monitoring commercial & residential security systems	1959 - ElectroComponents Inc. Philips Restaurant, Henry Rosedale & Son, Inc. 1972 – Sterling Co. 1989 – World Wide Industries	Manufacture of small instrument parts & sporting goods equipment	None Found

Town of Oyster Bay Building Department
Lot 960, Section 11, Block B, at 2000 and 2200 Shames Drive is 0.8895 acres in size and is located on the south side of the Shames Drive circle. In 1959, two one-story cement block or brick buildings atop flat metal clad frame with glass ten feet above ground were erected on the target property. The buildings had mirror construction of each other. The buildings included 4 stacks, 2 overhead doors, a concrete ramp, oil heaters, a 1,300 gallon septic tank, and a leaching pool. The tanks and leaching pools were located in between the two buildings, north of Shames Drive. The open area in the rear was paved.

In 1959, Electro Components Inc., a Sem Company occupied the building and manufactured small instrument parts and sporting goods equipment. Phillips Restaurant (Nassau Caterers) also occupied one of the buildings at the time and provided a coffee shop, restaurant, cocktail lounge, and catering. Henry-Rosedale and Son Inc. was also listed as an occupant.

In 1972, the Sterling Co. was the occupant at 2000 Shames Drive.

In 1983, Edith Sichel was the owner of the property and a sewer connection was installed.

In 1989, the Sterling Company owned the property and World Wide Industries was the occupant. Piping for potable water was installed in that same year.

Currently Intelli-Tec Security Services, LLC., occupies the property. This company installs and monitors commercial and residential security systems.

Nassau County Department of Health
The property, owned by Edith Sichel, was connected to the public sewer system in January 1983. The existing cesspool was pumped out, back filled and paved over with black top.

In 1989 through 1995 the World Wide Industrial Corporation occupied the building and held a permit to store numerous materials, i.e. Sulfamic acid, soda ash and pesticides such as Watercide LS, in liquid or solid form. Liquid chemicals were stored in a 55 gallon drum and solid chemicals were stored in a 2,000 pound drum.

NCDOH inspections of the property and building documented that hazardous material was not stored on site and oil tanks and floor drains were not present.

964	2300 Shames Dr	Kemp Metal Products, Inc	Pouring and rolling out metal ingots (Zinc and Nickel), & cutting them into karats.	1959 - Precision Boring Co, Kemp Metal Products, Inc, 1966 - Polymer Plastics Manufacturing Corp., 1968 -Electronics Equipment Manufacturing, Freedman, 1989 - Accent on Lithography	Metal works, precision products & instruments, manufacture sealers, adhesives, etc., print shop	Accent on Lithography from NCDOH for presence of a discharge pipe, uncapped/un-elevated waste drums, un-designated chemical storage area and un-posted MSDS

Town of Oyster Bay Building Department
Lot 964, Section 11, Block B at 2300 Shames Drive is 0.5334 acres in size and is located in the middle of the Shames Drive circle. In 1958, Sem Co., president Abraham Shames, erected a one-story (138' x 77') industrial building. The building was constructed of cement block or brick atop cement or brick flat with glass ten feet above ground. The building contained 4 stacks, 2 overhead doors, and one concrete ramp. A 1,300 gallon septic tank and a leaching pool (7' x 4") were installed on the eastern side of the building. A permit for 10 floor drains was also issued in 1958.

In 1959, occupant of the property was Precision Boring Co. who manufactured precision products and instruments. This company occupied the building for 54 years. Improvements to the building were also made during this year to add an office and shop area.

In 1966, Polymer Plastics Manufacturing Corp. sub-leased the building to manufacture concrete additives, water proofing compounds, synthetic adhesives, concrete floor hardeners, sealer, bonding agents, caulking compounds, cold glazed wall finishers, joint and block fillers.

Electronics Equipment Manufacturing occupied the facility in 1968. However the 1968 Sanborn Map addressed the building to 1900 Shames Drive.

Kemp Metal Products, Inc., owned by the Raskin family, has occupied the building since 1959. Processes conducted in the building include pouring and rolling out metal ingots (Zinc and Nickel), and cutting them into karats. Several improvements were made to the building over the years including paving in 1971, the construction and repair of an exterior wall in 2001 and interior alterations to provide accessory storage and offices in 2002.

Freedman resided at this property for 10 years.

Nassau County Department of Health
In 1989 Accent on Lithography leased part of the building from Kemp Metal Products for use as print shop. This shop used inks, dyes, photo developer and fixer. Waste streams containing photo developer and fixer were poured into the sink. All

chemicals were stored in an isolated area with a cement floor. A permit compliance inspection by NCDOH in September 1989 cited the following violations:

- Discharge pipe from pickle and rinse tank to be dismantled
- Waste drums behind building to be capped and raised off ground
- Designate areas where chemicals are stored, including oils
- Post MSDS for employee safety and use

All violations were corrected by the next inspection, which occurred on October 3, 1989.

NCDOH sampled two dry wells behind the building in November 1989.

Since 1959, Kemp Metal Products has continuously renewed permits for the use of drums to store various types of solid and liquid chemicals. The types of chemicals used were primarily for alloying, soldering metal, hydraulic oil and cooling oil. Borax was used as a pickling agent and water soluble oil lubricant was held and hauled off-site. All chemicals were stored in an isolated room with a cement floor.

Permit compliance inspections by NCDOH in 1994 through 1999 documented the presence of bulk and container storage and that waste drums containing a mixture of oil and water were removed by an independent waste hauler (AB Oil Service of Bohemia, New York). No oil tanks, floor drains or emission points were noted during the inspections.

Lot	Property Card Address	Current Occupant	Current Type of Business	Previous Occupant	Previous Type of Business	Potential Concern
958	2500 Shames Dr	BDC & Custom install/ CEDIA Distribution	Sales of audio and video equipment and architectural and home automation products	Henry J. Green Instruments Inc, White-Hixon Laboratories	Manufacture of meteorological instruments, manufacture/design/ test and sales of photographic processing equipment	Manufacturing of meteorological equipment could indicate storage and use of mercury on site

Town of Oyster Bay Building Department

Lot 958, Section 11, Block B, at 2500 and 2700 Shames Drive is 0.6881 acres in size and is located in the northern portion of the Shames Drive circle. The western side of the property contains the building addressed to 2500 Shames Drive, the eastern side to 2700 Shames Drive.

In 1958, the owner, Sem Co. was permitted to erect an industrial building (77' x 90') and a warehouse (82' x 77'). Both buildings were one-story high and constructed of cement block or brick atop cement or brick flat with glass ten feet above ground. The buildings had a composition roof with 4 stacks, 2 overhead doors, and one concrete ramp. A 1,300 gallon septic tank and cesspool were installed at the northeastern side

of each building. Please note the permits issued for construction interchange which building was used as a warehouse or for industry.

Two occupants resided at 2500 Shames Drive; 1) Henry J. Green Instruments Inc. used the premises as an office and for the manufacture of meteorological instruments, 2) White-Hixon Laboratories used the premises to manufacture, develop, design, test and sell photographic processing equipment. The photographic processing items were generally made of sheet metal and plastic parts. The initial fabrication of these items was stated as being done elsewhere. White-Hixon also used the facility to develop, design and produce other scientific control, evaluation, and production devices and well as storing completed products.

Currently Bach Distribution Corporation (BDC) and Custom install/ CEDIA Distribution reside at the property. BDC distributes audio and video equipment and architectural and home automation products.

4.4 Department of Public Works Well Records

CDM submitted a request to review Department of Public Works records on June 4, 2007. Specifically, CDM requested to review Westbury monitoring and supply well records. See Figure 4-1 for well locations. The Department confirmed receipt of the request; however CDM is still awaiting a file review date. Water quality data was requested for the following wells:

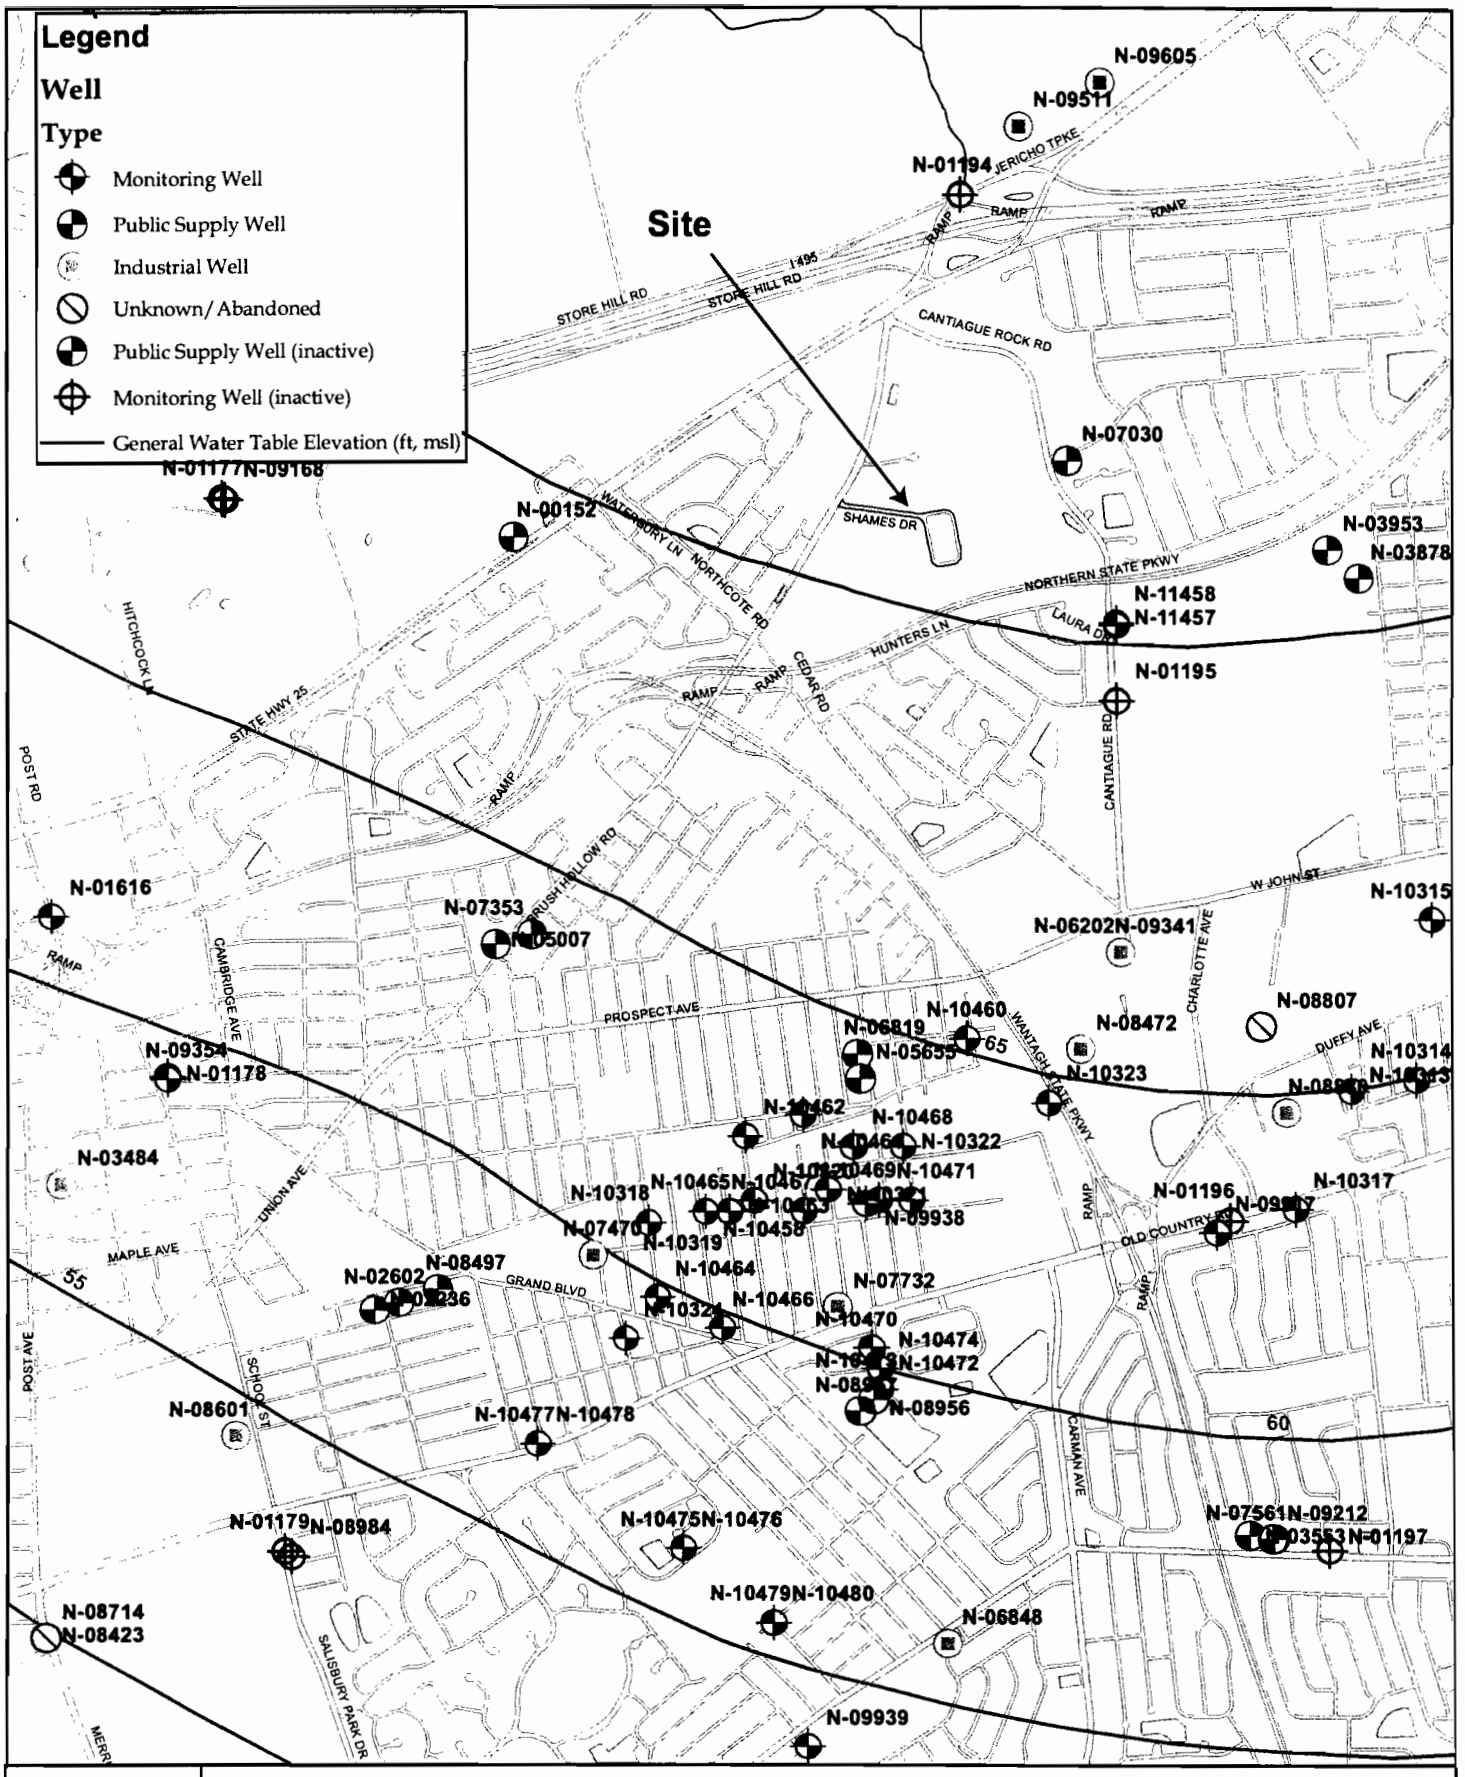

Upgradient/ Crossgradient Wells: N-01194, N-00152,

Downgradient Wells: N-07030, N-11457, N-11458, N-07353, N-05007, N-08497, N-02602, N-02236

Upgradient/Crossgradient Wells
Wells N-01194 andN-00152are located upgradient or cross gradient of the site. Well N-01194 is located north of the site; well N-00152 is located west of the subject property along State highway 25.

Downgradient Wells
Several downgradient wells are located in the vicinity if the subject property. Well N-07030 is located just southwest of the property near the intersection of Cantiague Rock Road and Saratoga Drive and wells N-11457 and N-11458 are located further south along Cantiague Rock Road and south of the Northern State Parkway. Wells N-07353 and N-05007 are approximately 1-mile south-southwest along Brush Hollow Road. Well cluster N-08497, N-02602, and N-02236 is located even further south adjacent to Grand Boulevard. These wells are thought to be in the direction of groundwater, south southwest.

Data received from the DPW will be incorporated into the SI Report.

CDM

Figure 4-1
Well Location Map

4.5 Nassau County Tax Assessment Records

CDM reviewed property records for the Shames Drive properties on the Nassau County Department of Assessment's website in order to identify property ownership and use information. The website contains current property information including photos, maps, and assessment values as well as available property record cards from 1938 to 1985. The following table summarizes the information obtained:

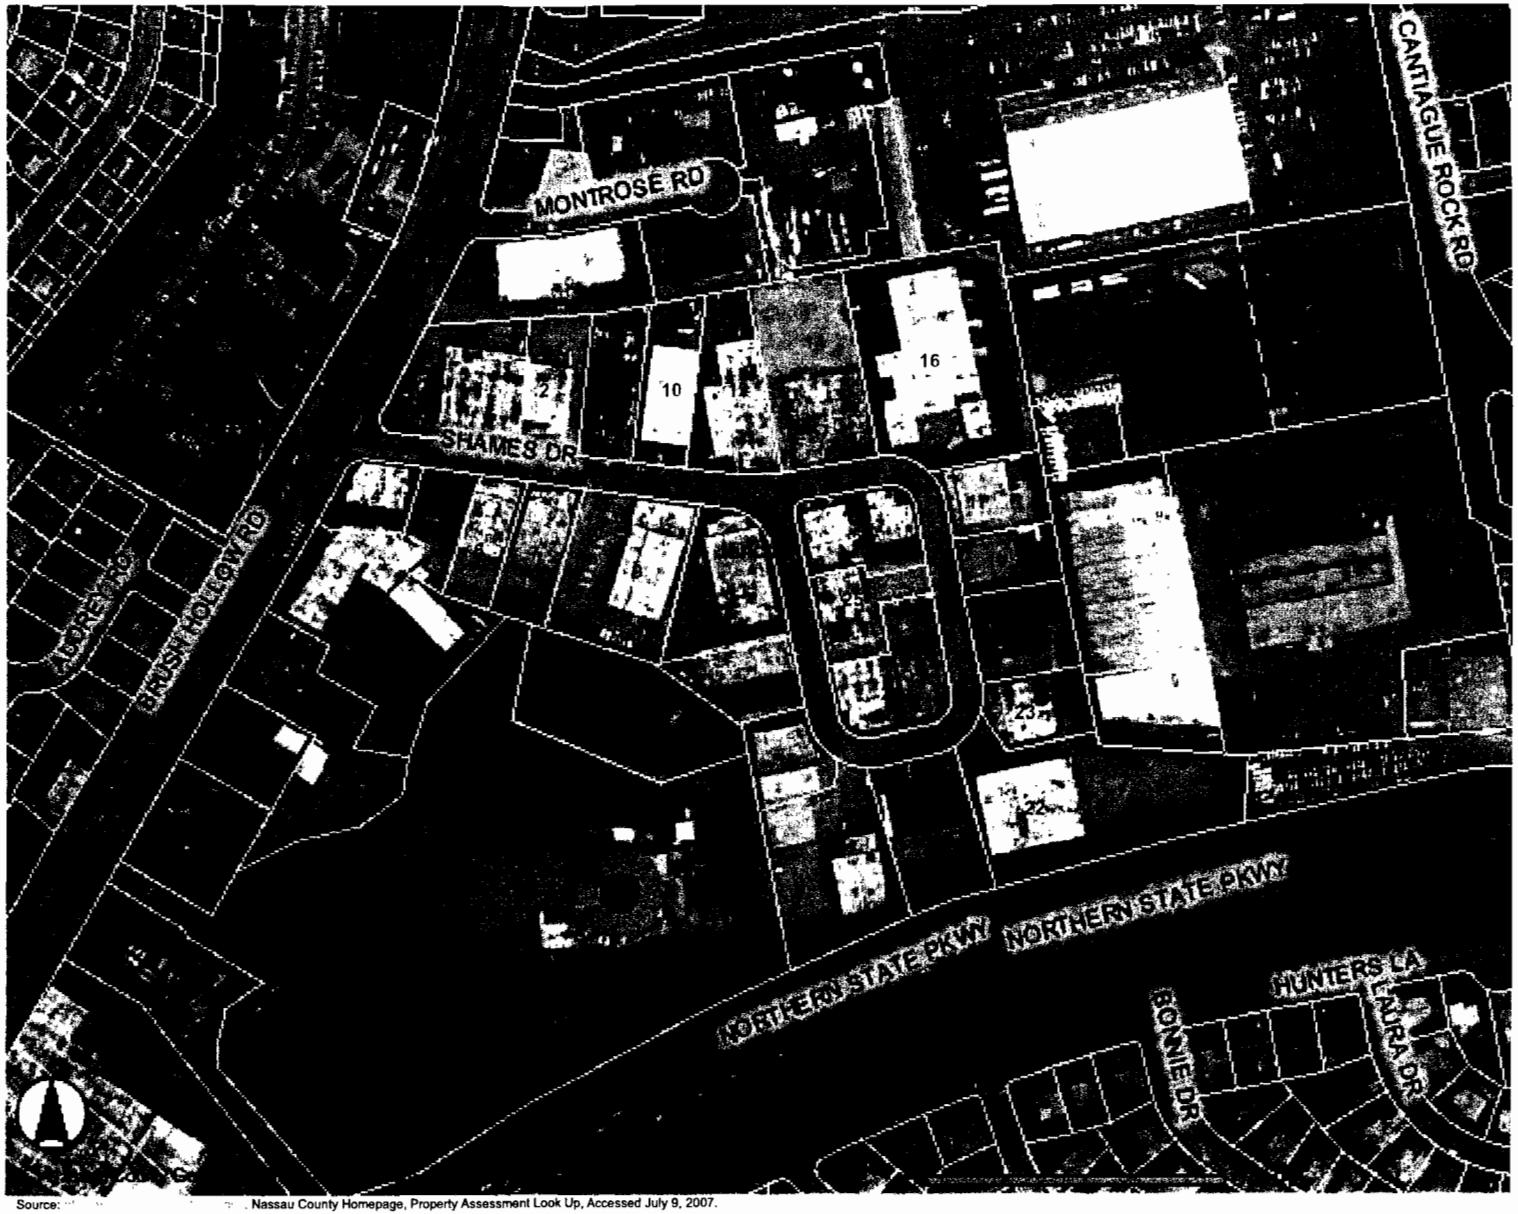

Table 4-1
Shames Drive Property Record Information

Section/ Block/Lot	Current Address	Current Occupant	Land Use Category	Property Use
11/B/918 & 1052	4800/5000 Brush Hollow Road 200 Shames Dr	(4800) Alita Tile West (5000) Carpet Concepts (200) Direct Buy	Commercial	Storage, Warehouse and Distribution
11/B/1048	3400 Brush Hollow Road	Tivoli Terrace		Assisted Living
11/B/1050	25 Shames & Brush Hollow Road	Tivoli Restaurant	Commercial	Restaurant, full service and beverages
11/B/970	3400 Shames Dr	Lunch Box Deli	Commercial	Paving, black top or fencing used w/ restaurants and diners
11/B/938	100 Shames Dr	Multi-Use: Jordan Fashions MTS Power Systems Delfino Insulation Company Incorporated	Commercial	Storage, Warehouse and Distribution
11/B/923	300 Shames Dr	Accurate Surgical & Chemical Corporation (Leeches USA Limited)	Industrial	Light Manufacturing, Small Factory Buildings
11/B/921	400 Shames Dr	General Welding Supply Corp.	Commercial	Multiple Use/ Multi Purpose - Office Warehouse
11/B/922	500 Shames Dr	Verizon	Industrial	Heavy Manufacturing, Factory Complex
11/B/930	600 Shames Dr	General Welding Supply Corp.	Industrial	Light Manufacturing, Small Factory Buildings
11/B/941	700/750 Shames Dr	(700) California Closet Co. (750) D.A.V.I.D. Digital Audio Video Integration Distributors	Industrial	Light Manufacturing, Small Factory Buildings

Section/ Block/Lot	Current Address	Current Occupant	Land Use Category	Property Use
11/B/934	800-820 Shames Dr	(800) Independent Resources Network (IRN Payment Systems) (820) Vacant	Commercial	Storage, Warehouse and Distribution
11/B/933	900 Shames Dr	Production Packaging Equipment (PPE) Incorporated	Industrial	Job Shops and Multiple use Buildings w/ no interior finish
11/B/935	1000 Shames Dr	Orly's Treehouse - day care	Commercial	One story multi-use building (with finish) single occupant
11/B/953	1100/ 1150 Shames Dr	(1100) Multi-Office: Compu Med Billing Services Limited Ala Scientific Instruments Kwale Marketing Group Mercury Commerce RCM Group LLC/ Dealyard.com CP Mortgage Inc. (1150) Raffit Ribbons (1150) Basket Extaordinaries	Industrial	
11/B/1073	1200 Shames Dr	Multi-Use: Jordan Fashions MTS Power Systems Delfino Insulation Company Incorporated	Commercial	Storage, Warehouse and Distribution
11/B/954	1250 Shames Dr	Precision Leather Crafters	Industrial	Job Shops and Multiple use Buildings w/ no interior finish
11/B/962	1300 Shames Dr	(1300) Miller Environmental Group Incorporated	Industrial	Light Manufacturing, Small Factory Buildings
11/B/955	1400 Shames Dr	Fabric Quilters Unlimited Incorporated	Industrial	Job Shops and Multiple use Buildings w/ no interior finish
11/B/956	1500 Shames Dr	National Molding & Ornament Limited	Industrial	Light Manufacturing, Small Factory Buildings
11/B/1014	1600 Shames Dr	AVAD Metro East	Industrial	Light Manufacturing, Small Factory Buildings

Section/ Block/Lot	Current Address	Current Occupant	Land Use Category	Property Use
11/B/965	1700 Shames Dr	Sprague Goodman Electronics Incorporated	Industrial	Light Manufacturing, Small Factory Buildings
11/B/959	1800 Shames Dr	Electro Industries Division of EI Electric Incorporated	Industrial	Light Manufacturing, Small Factory Buildings
11/B/960	2000/2200 Shames Dr	(2000) INTELLI-TEC Security Services LLC (2200) Fremont Industrial Corporation	Industrial	Light Manufacturing, Small Factory Buildings
11/B/964	2300 Shames Dr	Kemp Metal Products	Industrial	Job Shops and Multiple use Buildings w/ no interior finish
11/B/958	2500/2700 Shames Dr	(2500) Bach Distribution Corporation (BDC) Incorporated (2700) County Fair Air Conditioning Corporation (CFAC)	Industrial	Job Shops and Multiple use Buildings w/ no interior finish

The historic owners or tenants of the other facilities were not identified in the assessment records. Copies of the property cards are provided in **Appendix E**. See Figure 4-2 for property locations.

Figure 4-2
Shames Drive Industrial Park
Property Locations

Section 5
History

The site has been developed since the 1940s. Based on the 1947 Hicksville historic topographic map the site was improved with three structures and a driveway. The structures were likely residential and/or farm buildings. Much of the area was farmland prior to development. In the late 1950s industrial/commercial development began with the construction of the Shames Drive circle and the structures on the surrounding block and lots. Each block and lot was developed with at least one building by the mid 1960s. Nearly all structures as they exist on the lots today were constructed between 1958 and 1961. Additions, garages, and other improvements followed shortly after.

5.1 Aerial Photographs

CDM reviewed aerial photographs provided by EDR for the years 1953, 1966, 1976, 1980, and 1994. Copies of these photos are provided in **Appendix F**. Review of the photos show that in 1953, much of the area was unimproved or farmed. The future site of Cantiague Rock Road is visible as is Brush Hollow Road, the Northern State Parkway and Jericho Turnpike. The location of Shames Drive is visible but appears unpaved and with no development. A driveway and three structures appear to be located in the vicinity of Shames Drive. A residential property is located on Cantiague Rock Road at the future location of the Solvent Finishers property. The property at the southern end of Cantiague Rock Road adjacent to the Northern Parkway is developed. John Hassal Inc., manufacturer of nails, screws, rivets, etc., occupies this property. The John Hassal Inc. property is developed with a factory, access road around the site, parking area, and ancillary building. The property at the intersection of Cantiague Rock Road and Brush Hollow Road is developed with the *Coca-Cola Bottling Co of NYC Inc.* bottling and distribution plant. A small filling station is just south of the plant on Brush Hollow Road. Following south along Brush Hollow Road a few scattered residential properties are visible. The corner of Brush Hollow Road and the Northern State Parkway has been cleared for improvement. Residential neighborhoods are visible to the northeast and west of the subject area.

A great deal of development took place between the 1953 aerial and the 1966 aerial. The Shames Drive circle is also fully paved and improved with structures on each of the lots surrounding it. The Solvent Finishers site is no longer farmland or residential but rather improved with the industrial buildings present today. Cantiague Rock Road is paved and extends over the Northern Parkway. The Westbury Drive-In Theatre has been constructed northeast of the site and the John Hassal Inc. property has expanded to include an additional factory. Just southeast of the John Hassal Inc. property another industrial building has been constructed. Historic Sanborn maps identify this as a vibration controls manufacturing building constructed in 1960. The Cantiague Elementary School and baseball fields are located across from the drive-in along Cantiague Rock Road. The *Coca-Cola Bottling Co.* facility located at the corner of Cantiague and Brush Hollow Road also appears to have expanded the plant to include an additional building and parking areas. Montrose Road immediately north

of Shames Drive is visible. Three of the lots surrounding Montrose Road are improved with structures. These structures are identified as a decorative products manufacturing facility to the north, bowling alley/restaurant and an electronics equipment manufacturing facility to the south. The Trivoli Restaurant and Motel is fully developed as well as the Westbury Music Fair Summer Theatre. An industrial property has also been constructed at the south end of Brush Hollow Road just north of the Northern State Parkway. Immediately surrounding the subject area are residential neighborhoods.

The subject area continued to develop and improve between 1966 and 1974. The properties surrounding Shames Drive appear virtually unchanged. The Solvent Finishers property north of Shames Drive is improved with an adjoining structure (603 Cantiague Rock Road). The drive-in theatre and the *Coca-Cola Bottling Co.* remain unchanged. The John Hassel property at the end of Cantiague Rock Road is improved with additional access roads and another building with parking lot has been constructed at the back end of the lot. The Cantiague Elementary School remains unchanged. The parkland has been improved with a second baseball field. Some additional development has occurred along Brush Hollow Road. The property south of the *Coca-Cola Bottling Co.* is now developed with a single structure. The properties surrounding Montrose Road are nearly unchanged with the exception of the parcel at the end of the circle. This parcel was vacant in the 1966 aerial and is now developed with a single building and parking lot. According to the historic Sanborn Map this structure was built in 1967 for use as a metal products manufacturer. The Trivoli Restaurant and Westbury Music Fair Summer Theatre are unchanged. A significant amount of development has occurred on Brush Hollow Road across from Montrose Road and Shames Drive. Previously vacant, these lots along the west side of Brush Hollow Road are now occupied by fifteen buildings.

There is very little change between the 1980 and 1974 aerial. All properties appear unchanged with the exception of the drive-in which now has three screens instead of one. A third baseball field has been added to the parkland. Some minor changes have also occurred at the Trivoli Hotel and Restaurant property.

Between 1980 and 1994 only minor development has occurred. The property south of the drive-in is improved with a large factory or warehouse building. A fourth baseball field is now visible on the parkland. At least three structures previously located along Brush Hollow Road adjacent to the property south of the Trivoli Motel and Restaurant no longer exists. The remainder of the area remains the same.

Between 1994 and the present, no change has occurred at the site. The parcels surrounding Shames Drive and Montrose Road are unchanged. Some minor development have occurred south of the Trivoli property. A few structures have been demolished and other constructed. The drive-in theatre no longer exists but has been replaced by a movie theatre and a Price Club Wholesale Store. Both properties are fully paved. The Coca-Cola Bottling Co has also been reconstructed and is now a car dealership. Ancillary buildings have been demolished and only the main building remains. A larger area appears to be cleared and paved. The Westbury Music Fair

Summer Theatre and John Hassal Inc. properties south and southeast of the site remain unchanged.

5.2 Historic Topographic Maps

CDM reviewed historic topographic maps provided by EDR for the years 1900, 1918, 1947, 1967, and 1979. The reviewed maps were the 1900 Oyster Bay, New York 7.5 Minute, 1918 Camp Mills, New York 7.5 Minute, and the 1947, 1967, and 1979 Hicksville, New York 7.5 Minute topographic maps. Copies of these maps are provided in **Appendix G**.

The 1900 historic topographic map shows Cantiague Rock Road and Brush Hollow Road, as well as the roadway that later becomes the Jericho Turnpike. Shames Drive is not developed. Some minor development is found along Cantiague Rock Road and Brush Hollow Road. The Long Island Railroad Port Jefferson Branch is also shown on the map and passes through the Westbury Station located south of the subject area and Hicksville located southeast of the area.

Little change is shown on the 1918 topographic map. The area remains mostly undeveloped with homes scattered along Brush Hollow Road, Cantiague Rock Road and the Jericho Turnpike. The majority of development is in Hicksville and immediately surrounding the Westbury Station. No change has occurred on the site.

The 1947 topographic map shows some development in the subject area. A driveway leading to three structures likely a residential building and farm houses is developed in the vicinity of Shames Drive. A driveway or gravel access road also exists in the vicinity of Montrose road. Cantiague Rock Road is identified as a secondary highway and the Jericho Turnpike a primary highway. Brush Hollow is identified as a light-duty road, paved. Development is still scattered along the Jericho Turnpike, Cantiague Rock Road, and Brush Hollow Road. The Northern State Parkway is constructed as well as the interchange loops. A quarry/gravel pit is identified on the east side of Brush Hollow Road just north of the interchange loops. A mine dump is located immediately east of the quarry/ gravel pit.

The 1967 topographic map shows a significant amount of development. Shames Drive is fully developed with twenty-six (26) industrial, manufacturing, or office buildings. The Tivoli Motel and restaurant and eight light industrial, manufacturing, or office buildings have been constructed south of Shames Drive. The Westbury Drive-In Theatre and the Solvent Finishers property is improved as well as the *Coca-Cola Bottling Co.* bottling and distribution plant. The Cantiague Elementary School is identified as well as the John Hassal Inc. property. The John Hassal property is improved with an access road and three structures. A small pond is located in front of the Hassel property along the roadway. Montrose Road is visible with three structures surrounding it. The Westbury Music Fair summer theatre is visible as well as another large industrial/manufacturing facility located at the intersection of Brush Hollow Road and the new Northern State Parkway. The Northern State Parkway identified on the 1967 topographic map is identified as the Wantagh State Parkway.

The Long Island Expressway is also identified on the map. Little development has occurred north of the Long Island Expressway.

Little change is noted in the 1979 topographic map. The primary and secondary roadways remain unchanged as well as the site and the majority of the subject area. The other structures along Shames Drive remain unchanged. An addition has been erected on the Trivoli Motel and Restaurant property. Four additions have been constructed on the John Hassel property on the south end of Cantiague Rock Road just north of the Northern State Parkway. The metals products plant is now located at the east end of Montrose Road. The other structures along Montrose Road are unchanged. A significant amount of development is visible on the west side of Brush Hollow Road. The majority of the land outside the subject area is residential with little other industrial, manufacturing or commercial development.

5.3 Sanborn Fire Insurance Maps

Sanborn Maps constitute a database of prior site uses of real property for many cities and towns in the United States. The maps were originally created to assist insurance underwriters in understanding the potential fire risk of structures requiring insurance; however, they are also useful for determining the previous uses of a property. Sanborn Maps often contain information relating to uses of individual structures, location of certain fuel storage tanks, chemical storage tanks, or both, and storage of other potentially toxic substances. Sanborn Maps begin their coverage in 1867 and continue through the present. CDM reviewed a 1968 Sanborn map provided by EDR. Each lot is sketched with onsite structures, year of construction, utility connections, identifies the presence of tanks, and indicates the occupant of the site or property use. All lots located along Shames Drive were developed between 1957 and 1961. With the exception of the Trivoli restaurant and motel, all buildings are one-story cement block or brick. Buildings were typically constructed atop flat metal clad frame with glass ten feet above. A copy of the 1968 Sanborn Map is provided in **Appendix H**. Refer to the table below and text Section 4.3 of this report for property details.

5.4 City Directories

City Directories have been published for cities and towns across the U.S. since the 1700s. Business Directories including city, cross reference (Cole's Criss Cross Directory), and telephone directories were review, if available at approximately 5-year intervals for the years spanning 1935 through 2003. EDR provided City Directories listings for 2300 Shames Drive (centrally located in the Industrial park) and the surrounding properties for the years 1975, 1980, 1985, 1996, and 2000.

The list below provides the results of the city directories search. Data is grouped by address, year and occupant.

ADDRESS	YEAR	OCCUPANT
SHAMES DRIVE PROPERTIES		
100 Shames Drive	1975	General Electric
Oyster Bay, NY	1985	DBS Advisory Services
	1996	Office Building

A copy of the City Directory abstract is provided in **Appendix I**.

Section 6
Findings & Conclusions

A record search was conducted for the Shames Drive Industrial Park located in Westbury, Long Island, Nassau County, New York. The records search included a review of:

- Historic Aerial Photos from 1953, 1966, 1974, 1980, and 1997
- Historic Topographic Maps from 1900, 1918, 1947, 1967, and 1979
- Federal and State Database Search (provided by EDR Inc.)
- Federal and State Internet Database Search
- Historic Sanborn Map dated 1968
- City Directories Search
- Review Nassau County Records (Health Department and Public Works)
- Review of Town of Oyster Bay Building Department and Tax Assessor Records

Prior to this records search little was known about the history of the properties that are located along the Shames Drive Industrial Park circle. Major development began in the late 1950s. Nearly all original construction occurred between 1957 and 1961. Prior to industrial and commercial development the site was undeveloped or farmed. Refer to section 4.3 for a detailed summary of each property adjacent to Shames Drive.

6.1 Conclusion

A thorough records search including a review of Oyster Bay Building Department and Nassau County Health Department records identified historic uses of many of the properties within the Shames Drive Industrial Park which have the potential for environmental concern. It is in the opinion of CDM that State Superfund Standby Contract Work Assignment D004437-11 requires additional investigation to better ascertain the site conditions and determine whether any of the Shames Drive properties should be listed on the New York State Hazardous Waste Sites List. The following table lists the properties identified as potential concerns.

Table 6-1
Properties of Potential Concern

Lot	Address	Current Occupant	Current Business	Previous Occupant	Previous Business	Potential Concern
938	100 Shames Dr	First Investors Corp	Financial services	1958- Intercontinental Electronics 1971- Jasik Laboratories, Inter-County Tabulating Co.,Inc.	Manufacture of Electronics equipment, research/development of high frequency antenna and microwave transmission systems, tabulating services	Two 8,00-gallon gasoline USTs previously on-site
921	400 Shames Dr	General Welding Supply Co.	Sales of welding supplies and industrial/medical gases	1958- General Welding Supply Corp. Welding Supplies, Inc.	Warehouse and sales of welding supplies	2,000-gallon and 4,000-gallon USTs previously onsite - contents unknown
922	500 Shames Dr	Verizon	Telecommunications	1957- Stanant MFG Company, Inc., 1992- NY Telelephone Bell Atlantic	Machine shop; Maintenance garage, telecommunications	1990- cesspool soils contained halogenated hydrocarbons & heavy metals; presence of a long grate-like drain w/ unknown discharge point; former waste oil tank, gasoline UST
930	600 Shames Dr	General Welding Supply Co.	Sales of welding supplies and industrial/ medical gases	Westbury Industrial Development Corp., Universal oven Corp	Welding and steel cutting	Welding and steel cutting operations (use of lubricants, oils)
941	700 Shames Dr	California Closet Co	Sales of storage & closet equipment supplies & materials	1957- SemCo Westbury Industrial Development Corporation & Champion Storm-Sash Co 1990-Wesbury Alloys	Aluminum sash fabrication. Warehouse and masonry shop Refining & smeltering precious metals	Refining and smeltering precious metals using hydrochloric acid, nitric acid and cyanide; 2,550 gallon spent acid UST previously onsite
1073	1200 Shames Dr	Multi Occupant	Multi Use: Jordan Fashions; MTS Power Systems; Delfino Insulation Co., Inc.	1958-HITEMP Wires Co, a Div. of the Simplex Wire and Cable Corp.	Manufacture of wire insulation	former on-site manufacturing
962	1300 Shames Dr	Miller Envirn. Group Inc.	Environmental consulting services	1958- SemCo Aircraft Turbine Services	Manufacture, testing and repair of aircraft components	Former manufacture and repair of aircraft parts, former oils ASTs and UST

Lot	Address	Current Occupant	Current Business	Previous Occupant	Previous Business	Potential Concern
956	1500 Shames Dr	National Molding and Ornament	Sales of lumber and millwork	1958 - Slantco (aka Slant Fin Corporation), 1965 -Hallmark Lithographers, 1977-Slant Fin	Metal casting foundry, Print shop	complaints regarding noxious odors; former metal casting and print shop operations
1014	1600 Shames Dr	AVAD Metro east Distributors	Sales of audio components; flat panel TVs and home theatre systems	1957- Electronic Equipment Manufacturing 1967 Radiation Dynamics Inc.	Manufacture of electronics	Former radiation on site.
965	1700 Shames Dr	Sprague Goodman Electronics	Manufacture of trimmer capacitors, assembly of electronic parts & electroplating / metallizing of dielectric tubes	1959- Electronics Equipment Manufacturing 1960- Power Designs Inc., P-Electronics Inc.	Office/ factory use; manufacturing of trimmer capacitors, assembly of electrical parts, & electroplating/ metallizing of dielectric tubes	Copper sulfate, stannous sulfate, 1,1,1,-trichloroethane (1,1,1-TCE), and methyl alcohol for degreasing is used during processing. Rinses from copper and tin plating process are discharged to a pit in the process area at the front of the building
959	1800 Shames Dr	Electro Industries	Manufacture / sales of power and energy meters & power analyzer technology	1959- Radiation Dynamics, Electronics Equipment Manufacturing	Research & development of high voltage particle accelerators & manufacture of X-ray equipment	Former radiation vault on site
964	2300 Shames Dr	Kemp Metal Products, Inc	Pouring and rolling out metal ingots (zinc & nickel) and cutting into karats	1959- Precision boring Co, Kemp Metal Products, Inc, 1966- Polymer Plastics manufacturing Corp 1968- Electronics Equipment Manufacturing, Freedman 1989- accent on Lithography	Metal works, precision products and instruments, manufacture of sealers, adhesives, etc. Print shop	presence of a discharge pipe, uncapped/ un-elevated waste drums, un-designated chemical storage areas and un-posted MSDS; metal works, former use of dyes, photo developer, fixer, waste streams poured in sink; borax, hydraulic oil and cooling oil

Lot	Address	Current Occupant	Current Business	Previous Occupant	Previous Business	Potential Concern
958	2500 Shames Dr	BDC & Custom Install/ CEDIA Distribution	Sales of audio and video equipment and architectural and home automation products	Henry J. Green Instruments Inc., White Hixon Laboratories	Manufacture of meteorological instruments, manufacture, design, test and sales of photographic processing equipment	Manufacturing of meteorological equipment could indicate storage and use of mercury
958	2700 Shames Dr	County Fair Air Conditioning Corp	Full service mechanical contractor	1970-Clairette manufacturing Co., Martha-Theiss Inc	Unknown, office space & technical services, research, development and electronics	Instrument machining conducted on-site (potential use of lubricants, oils, solvents, metals)

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

FEDERAL RECORDS

RCRAInfo: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System(RCRIS). The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month. Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month Large quantity generators generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month. Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

A review of the RCRA-LQG list, as provided by EDR, and dated 06/13/2006 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

STATE AND LOCAL RECORDS

HSWDS: The List includes any known or suspected hazardous substance waste disposal sites. Also included are sites delisted from the Registry of Inactive Hazardous Waste Disposal Sites and non-registry sites that U.S. EPA Preliminary Assessment (PA) reports or Site Investigation (SI) reports were prepared. Hazardous Substance Waste Disposal Sites are eligible to be Superfund sites now that the New York State Superfund has been refinanced and changed. This means that the study inventory has served its purpose and will no longer be maintained as a separate entity The latest version of the study is frozen in time. The sites on the study will not automatically be made superfund sites, rather each site will be further evaluated for listing in the registry. So overtime they will be added to the registry or not.

A review of the HSWDS list, as provided by EDR, and dated 01/01/2003 has revealed that there is 1 HSWDS site within approximately 0.5 miles of the target property.

Lower Elevation	Address	Dist / Dir	Map ID	Page
BRINKMANN INSTRUMENTS INC	*CANTIAGUE ROCK RD*	*1/4 - 1/2 SSE*	*34*	*115*

SHWS: The State Hazardous Waste Sites records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. The data come from the Department of Environmental Conservation's Inactive Hazardous waste Disposal Sites in New York State.

A review of the SHWS list, as provided by EDR, and dated 03/05/2007 has revealed that there is 1 SHWS site within approximately 1 mile of the target property.

EXECUTIVE SUMMARY

LTANKS: Leaking Storage Tank Incident Reports. These records contain an inventory of reported leaking storage tank incidents reported from 4/1/86 through the most recent update. They can be either leaking underground storage tanks or leaking aboveground storage tanks. The causes of the incidents are tank test failures, tank failures or tank overfills

A review of the LTANKS list, as provided by EDR, and dated 01/17/2007 has revealed that there are 20 LTANKS sites within approximately 0.5 miles of the target property.

HIST LTANKS: A listing of leaking underground and aboveground storage tanks. The causes of the incidents are tank test failures, tank failures or tank overfills. In 2002, the Department of Environmental Conservation stopped providing updates to its original Spills Information Database. This database includes fields that are no longer available from the NYDEC as of January 1, 2002. Current information may be found in the NY LTANKS database.

A review of the HIST LTANKS list, as provided by EDR, and dated 01/01/2002 has revealed that there are 16 HIST LTANKS sites within approximately 0.5 miles of the target property.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

FIS (New York - Facility Information System) is New York's Department of Environmental Conservation (DEC) information system for tracking environmental facility information found across the State.

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Other Pertinent Environmental Activity Identified at Site

FIS (New York - Facility Information System) is New York's Department of Environmental Conservation (DEC) information system for tracking environmental facility information found across the State.

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Updated By: WJPARISH
Site Description: This active site has been occupied by a manufacturer of dental equipment since 1979. The site was used for the production of nuclear fuel rods in the 1950s and 1960s. On December 28, 1986, while excavating to build an extension to an existing facility, a number of drums, attributable to a former site operator, were discovered. Approximately 57 drums and 80 to 90 cu. yds. of contaminated soil were removed from the site. The primary constituents found in the drums were tetrachloroethene andtrichloroethene. Confirmatory soils samples indicated that there was some residual soil contamination. A Phase I Investigation, a Phase II Investigation, and a Supplemental Phase II Investigation have been completed. Angle borings in 1994 beneaththe new building extension failed to detect any volatile organic compounds. Three rounds of groundwater samples in 1992, 1993, and 1994 from upgradient and downgradient monitoring wells have detected significant levels of tetrachloroethene (PCE) and, to a lesser extent, trichloroethene (TCE). Levels of these contaminants exceed groundwater standards. There is a source of contamination upgradient of the Air Techniques parcel. The NYSDEC has completed a file search for upgradient properties.Site inspections and limited soil sampling have been performed on the upgradient parcels by the NYSDEC and the United States Nuclear Regulatory Commission. A Voluntary Investigation for the Air Techniques parcel and the two parcels immediately to the north of the site has been completed. A Supplemental Voluntary Investigation for these three parcels has been completed. A soil removal for soils impacted by uranium, thorium, nickel and tetrachloroethene on these three parcels that removed more than 56,500 cubic yards of soils was completed in July 2004. There are additional areas on the three parcels that will require excavation later. The off-site groundwater investigation has completed 55 profile borings up to one-third of a mile downgradient of the site. Additional groundwater sampling is planned.
Environmental Problems: Groundwater contamination by tetrachloroethene and trichloroethene, exceeding groundwater standards, has been detected at significant concentrations in the

AIR TECHNIQUES, INC (Continued) **1000133377**

underlying groundwater. A public supply well is located approximately 7,000 feet downgradient of the site.

Health Problems Assesment: The perimeter of the site is fenced, therefore the potential for direct contact with contaminated soils is limited to employees and trespassers. The Hicksville supply wells located one mile downgradient of the site treat water to remove low levels of VOC contamination. The water is monitored routinely to verify compliance with New York State drinking water standards. Since these wells could be impacted in the future from a significant contamination plume leaving the site, an outpost monitoringwell was placed upgradient to identify the advancement of the plume. Metals, VOC and radiological contamination is currently being removed from on-site soils. Based on elevated levels of VOCs in soil gas, NYSDOH performed indoor air sampling in on-site buildings. Indoor air quality was impacted in one vacant building on-site which was used as a staging area for the workers remediating the site.

Other Pertinent Environmental Activity Identified at Site

FIS (New York - Facility Information System) is New York's Department of Environmental Conservation (DEC) information system for tracking environmental facility information found across the State.

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and its Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

CERCLIS (Comprehensive Environmental Response, Compensation, and Liability Information System) is the Superfund database that is used to support management in all phases of the Superfund program. The system contains information on all aspects of hazardous waste sites, including an inventory of sites, planned and actual site activities, and financial information.

AIR TECHNIQUES, INC (Continued) **1000133377**

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

EPA Waste Codes Addendum

Code	Description
D001	IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
D008	LEAD
F005	THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

FEDERAL RECORDS

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 09/27/2006
Date Data Arrived at EDR: 11/01/2006
Date Made Active in Reports: 11/22/2006

Data Release Frequency: Quarterly

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991
Date Data Arrived at EDR: 02/02/1994

Data Release Frequency: No Update Planned

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 02/27/2007
Date Data Arrived at EDR: 03/21/2007

Last EDR Contact: 03/21/2007
Next Scheduled EDR Contact: 06/18/2007
Data Release Frequency: Quarterly

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Date of Government Version: 12/20/2006
Date Data Arrived at EDR: 01/29/2007

RCRA: Resource Conservation and Recovery Act Information

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS). The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month. Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month. Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month. Transporters are individuals or entities that move hazardous waste from the generator off-site to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

US INST CONTROL: Sites with Institutional Controls

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

US BROWNFIELDS: A Listing of Brownfields Sites

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Last EDR Contact: 03/15/2007
Next Scheduled EDR Contact: 06/11/2007
Data Release Frequency: Annually

HSWDS: Hazardous Substance Waste Disposal Site Inventory

The list includes any known or suspected hazardous substance waste disposal sites. Also included are sites delisted from the Registry of Inactive Hazardous Waste Disposal Sites and non-Registry sites that U.S. EPA Preliminary Assessment (PA) reports or Site Investigation (SI) reports were prepared. Hazardous Substance Waste Disposal Sites are eligible to be Superfund sites now that the New York State Superfund has been refinanced and changed. This means that the study inventory has served its purpose and will no longer be maintained as a separate entity. The last version of the study inventory is frozen in time. The sites on the study will not automatically be made Superfund sites, rather each site will be further evaluated for listing on the Registry. So overtime they will be added to the registry or not.

HIST SPILLS: SPILLS Database

This database contains records of chemical and petroleum spill incidents. Under State law, petroleum and hazardous chemical spills that can impact the waters of the state must be reported by the spiller (and, in some cases, by anyone who has knowledge of the spills). In 2002, the Department of Environmental Conservation stopped providing updates to its original Spills Information Database. This database includes fields that are no longer available from the NYDEC as of January 1, 2002. Current information may be found in the NY SPILLS database. Department of Environmental Conservation.

VCP: Voluntary Cleanup Agreements

New York established its Voluntary Cleanup Program (VCP) to address the environmental, legal and financial barriers that often hinder the redevelopment and reuse of contaminated properties. The Voluntary Cleanup Program was developed to enhance private sector cleanup of brownfields by enabling parties to remediate sites using private rather than public funds and to reduce the development pressures on "greenfield" sites.

SPDES: State Pollutant Discharge Elimination System

New York State has a state program which has been approved by the United States Environmental Protection Agency for the control of wastewater and stormwater discharges in accordance with the Clean Water Act. Under New York State law the program is known as the State Pollutant Discharge Elimination System (SPDES) and is broader in scope than that required by the Clean Water Act in that it controls point source discharges to groundwaters as well as surface waters.

RES DECL: Restrictive Declarations Listing

A restrictive declaration is a covenant running with the land which binds the present and future owners of the property. As a condition of certain special permits, the City Planning Commission may require an applicant to sign and record a restrictive declaration that places specified conditions on the future use and development of the property. Certain restrictive declarations are indicated by a D on zoning maps.

EDR PROPRIETARY RECORDS

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data
Source: PennWell Corporation
Telephone: (800) 823-6277
This map includes information copyrighted by PennWell Corporation. This information is provided on a best effort basis and PennWell Corporation does not guarantee its accuracy nor warrant its fitness for any particular purpose. Such information has been reprinted with the permission of PennWell.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Day Care Providers
Source: Department of Health
Telephone: 212-676-2444

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Freshwater Wetlands
Source: Department of Environmental Conservation
Telephone: 518-402-8961

Scanned Digital USGS 7.5' Topographic Map (DRG)
Source: United States Geologic Survey
A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

Elevation:	162 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	40073-G5 HICKSVILLE, NY
Most Recent Revision:	1979

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

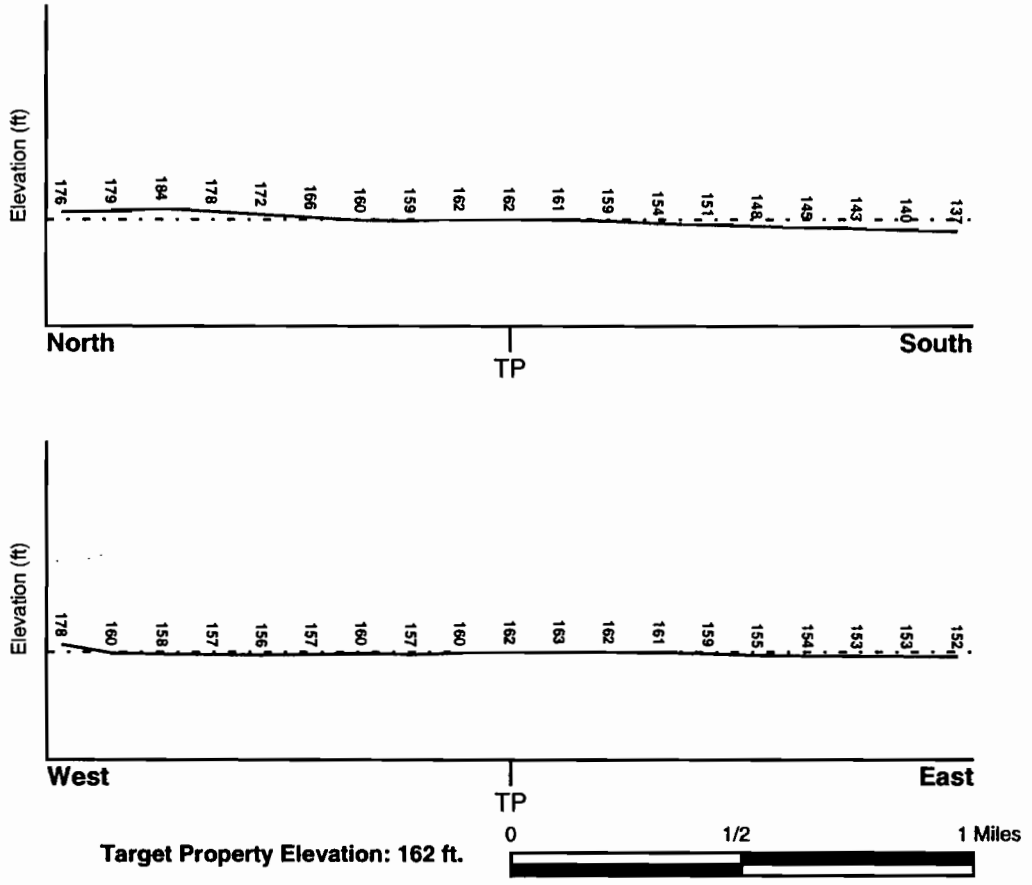

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General West

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Target Property County	FEMA Flood Electronic Data
NASSAU, NY	YES - refer to the Overview Map and Detail Map

Flood Plain Panel at Target Property: 36059C0143F

36059C0139F

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
HICKSVILLE	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Location Relative to TP:	1/2 - 1 Mile SSE
Site Name:	John Hassall
Site EPA ID Number:	NYD002045417
Groundwater Flow Direction:	South-Southeast
Inferred Depth to Water:	approximately 68 feet.
Hydraulic Connection:	The surficial aquifer and underlying aquifer are hydraulically connected.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information is inferred in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported		

* ©1996 Site-specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Cenozoic
System:	Quaternary
Series:	Pleistocene
Code:	Qp *(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Category: Stratifed Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name:	URBAN LAND
Soil Surface Texture:	variable
Hydrologic Group:	Not reported
Soil Drainage Class:	Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel:	Not Reported
Depth to Bedrock Min:	> 10 inches
Depth to Bedrock Max:	> 10 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	6 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: loam
sandy loam
sand

Surficial Soil Types: loam
sandy loam
sand

Shallow Soil Types: sandy loam

Deeper Soil Types: very gravelly - sand
coarse sand

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)
Source: United States Geologic Survey
A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Freshwater Wetlands
Source: Department of Environmental Conservation
Telephone: 518-402-8961

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Services
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

New York Public Water Wells
Source: New York Department of Health
Telephone: 518-458-6731

Oil and Gas Well Database
Department of Environmental Conservation
Telephone: 518-402-8056
These files contain records, in the database, of wells that have been drilled.

OTHER STATE DATABASE INFORMATION

RADON

State Database: NY Radon
Source: Department of Health
Telephone: 518-402-7556
Radon Test Results

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

Spill Date/Time

Spill Date: 09/12/1986 **Spill Time:** 12:00 PM
Call Received Date: 09/15/1986 **Call Received Time:** 08:45 AM

Location

Spill Name: DME
Address: 1200 SHAMES DRIVE
City: JERICHO **County:** Nassau

Spill Description

Material Spilled:
HYDROQUINONE

Amount Spilled:
0.0000 lbs.

Cause: Deliberate
Source: Commercial/Industrial
Resource Affected: Sewer
Waterbody:

Record Close

Date Spill Closed: 06/04/1987

"Date Spill Closed" means the date the spill case was closed by the case manager in the Department of Environmental Conservation (the Department). The spill case was closed because either; a) the records and data submitted indicate that the necessary cleanup and removal actions have been completed and no further remedial activities are necessary, or b) the case was closed for administrative reasons (e.g., multiple reports of a single spill consolidated into a single spill number). The Department however reserves the right to require additional remedial work in relation to the spill, if in the future it determines that further action is necessary.

If you have questions about this reported incident, please contact the Regional Office where the incident occurred.

DATE | COMMENTS

7 Oct 1989

Reinspection of facility revealed Violation Items B-6, B-7 & B-8 have been corrected.
Chemical Pollution control has sampled waste drums stored in the rear of facility, and will remove said drums when paper-work is completed.
Two drywells behind bldg. have not been sampled as of this date.
Facility in process of completing Article 56 Application.
H. Welch

27 November 1989

Sampling - 2 Drywells & drums
IN ATTENDANCE: NCDPW-Hazmat, NCPD-ESB and NCHD → Peter Paul and the writer.

H. Welch

28 December 1989

Recheck revealed drums stored outside adjacent to drywell (which were sampled (27 November 1989) have been removed.

H Welch.

March 29th, 1983

Mrs. Edith Sichel
38 Bulson Road
Rockville Centre, L.I.
#11570

24 1980

Dear Mrs. Sichel:

On January 28th, 1983, we started your sewer connection at 2000 Shames Drive, Westbury.

We excavated the line from the building to the property line and were about to dig out to the spur in the street when we noticed an electrical box from LILCo. in front of the spur. It was too large to dig around or under so the Nassau County Sewer Dept. took over the job and installed a cross TY in another location which provided spur loca - tions for both sides of the street.

When Nassau County got involved, they assumed responsibil- ity for the curbing and road work. Any problem with these areas will be handled by the Nassau County Sewer Dept. (535-4158).

If we can be of any further assistance, please do not hesi- tate to call.

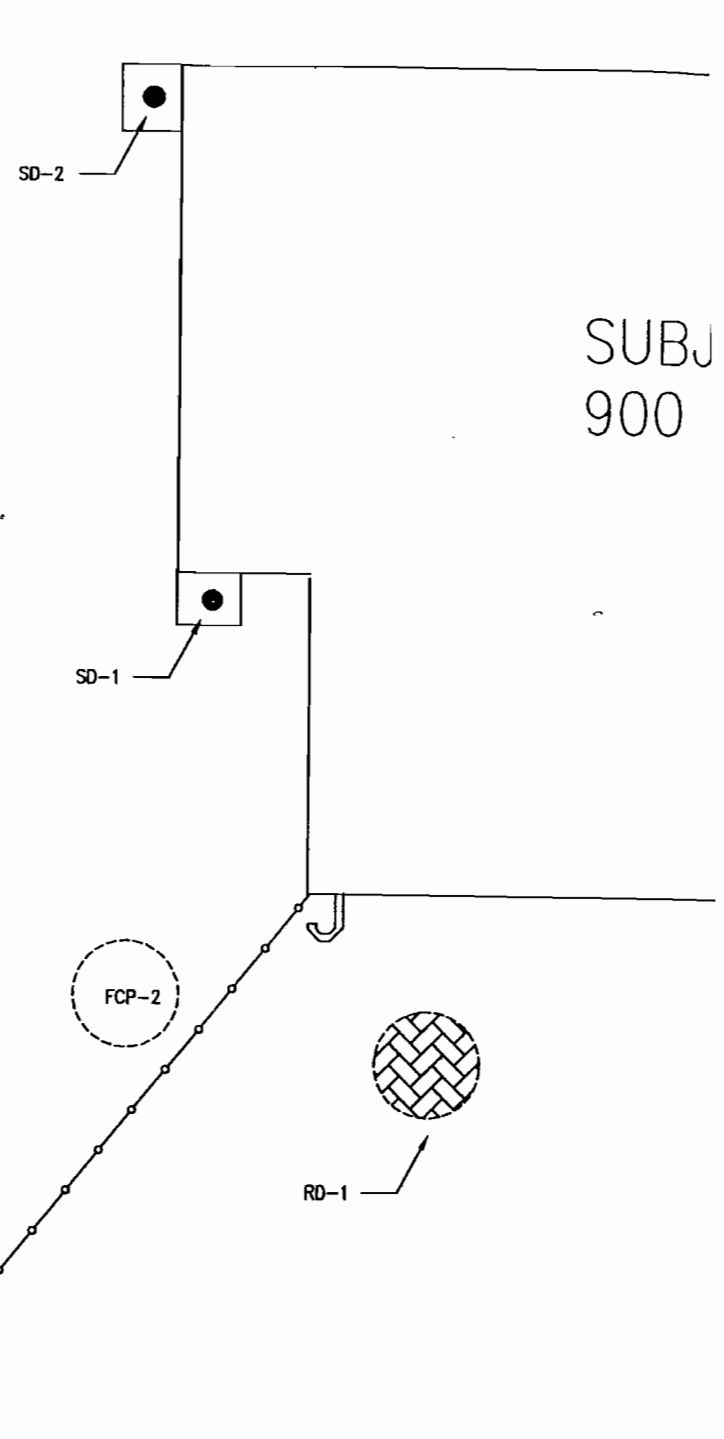

Very truly yours,

Harlan Sylvan

Dear Marcie Puskarik,

Your request for access to records of the Department of Health, Bureau of Environmental Protection has been approved. Records will be made available during normal working hours at 240 Old Country Rd., Mineola. There will be a $0.25 per page fee for photocopying any records.

The Bureau has searched its files for records pertaining to your request and found the following records to exist:

Sewer Connection

To schedule an appointment to review any above listed file(s) regarding toxic and hazardous materials and waste storage only, please contact Christine Pienkoski at (516) 571-1523.

Please contact Wayne Kempski at (516) 571-3323 to schedule an appointment to review any above listed file(s) regarding hazardous waste sites, water quality, underground injection control, sewer connections, realty subdivisions and private sewage disposal.

Very truly yours,

Michael Sekreta

RE: BUILDING PERMIT – SITEWORK & DRAINAGE
APPLICATION # 3137
WESTBURY REALTY
SECTION 11, BLOCK B, LOT(S) 933

Gentlemen:

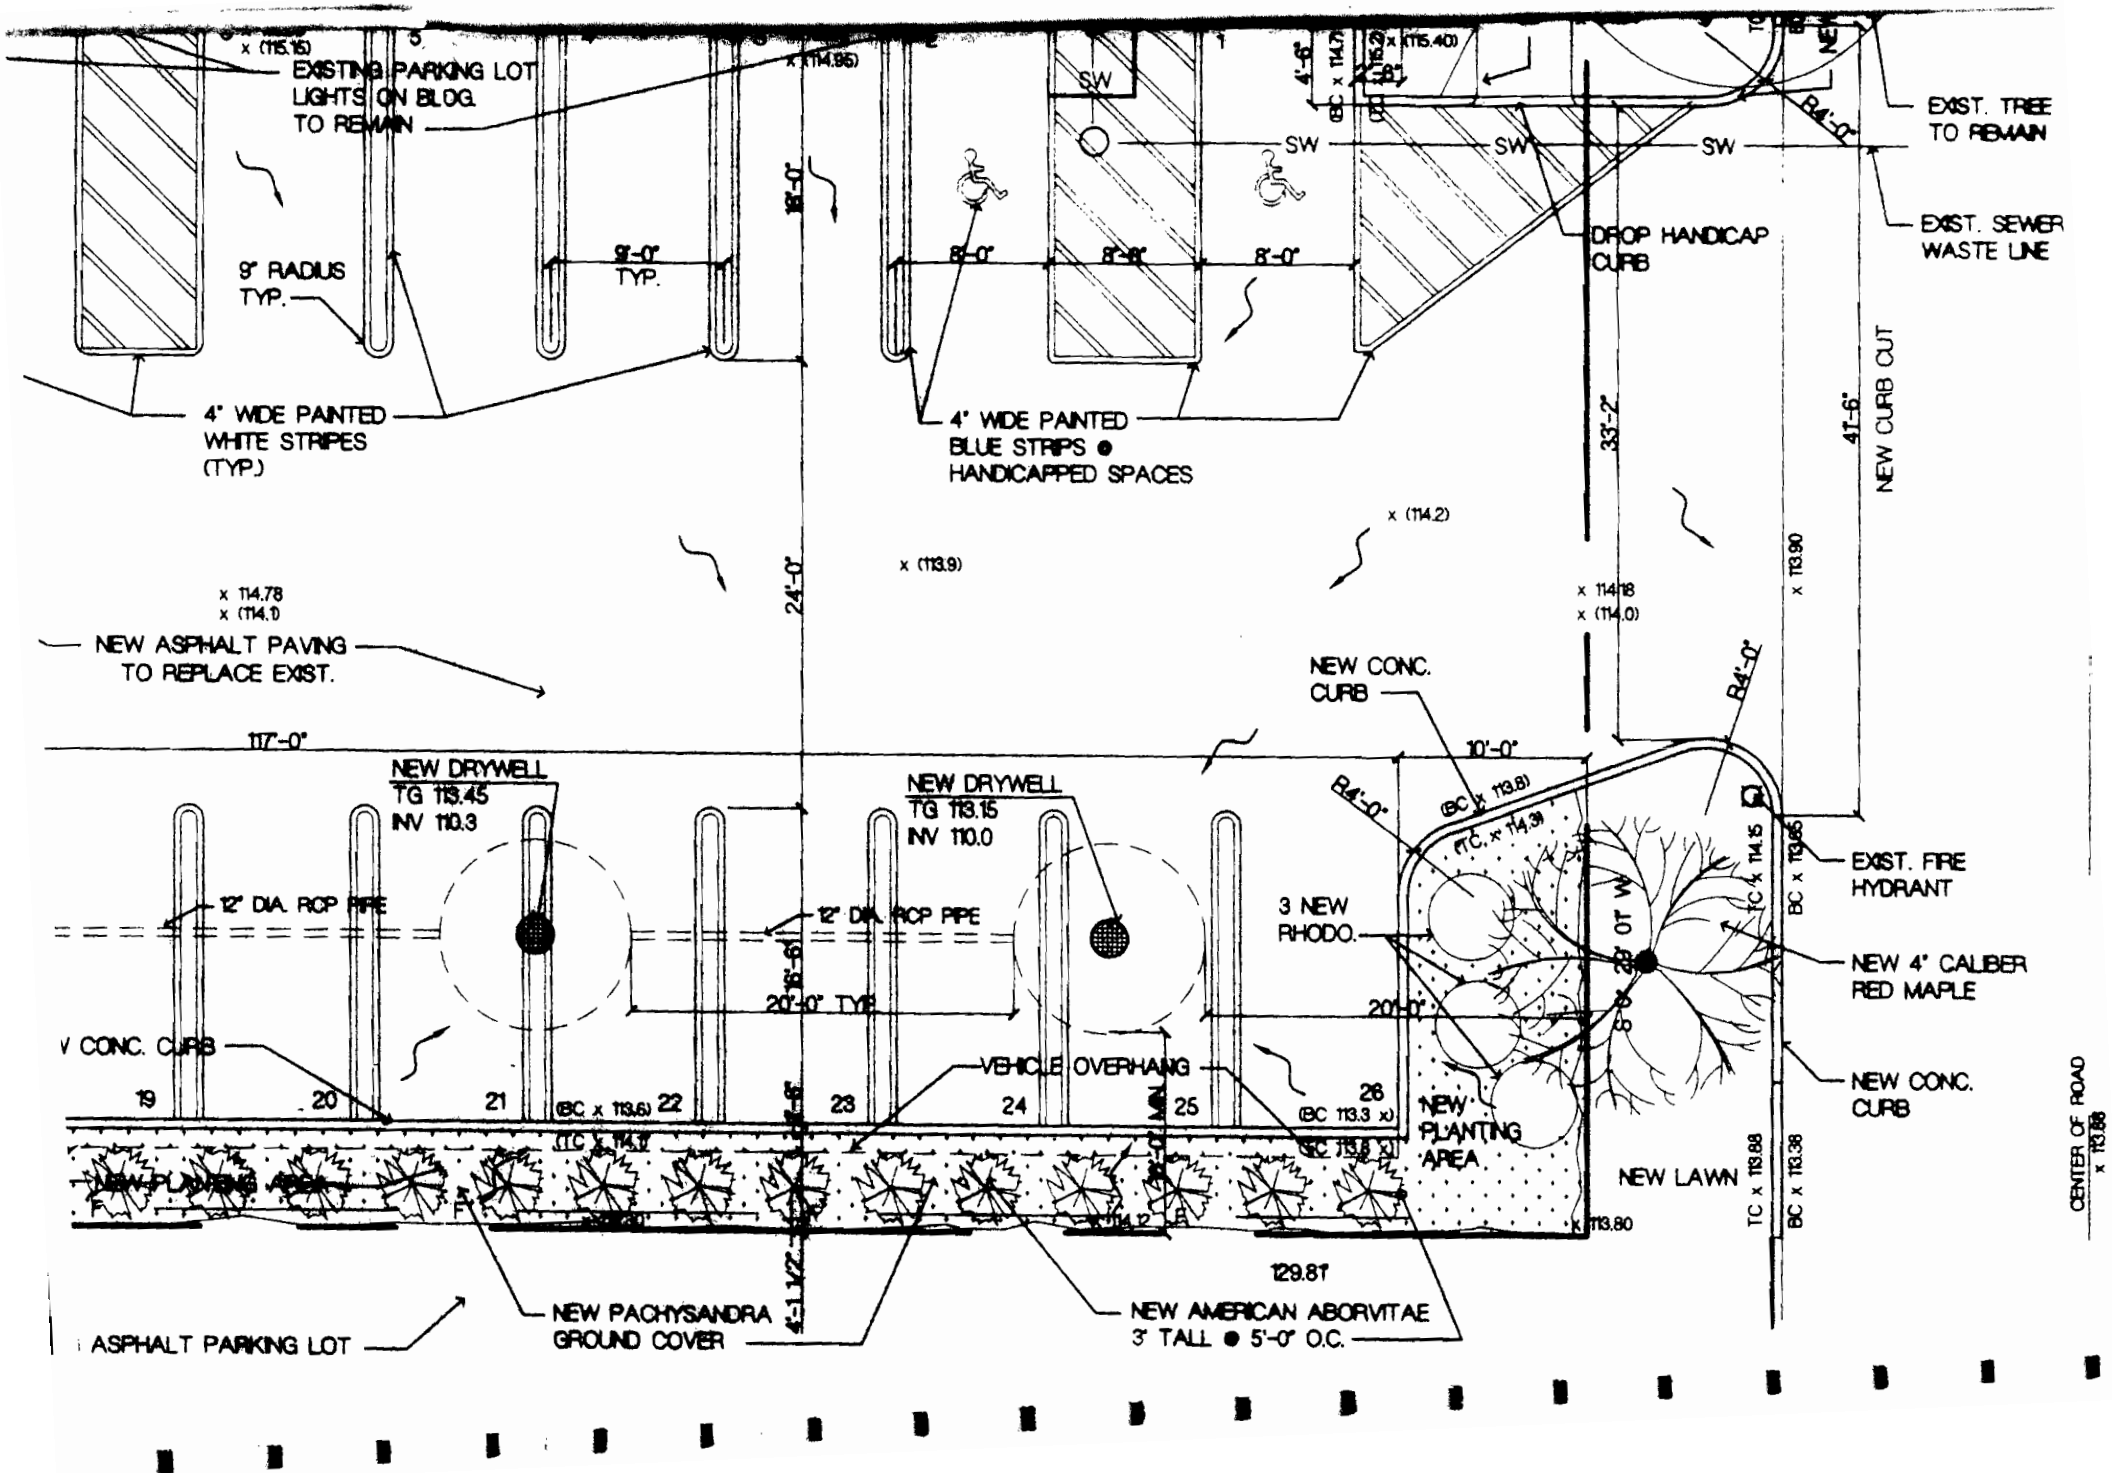

The plan for the above-captioned project, which you submitted dated 8/27/01 has been reviewed for conformance with the Town of Oyster Bay Individual Building Site Plan Rules & Regulations.

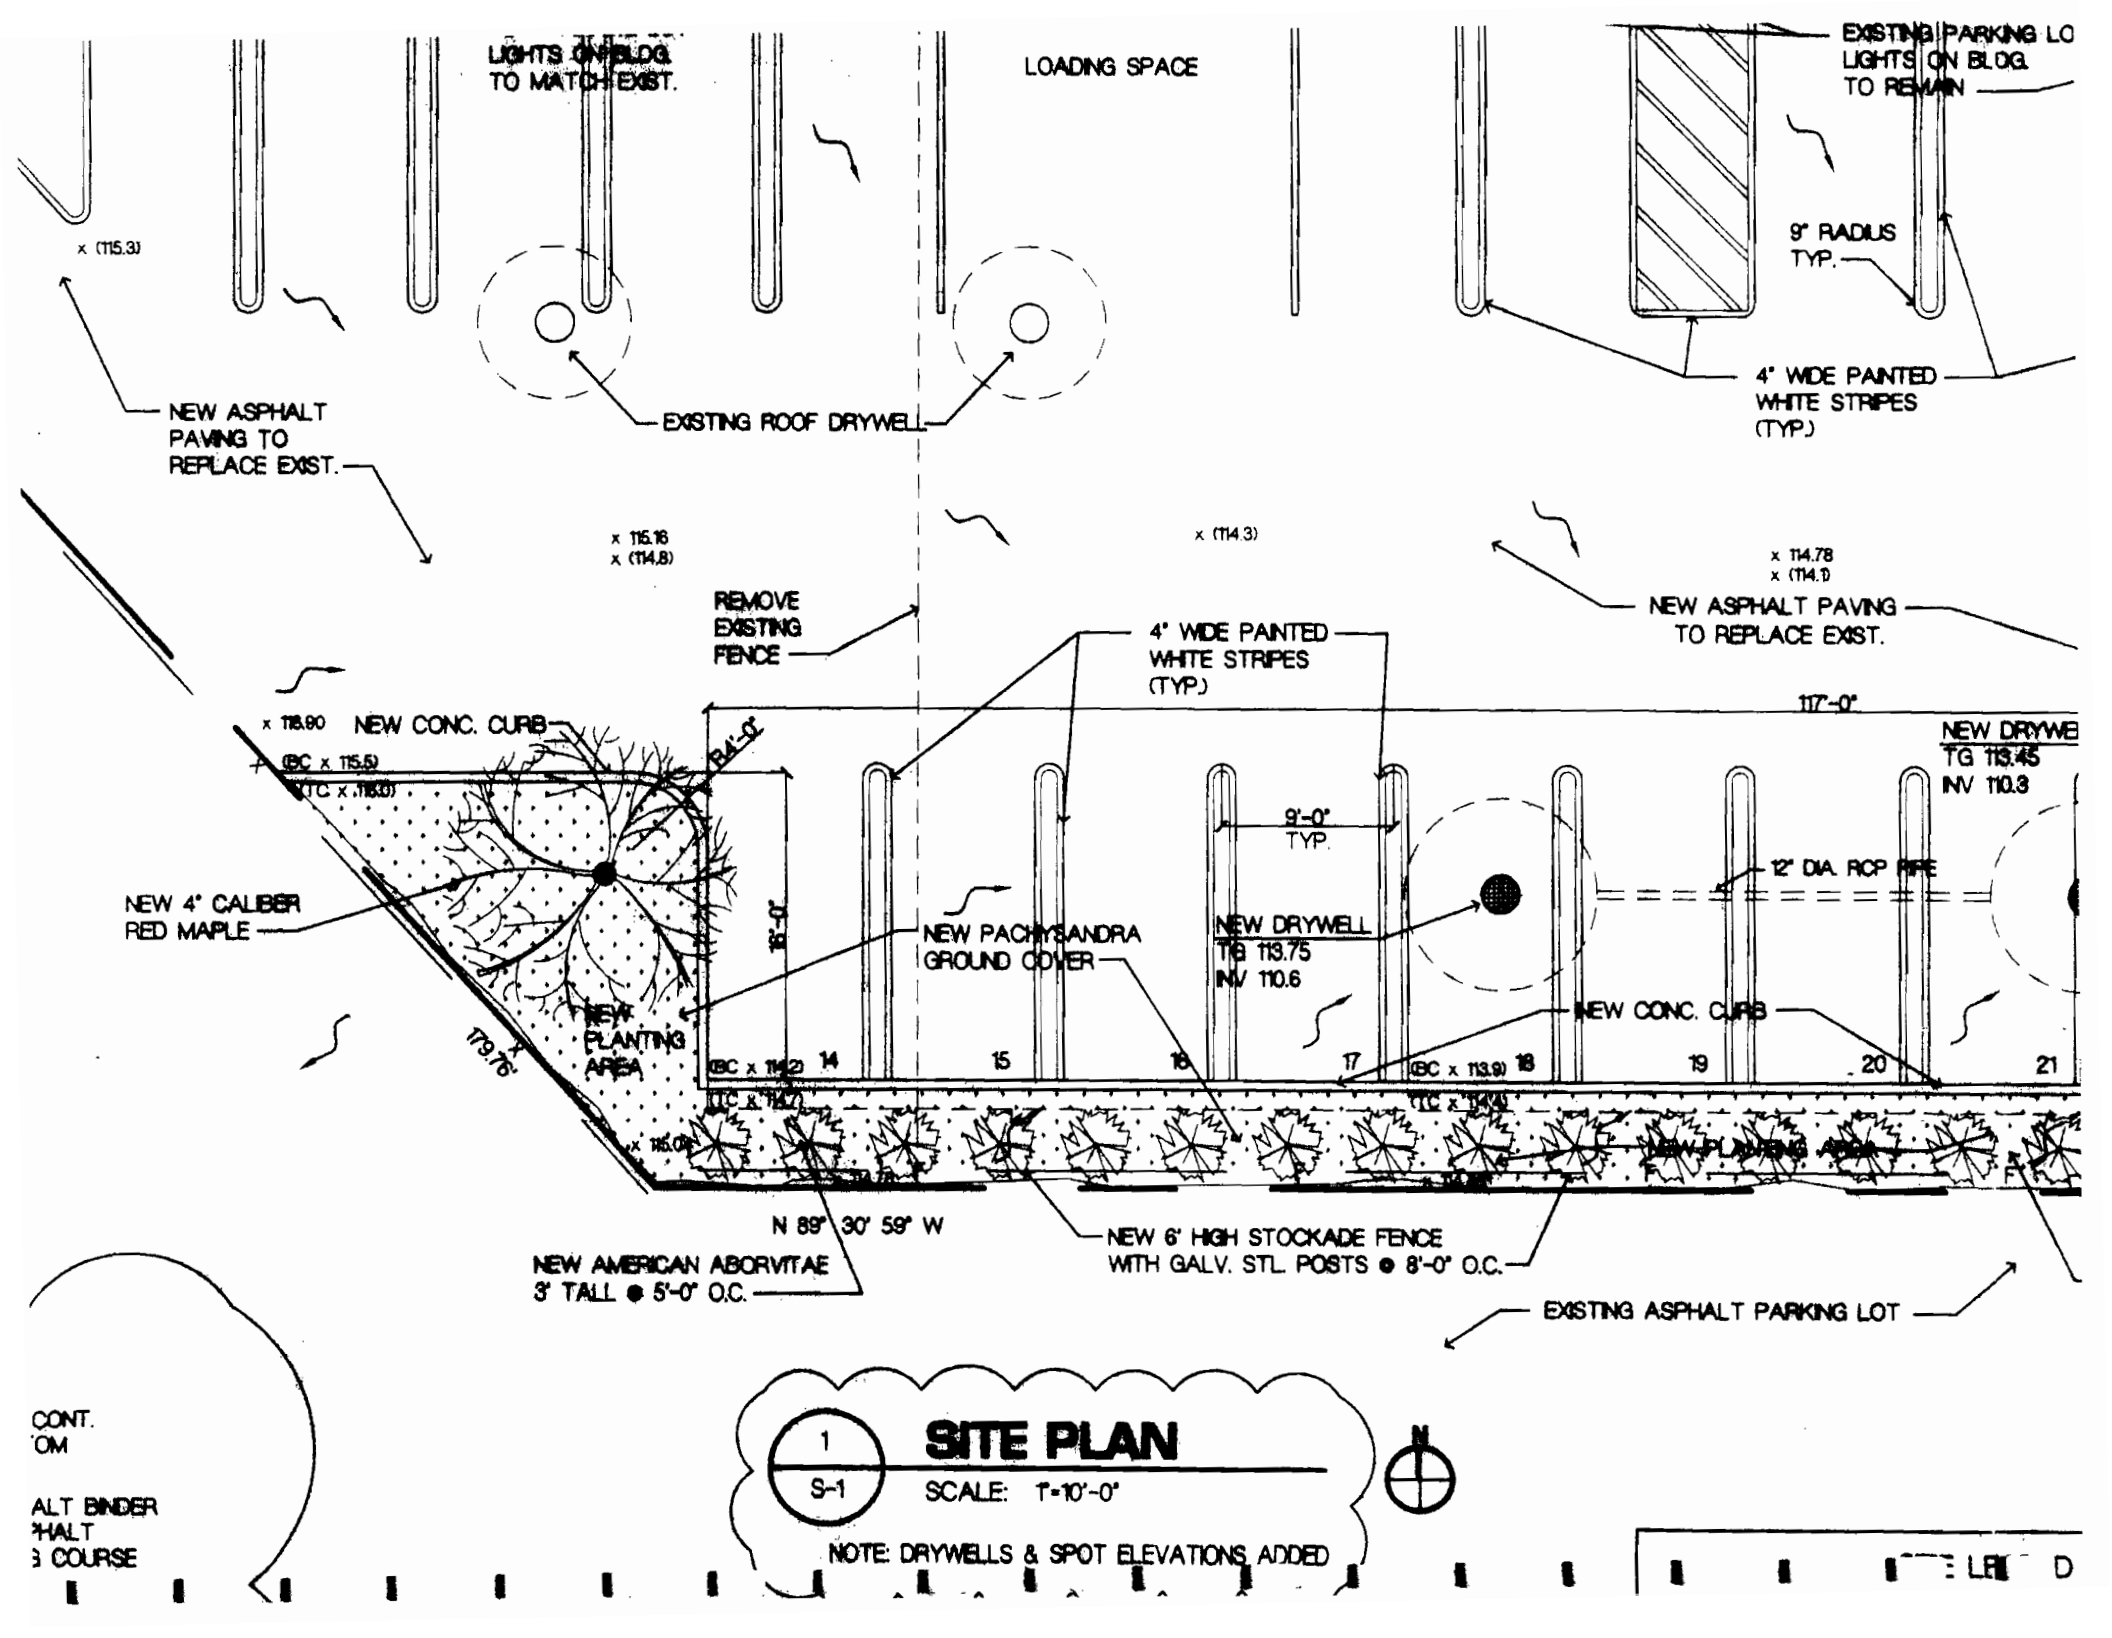

BASED UPON THE ABOVE YOUR PLAN, AS SUBMITTED, IS **APPROVED.**

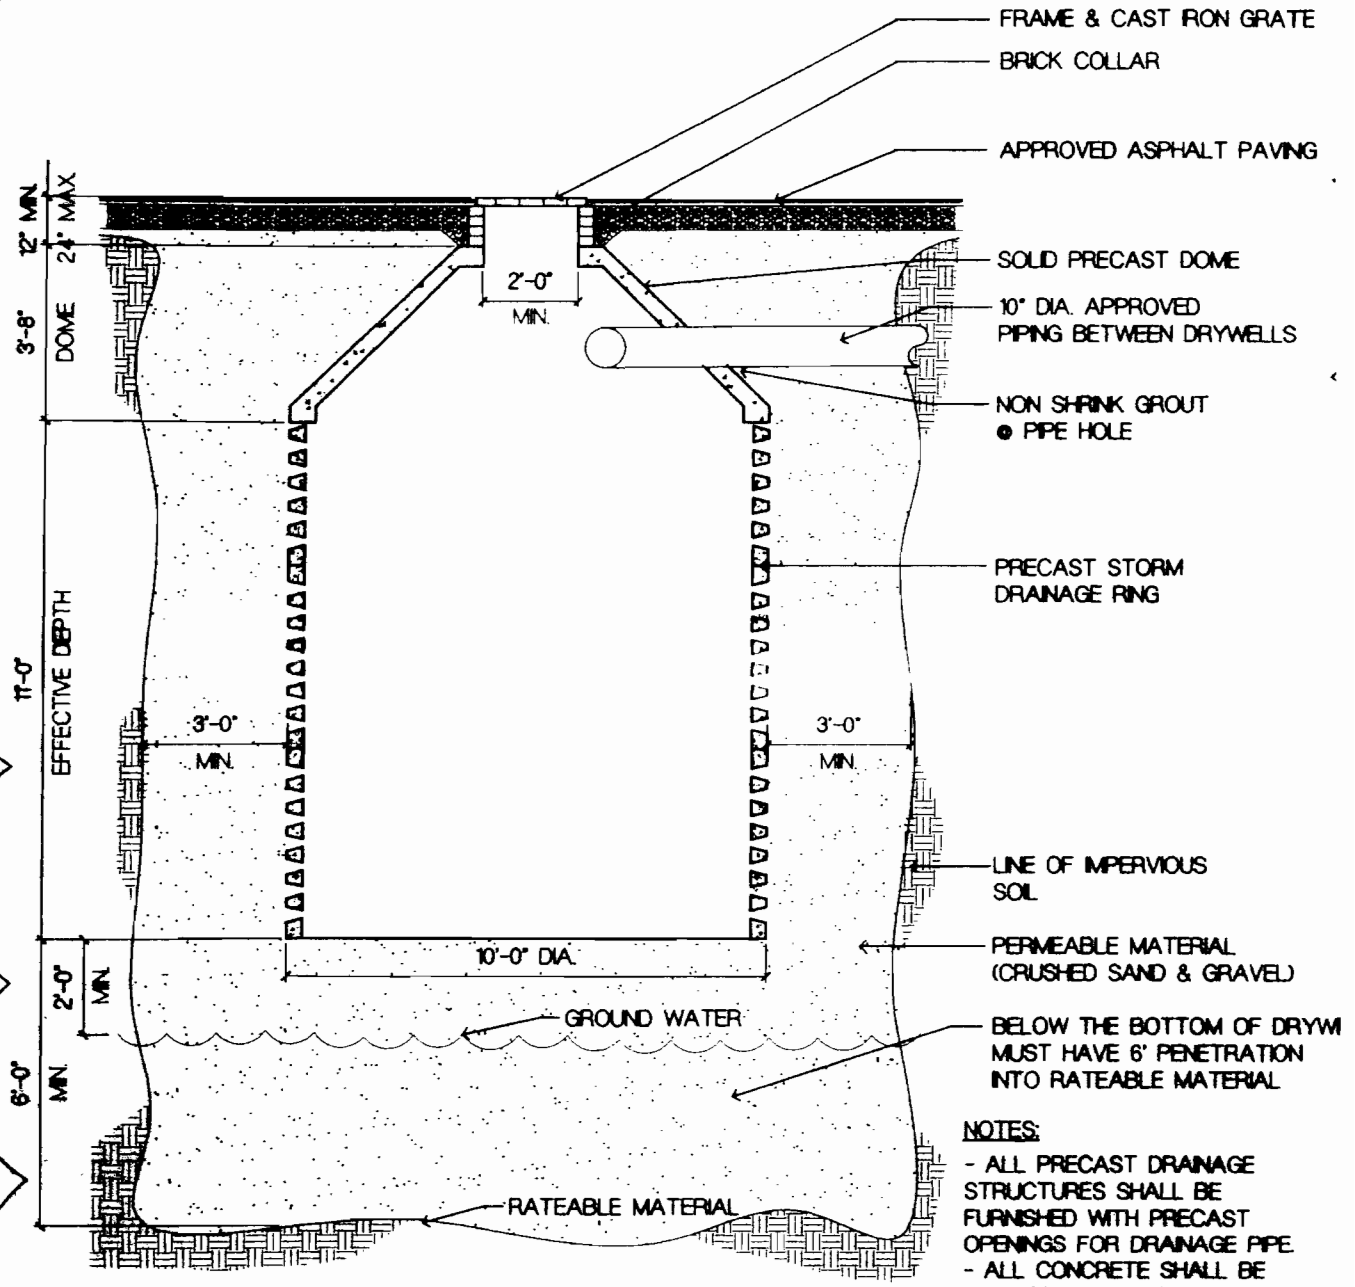

IMPORTANT: THIS IS NOT A BUILDING PERMIT

NOTE: Drainage, grading, base and pavement inspections must be scheduled at least 72 hours in advance of the time requested. Call 624-6246 to schedule inspections.

NOTE: All final site plan surveys submitted shall contain all as-built information which shall include, but not be limited to, sizes and capacities of drainage structures and their connecting pipe, flow lines indicating surface flows, location of all utility service lines and the location of all retaining walls with elevations on top and bottom of wall before the issuance of a C.O., also elevations every 30 ft. along property lines, sidewalks, top and bottom of curbs, center line of roads and abutting properties. Said final site plan survey shall be prepared by a N.Y.S. licensed land surveyor who shall certify that the information is correct.

MEASUREMENT IN U.S. STANDARD

THE EXISTENCE OF RIGHT OF WAYS AND/OR EASEMENTS OF RECORD, IF ANY, NOT SHOWN ARE NOT GUARANTEED.

THE DIMENSIONS SHOWN HEREON, FROM THE STRUCTURES TO THE PROPERTY LINE, ARE FOR A SPECIFIC PURPOSE ONLY. THEY ARE NOT INTENDED TO BE USED FOR THE ERECTION OF FENCES, STRUCTURES OR ANY OTHER IMPROVEMENT.

UNAUTHORIZED ALTERATION OR ADDITION TO A SURVEY MAP BEARING A LICENSED LAND SURVEYOR'S SEAL IS A VIOLATION OF SECTION 7209, SUBDIVISION 2, OF THE NEW YORK STATE EDUCATION LAW.

ONLY COPIES FROM THE ORIGINAL OF THIS SURVEY MARKED WITH AN ORIGINAL OF THE LAND SURVEYOR'S EMBOSSED SEAL SHALL BE CONSIDERED TO BE VALID TRUE COPIES.

GUARANTEES INDICATED HEREON SHALL RUN ONLY TO THE PERSON FOR WHOM THE SURVEY IS PREPARED, AND ON HIS BEHALF TO THE TITLE COMPANY, GOVERNMENTAL AGENCY AND LENDING INSTITUTION LISTED HEREON, AND TO THE ASSIGNEES OF THE LENDING INSTITUTION. GUARANTEES ARE NOT TRANSFERABLE TO ADDITIONAL INSTITUTIONS OR SUBSEQUENT OWNERS.

DRIVEWAY AND CESSPOOL EASEMENT

EASEMENT AGREEMENT made this 24th day of June, 1958, by and between HARRY H. SAMOORIAN and IRENE SAMOORIAN, his wife, with MANJVER BUILD CORPORATION,

WITNESSETH:

WHEREAS, HARRY H. SAMOORIAN and his wife, IRENE SAMOORIAN (hereinafter sometimes called "Samoorian", are the owners of premises known as 300 Shames Drive, Westbury, New York; and

WHEREAS, MANJVER BUILD CORPORATION intends to construct a building on property immediately adjacent to the property of SAMOORIAN and desires to obtain an easement for the installation of a cesspool and septic tank, together with an easement right to the use of the driveway for access and parking purposes, over and under the property of SAMOORIAN,

NOW, THEREFORE, in consideration of the sum of ONE DOLLAR and other good and valuable considerations, the receipt of which is hereby acknowledged by each of the parties hereto, IT IS AGREED as follows:

FIRST: SAMOORIAN does hereby give, grant and convey to MANJVER BUILD CORPORATION an easement and right of way over and across such portion of the property of SAMOORIAN lying immediately

STAGE II VAPOR RECOVERY SYSTEM NOTES

1- THE STAGE II VAPOR RECOVERY SYSTEM PIPING AND COMPONENTS SHALL BE AND INSTALLED IN ACCORDANCE WITH THE REQUIREMENTS OF ARTICLE III OF COUNTY FIRE PREVENTION ORDINANCE AND ALL COMPONENTS SHALL BE LISTED A REQUIREMENTS OF THE NATIONAL FIRE PROTECTION ASSOCIATION STANDARD 30A 4-3.7 AND 4.4.

2- THE INSTALLATION OF STAGE II VAPOR RECOVERY PIPING IN A CONFIGURATION OTH SHOWN REQUIRES SUBMISSION OF "AS BUILT" PLANS INDICATING VAPOR RECOVERY

3- THE SYSTEM AND/OR LINE TEST SHALL BE CONDUCTED PRIOR TO PLACING THE SYST THE TYPE OF TEST SHALL BE PREDICATED UPON THE TYPE OF STAGE II VAPOR RECOVER- INSTALLED

FILL AND VAPOR RECOVERY IDENTIFICATION

THE OWNER OR OPERATOR MUST PERMINENTLY MARK ALL FILL PORTS TO IDENTIFY T THE TANK. THESE MARKINGS MUST BE CONSISTENT WITH THE COLOR AND SYMBOL AMERICAN PETROLEUM INSTITUTE WHICH FOLLOWS

THE COLORS TO BE USED ARE:

HIGHER UNLEADED GASOLINE ..... RED W/WHITE CR
MIDDLE UNLEADED GASOLINE ..... BLUE W/WHITE C
LOWER UNLEADED GASOLINE ..... WHITE W/BLACK
VAPOR RECOVERY ..... ORANGE

THE SYMBOLS TO BE USED ARE:

A CIRCLE FOR GASOLINE PRODUCTS AND VAPOR RECOVERY LINES,

A HEXAGON FOR OTHER DISTILLATES; AND

A BORDER MUST BE PAINTED AROUND FUEL PRODUCTS CONTAINING EXTENDERS SUCH AS ALCOHOL. THE BORDER WILL BE BLACK AROUND A WHITE SYMBOL AND WHITE AROUND ALL OTHER COLORS.

COUNT III

Violation of the Town of Oyster Bay Code of Ordinances Appendix A, Section 507, to wit; deponent observed that two trucks, one of which is owned by Anthony B. Ebron and in use for rubbish removal.; the other a straight truck, unregistered, VIN No. C70EVQ54689 a Ford 700 Series, is owned by KAO Enterprises International, Inc., loaded with rubbish and apparently abandoned, are being parked and stored in the subject premises, a use that is not permitted in an "H" Light Industry Zone and is a violation of the Ordinance.

COUNT IV

Violation of the Town of Oyster Bay Code of Ordinances, Building Code, Section 6-51, to wit; deponent observed a change of use in the subject premises in that outside storage, trailers, and containers space is being rented to itinerant tenants which is inconsistent with the last issued C. of O. and for which use, no permit was applied for, or issued by the Division of Building, as required by law.

COUNT V

Violation of the Town of Oyster Bay Code of Ordinances, Garbage, Litter and Waste, Section 11-120, to wit; deponent observed stuffed chairs, sofa, drums. litter stuffed into an abandoned truck, palettes all around the western, southern and partially on the eastern perimeter. The aforementioned condition is a violation of the Ordinance.and a health hazard to the People of the Town of Oyster Bay.

That the Code of Ordinances of the Town of Oyster Bay, as amended, was duly and legally adopted, enacted, published, and posted by the Town Board of the Town of Oyster Bay, and filed in the Office of the Town Clerk prior to said August 25, 1988,and said ordinances are still applicable;

That at all times here-in-above mentioned the defendant , 500 REALTY CORP., is the OWNER of the above mentioned premises.

_____

ALEXANDER PANKOFF

Subscribed and sworn to before me

this day of , 1988

DISTRICT COURT OF NASSAU COUNTY

RETURNABLE
December 14, 1988
FOURTH DISTRICT, HICKSVILLE PART

The People of the State of New York
against

500 REALTY CORP.
500 SHAMES DRIVE
WESTBURY, NY 11590

STATE OF NEW YORK

ss

COUNTY OF NASSAU

ALEXANDER PANKOFF, CHIEF ZONING INSPECTOR of the Town of Oyster Bay, Department of Planning and Development, Oyster Bay, New York, 11771, being duly sworn deposes and says that on the 25th day of August & the 21st day of September and the 27th day of October and the 10th day of November, 1988 at premises located at: 500 Shames Drive, Westbury, New York, in the Town of Oyster Bay, in the County of Nassau, also known as Section 11,Block B,Lot ,922, Zone H,on the Land and Tax Map in the County of Nassau, the defendant did willfully, wrongfully and unlawfully violate the provisions of the Code of Ordinances of the Town of Oyster Bay as follows:

COUNT I

Violation of the Town of Oyster Bay Code of Ordinances, Appendix A, Section 507, to wit; deponent observed that there are two steel containers, one of which is used as an office or workshop, the other for storage and both are rented. The renting of containers stored outside of the main building to conduct a business therefrom is not a permitted use in an "H" Light Industrial Zone and is a violation of the Ordinance.

COUNT II

Violation of the Town of Oyster Bay Code of Ordinances Appendix A, Section 507, to wit; deponent observed that there are two steel containers and an approximately 45 foot trailer parked and stored on the western side outside and inside of a fenced enclosure. Outside storage in trailers and containers is not a permitted use in an "H" Light Industry Zone and is a violation of the Ordinance

May 16, 1958

Town Board
Town of Oyster Bay
Oyster Bay, New York

Gentlemen:

Enclosed herewith are plans for two buildings to be constructed at the Westbury Industrial Park, located in Jericho, Town of Oyster Bay.

One of the buildings will have two tenants, as follows:

Henry J. Green Instruments Inc. who will use their premises for the manufacture of meteorological (weather) instruments and for a general office.

White-Hixon Laboratories Inc. who will use their premises to manufacture, develop, design, test and sell photographic processing equipment. In particular, these photographic processing items are generally made of sheet metal and plastic parts, the initial fabrication of which is done elsewhere. The building shall also be used as a place in which to develop, design and produce other scientific control, evaluation, and production devices; also to store completed products.

It gives me great pleasure to advise the Board that Henry J. Green is moving from Brooklyn where it has been situated for the past 50 years.

The second building is to be occupied by Marsh-Theiss Inc. whose building will be used for technical services, research and development, electronics, instrument machining, and office.

We are also enclosing an overall plan of the central area of the Park. As you can see, we have taken great pains to insure proper parking and landscaping and to maintain the high standards and aesthetic values of the community. Your cooperation in expediting the approval of these plans at your next Board meeting will be greatly appreciated so as to assure industry of your cooperation.

Very truly yours,

ABRAHAM SHAMES

NEGATIVE DECLARATION

NOTICE OF DETERMINATION OF NON-SIGNIFICANCE

RECEIVED
1982 MAY 27 PM
BUILDING DEPT.
TOWN OF OYSTER BAY

Date: May 26, 1982

Pursuant to 6 NYCRR Part 617, the rules and regulations pertaining to the implementation of the State Environmental Quality Review Act; this Commission has determined that the below described application is one which will not have a significant effect on the environment. For the purposes of Article 8 of the Environmental Conservation Law, this notice shall serve as a Negative Declaration. Information leading to the determination is on file in this office.

Applicant: WESTBURY ALLOYS CORP.
750 Shames Drive
Westbury, N. Y. 11590

Proposal: The applicant is seeking a building permit for the installation of a 2550 gallon underground tank for the storage of spent acids.

Location: Shames Drive, Westbury, County of Nassau

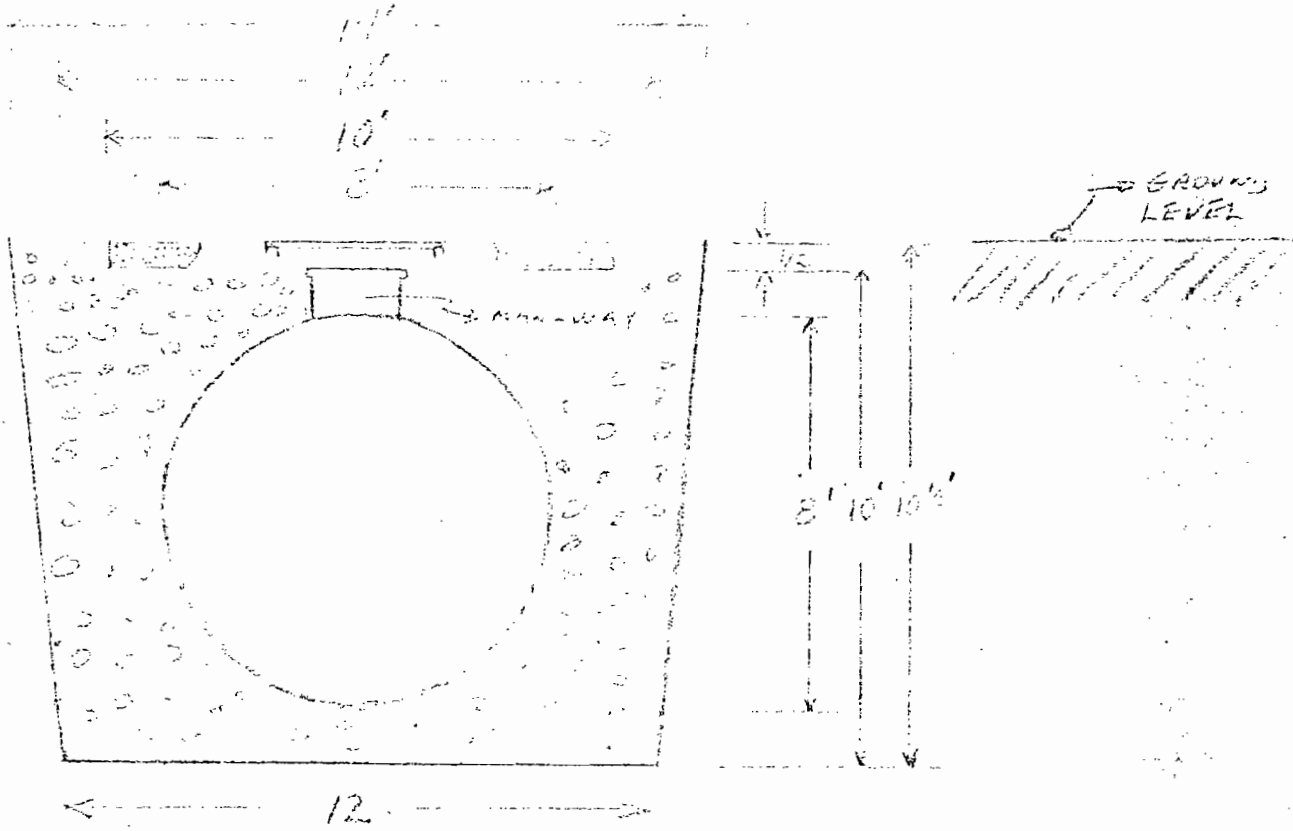

Comments: The above described determination of non-significance is issued PROVIDED the applicant shows proof of compliance with the regulations of the N. Y. State Dept. of Environmental Conservation and the Nassau County Dept. of Health to the Town's Building Division prior to the issuance of a Building Permit.

Contact: John H. Vander Veer, P.E., Public Works Department

Ms. Edwina T. Cousins
Assistant Treasurer
Sprague Goodman Electronics Inc.
1700 Shames Drive
Westbury, New York 11590

Re: Industrial Discharge Permit No. 41

Dear Ms. Cousins:

Thank you for your call in October 1994 advising that you would be moving your entire operation by the end of the year. I received your notification, dated January 11, 1995, that you have completed your relocation to Westbury, New York. Included in the relocation was the plating process with a permitted discharge to the public sewer.

Since there has been no significant change in the design or nature of your operation (or ownership), the Industrial Discharge Permit (No. 41) will be transferred to the 1700 Shames Drive site after an inspection of the facility by our department. This inspection should be completed within the next week.

A new Sewer Connection Permit, amended to reflect the approved discharge of process wastewater, will be issued for this building. Please complete the enclosed application and present it to Mr. Ralph Tancredi, Industrial Waste Control Specialist, upon his inspection visit. The fee for inspection and application processing is one hundred dollars made payable to the Nassau County Treasurer. This can be presented with the completed application.

Thank you for your concern and cooperation. If you have any questions, please call me at 516-571-7352 or Ralph Tancredi at 571-7320.

Very truly yours,

Vincent J. Alonga for
Maurice J. Osman
Chief Chemist

HONORABLE TOWN BOARD
Town Hall
Audrey Avenue
Oyster Bay, New York

Re: Building Department Report on collapsed building - Shames Drive, Westbury Industrial Park Town of Oyster Bay.

Dear Gentlemen and Madam:

On May 7, 1959, at approximately 11:15 A.M. this department received a call from the Nassau County Police Department to the affect that a building in West Industrial Park, Shames Drive, had collapsed.

In the absence of Mr. Joseph Branca, Building Department Engineer, I solicited the services of Mr. Horace McAllister, Town Engineer, his deputy, Harold Kraft, and my deputy, Mr. Edwin J. Gaynor, and proceeded to the scene with haste. Upon our arrival it was quite evident that a building under construction, for which a permit was issued, had totally collapsed This collapse took place in a east and westerly direction and collapsed completely, exactly as a deck of cards would do if placed in a vertical position. It developed after rescue operations were completed, that several men were injured and one death occurred.

Our last inspection of this construction was made on March 25, by Inspector Joseph Salvey on concrete work and footings. This work passed his inspection and I am very happy to relate that in all of the extra duress placed upon the concrete piers and footings because of this collapse, in not one single incident was there evidence of any concrete failure. Our next inspection was not due until the roof and the side walls were erected in what we call rough enclosure.

In our continued investigation many observations were made; pictures taken, measurements taken, and a general scene inspection as thorough as was possible at the time. A complete technical report on our findings will be submitted to your Honorable Board by Mr. McAllister.

The co-operation of Chief Inspector Finnell, Inspector Farrell, and all other police officials was far greater than our fondest hopes. We were allowed to sit in on preliminary hearings, listen to testimony, and ask questions of any of the witnesses that we thought were pertinent to the case. The following week we were again invited to a conference by District Attorney Manuel W. Levine for further information. In the interim period the District Attorney has secured the services of a firm of highly reputable engineers, Rose, Beaton, and Crowe located at 10 Columbus Circle, New York City, New York to represent his office in this investigation.

Later on the same day, Mr. Levine held another meeting at which he requested the presence of the Building Department Managers and the Engineers of the three (3) Townships in our County. His aim was to apprise us of the seriousness of this current disaster and the seriousness of any subsequent tragedy. He asked if we would co-operate and hold joint meetings in an attempt to devise ways and means of improving our codes to meet the modern day construction methods and demands. A full report of the engineering concern will be made to Mr. Levine at the end of this week. I presume copies will be accorded to us.

A brief, summation of the Westbury disaster was publicised by the Engineering News Record, a technical publication in which it was stated among other things that this type of tragedy could happen anywhere in the country, including the City of New York, where a building of a similar design could have been approved. The article goes further to point out the total inadquacy of most of our existing codes. A copy of this article will be attached to Mr. McAllisters' report.

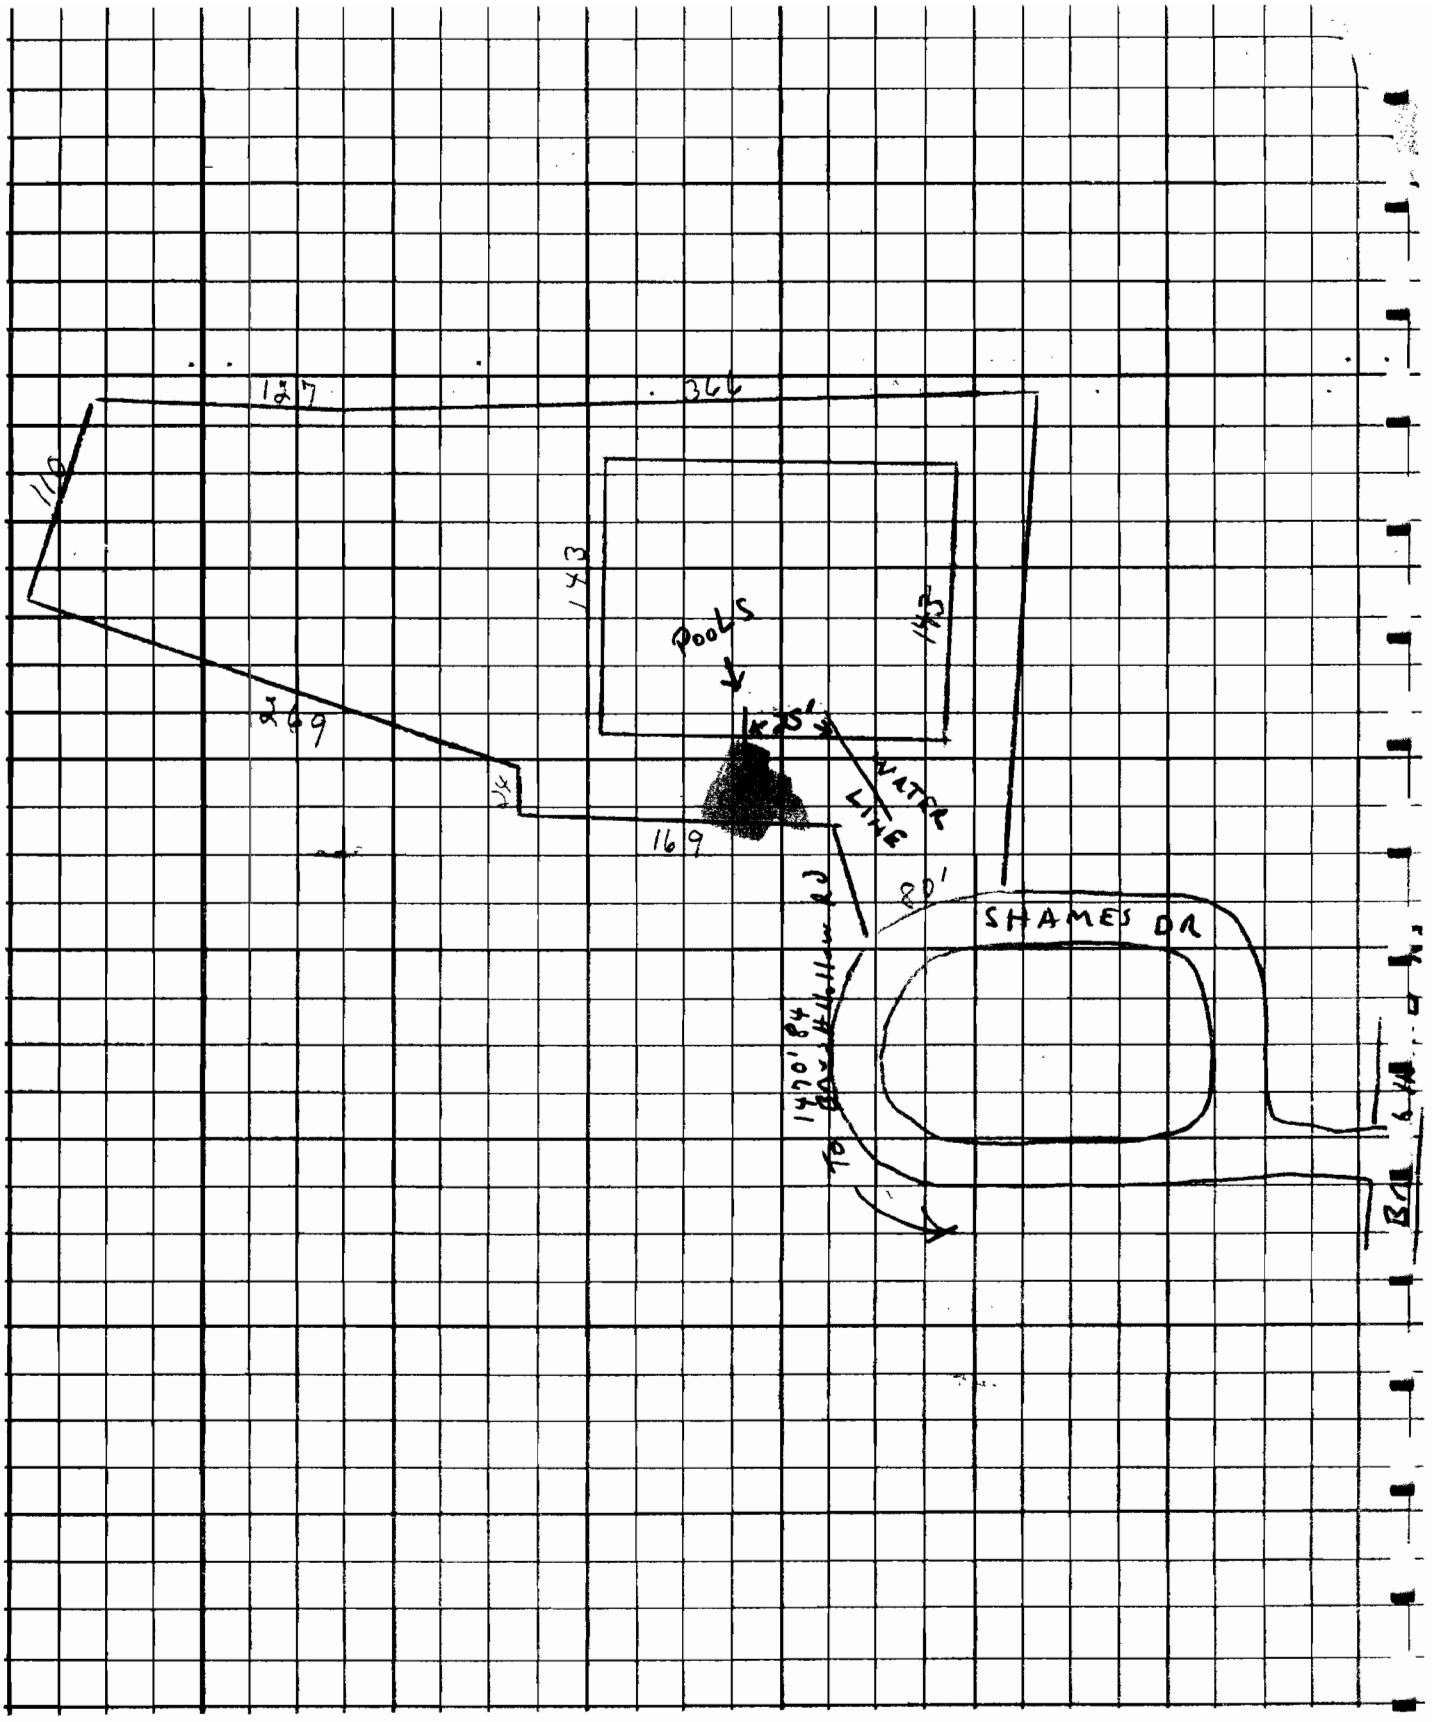

There is no doubt in the minds of all highly qualified people, regardless of their varied and personal opinions, of the reasons for this failure that corrective measures should be taken immediately to instigate what action is necessary to correct our codes.

Inasmuch as this incident happened in our Township, I feel it my duty to recommend to your Honorable Town Board that a fully qualified and licensed engineering firm be retained to provide us with a entirely new and proper code for Industrial and Commercial Buildings. Aside from providing a much needed code, I feel that we will receive tremendous credit for being progressive enough to recognise the urgent need for such a code. To proceed in this matter in co-operation with other towns, villages, and cities as suggested by the District Attorney on a voluntary basis would, in my opinion, be a waste of time and accomplish exactly nothing as did happen when this sort of a project was instigated once before. I strictly feel that the onus is presently on us to act, and failure to do so would subject us to some very serious criticism.

I know that the cost for such a professionally prepared code can be absorbed by the 1959 surplus currently building up in the Building Department. There is no need for Town funds and taxation to provide this service.

The reputation of the Town of Oyster Bay for providing an over-all Planning and Zoning Map of our territory and for providing professional talent to properly formulate our beach

Balc	Balcony
Bap	Baptist
Bbl	Barrel
Bbls	Barrels
BE	Brick enclosed elevator
Bill'ds	Billiards
Bl Sm	Blacksmith
Blk Sm	Blacksmith
Bst	Basement
C B	Cement brick or concrete block construction
C Br	Concrete brick or cement block construction
Cap'cy	Capacity
Carptr	Carpenter
CBET	Concrete enclosed elevator with traps
Chem	Chemical
Chinaw	Chinaware or porcelain
Chine	Chinese
Cl	Clad
Clo	Clothing
Co	Company
Comp	Composition construction (i.e. stucco) or compressor
Conc	Concrete
Conf'y	Confectionary (candy store)
Confec'y	Confectionary (candy store)
Constr'n	Construction
Corp'n	Corporation
D	Dwelling
DH	Double (fire) hydrant
DG	Dry goods
Drs	Doctor's office
Dwg	Dwelling
E	Open elevator
E Fl	Each Floor
El	Electric
Elec	Electrician
Eng	Engine
Ent	Entertainment
Episc'l	Episcopal
ESC	Elevator with self-closing traps
ET	Elevator with traps
Exch	Telephone exchange
Expr	Express (as used to designate a delivery service)
F	Flat (as used to designate a delivery service)
FA	Fire alarm
FE	Fire escape
F Pump	Fire pump
Fill'g Sta	Filling station, or gas station
Fl	Floor
Fr Attic	Frame constructed attic
Frat	Fraternity
Fur	Furnishings
Furn'g	Furnishings

Abbreviation	Meaning
HPFS	High pressure fire service
H'dw	Hardware
Hack	Hackney or delivery service
Hardw	Hardware
Ho	Hotel or house (as used to designate a warehouse)
Htr	Heater
Hyd	Hydrant
ICRR	Illinois Central Railroad
Imp	Implements
Ins	Insurance
Insts	Instruments
Ir Cl	Iron clad
K of C	Knights of Columbus
Lab	Laboratory
Lodg'g	Lodging
Luth	Lutheran
Luth'n	Lutheran
ME	Methodist Episcopal
Mach'y	Machinery
Mak'r	Maker
Manf'y	Manufactory or factory
Mdse	Merchandise
Mfy	Manufactory or factory
Mill'y	Millinery
Mkg	Making
Mo	Motor
NS	Not sprinklered
OU	Open under
Off	Office
PO	Post office
Paint'g	Painting
Pat Med	Patent medicines
Plumb'g	Plumbing
Print'g	Printing
QH	Quadruple (fire) hydrant
RC	Roman Catholic
R'f	Roof
R'm	Room
Rep	Repair
Rep'g	Repairing
Repos'ry	Repository
Restr't	Restaurant
Rf	Roof
Rm	Room
S	Store
SA	Spark arrestor
S Vac	Store portion of building is vacant
Sal	Saloon
Sky'ts	Skylights
Sm	Smith, as in gunsmith or blacksmith
Sm Ho	Smokehouse
Sp'k'l'rs	Sprinklers
St'ge	Storage
St'y	Story
Sta	Station
Stat'y	Stationery
TH	Triple (fire) hydrant
Tel	Telephone
Tenem'ts	Tenements
TESC	Tile enclosed elevator with self-closing traps
Tinw	Tinware
Trimm'g	Trimming
U	Upright
Up	Upright
VP	Vertical pipe
Vac	Vacant

Sanborn Map Legend

"Linking technology with tradition"®

TILE 1st / BRICK 1st / PYROBAR 1st — Fire proof construction (OR FIRE RESISTIVE CONST'N)

ADOBE — Adobe building

HEIGHT OF BUILDING IN FEET FROM GROUND TO ROOF LINE 57' — Stone building

(C.BR.) — Concrete, lime, cinder or cement brick

(C.B.) — Hollow concrete or cement block const'n

(CONC.) — Concrete or reinforced concrete const'n

(TILE) — Tile building

NUMBER OF STORIES 4 — Brick building with frame cornice

TWO STORIES 2B AND BSMT COMPOSITION ROOF — Brick building with stone front

SHINGLE ROOF X — Brick building with frame side (DIVIDED BY FRAME PARTITION)

(VEN'D) — Brick veneered building

BRICK 1ST — Brick and frame building

FRAME, BRICK LINED — Frame building, brick lined

F = FLAT S = STORE — Frame building, metal clad

D = DWELLING — Frame building

A in B = AUTO. IN BSMT — Iron building

LOFT — Tenant building occupied by various manufacturing or occupancies

(ASB.CL.) — Frame building covered with asbestos

NON COMBUSTIBLE ROOF COVERING OF METAL, SLATE, TILE OR ASBESTOS SHINGLES O — Brick building with brick or metal cornice

SKYLIGHT LIGHTING TOP STORY ONLY — Fire wall 6 inches above roof

3. SKYLIGHT LIGHTING THREE STORIES — Fire wall 12 inches above roof

W.G. WIRED GLASS SKYLIGHT — Fire wall 18 inches above roof

Fire wall 36 inches above roof

Fire wall 48 inches above roof

Figures 8,12,16 indicate thickness of wall in inches

Wall without opening and size in inches

2 3 4 5 ALL — Wall with openings on floors as designated

Opening with single iron or tin clad door

Opening with double iron or tin clad doors

Opening with standard fire doors

Openings with wired glass doors

W.T. WATER TANK

BRICK 1ST — Drive or passage way

Stable

A. — Auto. (House or private garage)

(C.B.) / (C.B. & BR.) — Solid brick with interior walls of C.B. or C.B. and brick mixed

C.B. & BR. CONST'N ∞ — Mixed construction of C.B. and brick with one wall of solid brick.

C.B. & BR. CONST'N (BR. FACED) — Mixed construction of C.B. and brick with one wall faced with 4" brick.

C.B. & BR. CONST'N — Mixed construction of C.B. and brick throughout.

6" W.PIPE — Water pipes and size in inches.

6" W.PIPE (PRIVATE) — Water pipes of private supply

2 D 0 / 416 56 — House numbers shown nearest to buildings are official or actually up on buildings.

Old house numbers shown furthest from buildings.

FP-1962 (conc.) A-1-a — A fire-resistive building built in 1962 with concrete walls and reinforced concrete frame, floors and roof.

FPX-1962 (METAL PANELS) E-2-b NONCOMB CEIL'G — A fire-resistive building built in 1962 with metal panel walls, indirectly protected steel frame, concrete floors and roof on metal lath, noncombustible ceilings.

NC-1962 (C.B.) H-2-d — A noncombustible building built in 1962 with concrete block walls; unprotected steel columns and beams; concrete floors on metal lath and steel deck roof.

BLOCK — CURB LINE — 50' — LINE

Width of street (BETWEEN BLOCK LINES, NOT CURB LINES.)

24 — Reference to adjoining page.

+ — Fire engine house, as shown on key map.

Fire pump.

(36) — Under page number refers to corresponding page of previous edition.

MANSARD ROOF

DOTS REPRESENT OPENINGS, STEMS INDICATE STORIES, COUNTING FROM LEFT TO RIGHT, LOOKING TOWARD BUILDING

Window opening in first story.

Window openings in second and third stories.

Window openings in second, fourth stories.

Windows with wired glass.

Windows with iron or tin clad shutters.

10 TO 22 — Window openings tenth to twenty-second stories

E — Open elevator.

FE — Frame enclosed elevator.

ET — Frame enclosed elevator with traps.

ESC — Frame enclosed elevator with self closing traps.

CBET — Concrete block enclosed elevator with traps.

TESC — Tile enclosed elevator with self closing traps.

BE — Brick enclosed elevator with wired glass door.

5 — Block number.

V.P. — Vertical pipe or stand pipe.

AFA — Automatic fire alarm.

IEP — Independenr electric plant.

AS — Automatic sprinklers.

ACS — Auromtc. chemical sprinklers.

AS 1ST ONLY — Auromatic sprinklers in part of building only. (NOTE UNDER SYMBOL INDICATES PROTECTED PORTION OF BUILDING)

NS — Not sprinklered.

Outside vertical pipe on fire escape.

FA — Fire alarm box.

Single hydrant.

D.H. — Double hydrant.

T.H. — Triple hydrant.

Q.H. H.P.F.S. — Quadruple hydrant of the "High Pressure Fire Service."

FA H.P.F.S. — Fire alarm box of the "High Pressure Fire Service"

20" W.Pipe (H.P.F.S.) — Water pipes of the "High Pressure Fire Service"

+ + 12" + + — Water pipes and hydrants of the "High Pressure Fire Service" as shown on key map.

IR. CH. — Iron chimney

IR. CH.S.A. — Iron chimney (WITH SPARK ARRESTOR)

Brck. chmny.

15 — Ground elevation

U.P.B. — Vertical steam boiler

G.T. — Gasoline tank

(O.U.) — Open under

Siamese fire dept. connection

Single fire dept. connection.

CODING OF STRUCTURAL UNITS FOR FIREPROOF AND NON-COMBUSTIBLE BUILDINGS

FRAMING

CODE	STRUCTURAL UNIT
A.	Reinforced Concrete Frame.
B.	Reinforced Concrete Joists, Columns, Beams, Trusses, Arches, Masonry Piers.

FLOORS

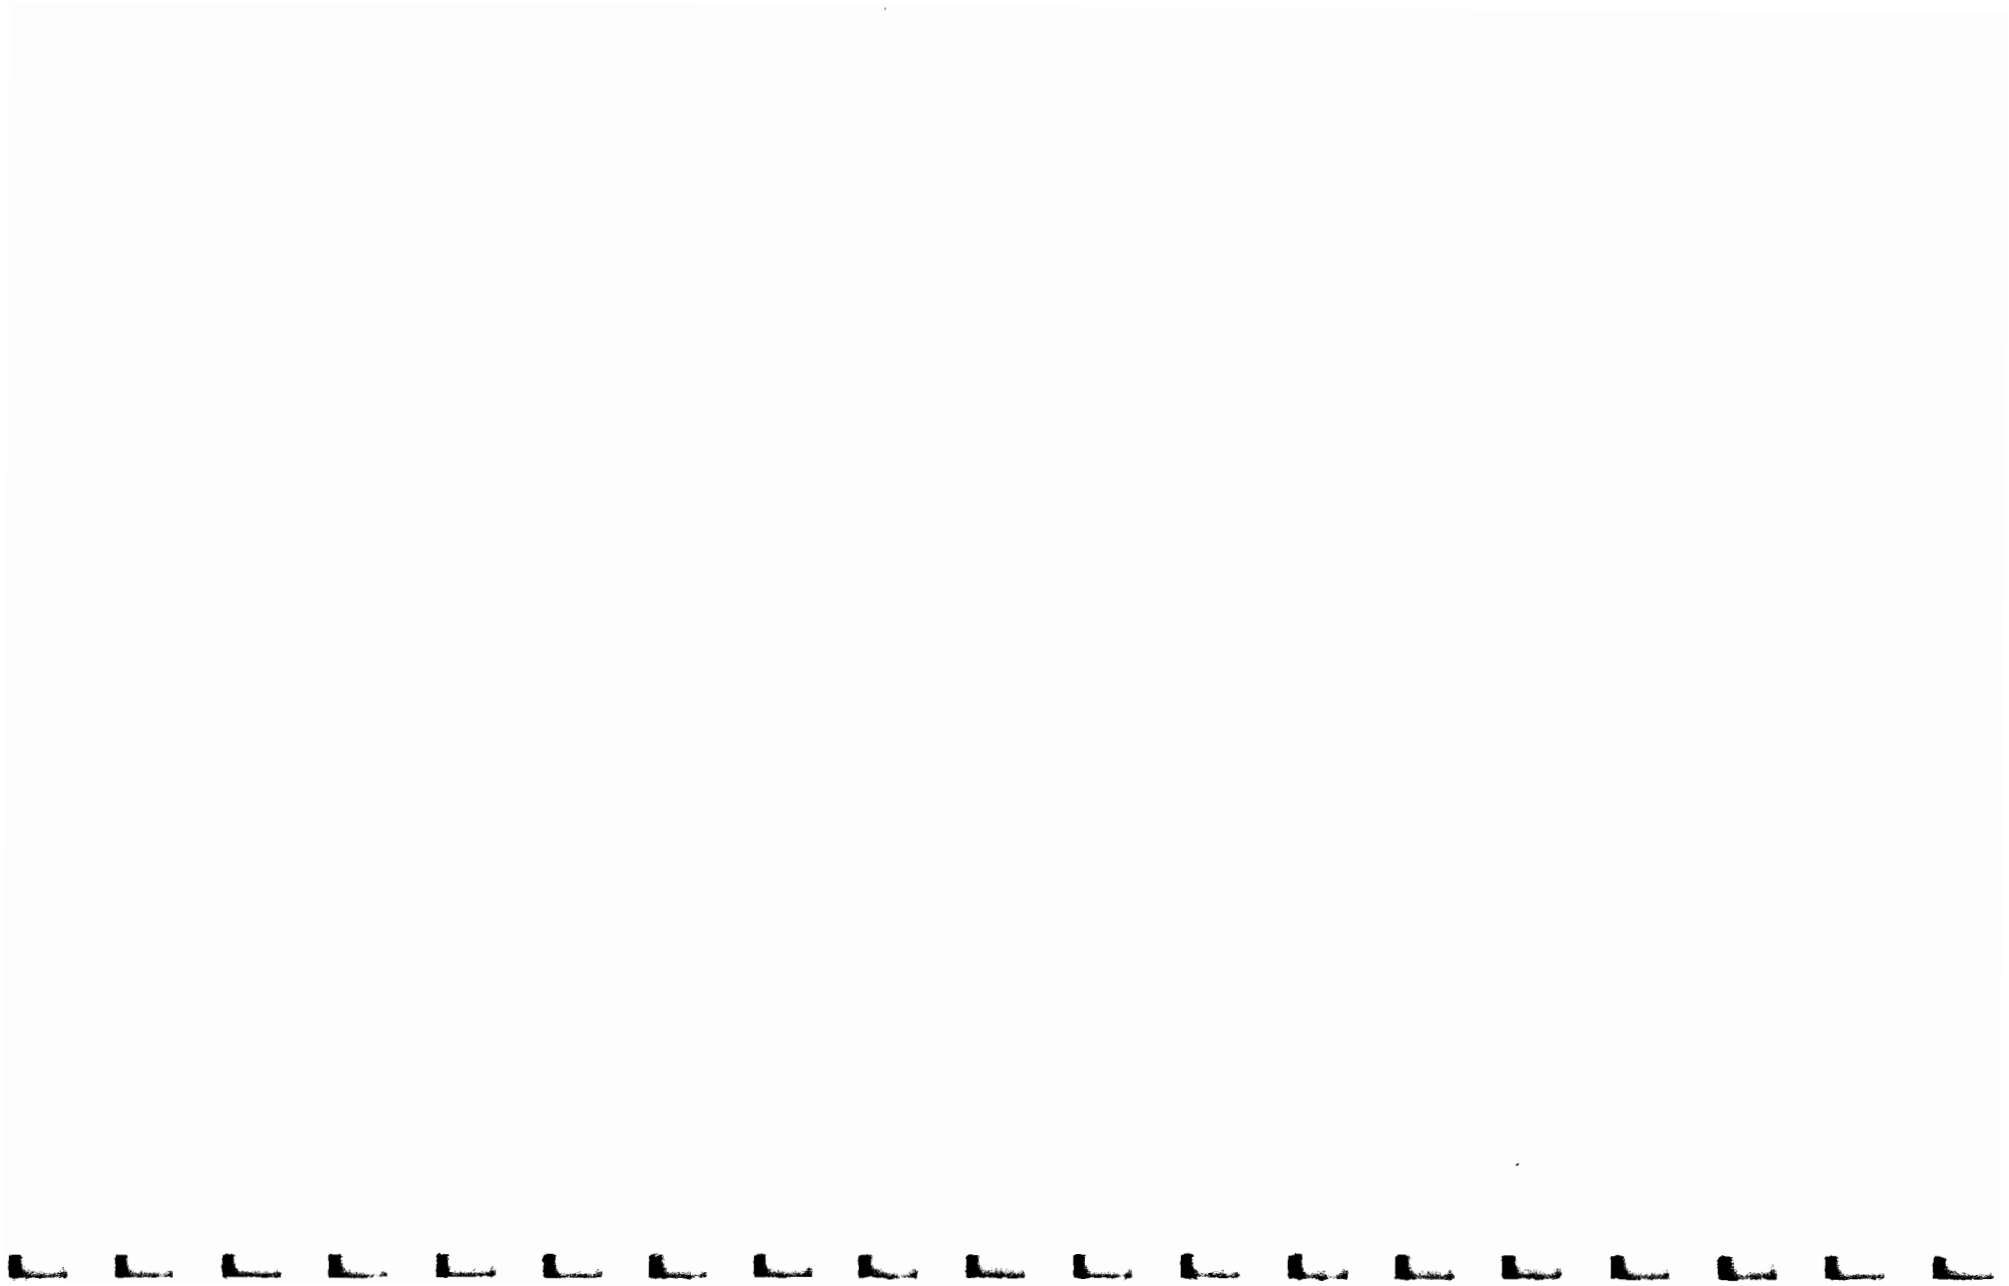

CODE	STRUCTURAL UNIT
1.	Reinforced Concrete.
	Reinforced Concrete with Masonry Units.
	Pre-cast Concrete or Gypsum Slabs or Planks.

ROOF

CODE	STRUCTURAL UNIT
a.	Reinforced Concrete.
	Reinforced Concrete with Masonry Units.
	Reinforced Gypsum Concrete. Pre-cast

EDR City Directory Abstract

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening report designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.
