Priority ranking Score Project Manager John Swartwout

Site Description

The New York Pyrotechnics Products Co. site is located in a suburban portion of Suffolk County. The site is located between Association Road and Head-of-the-Neck Road. This site is a large fireworks manufacturing plant. The surrounding properties are residential. In 1983, there was an explosion and a fire at the plant site. Large quantities of heavy metal and arsenic waste were scattered about the site. These wastes were cleaned up under a State Superfund contract in 1985. Approximately 30 to 40 cubic yards of contaminated soil and 20 drums of waste were excavated and removed from the site. A Phase I Investigation was completed in September of 1989 and the site was sampled by DEC staff in August 1990 to determine whether or not the clean-up had been sufficient. A determination was made in September 1991 that the cleanup had been sufficient and the site was reclassified to Class 5 as an intermediate step towards Registry delisting.

Additional soil and groundwater investigations were conducted in 2008 in connection with planned redevelopment of the property. This resulted in Suffolk County Department of Health Services overseeing the removal of one hot spot of soil containing elevated levels of Arsenic. Groundwater samples taken in 2008-2009 to evaluate a potential source of perchlorate contamination at the site did not identify a source or a significant groundwater plume.

Contaminants of Concern (Including Materials Disposed)	Quantity Disposed

Applicable Standards Exceeded for:

Site Environmental Assessment

The primary contaminants of concern at the site were arsenic and barium. The impacted media was soil. Prior to clean-up, barium levels were as high as 56,000 ppm (5.6%). In August of 1990, seven soil samples were taken and analyzed for EP Toxicity (metals) [a precursor to the TCLP test] and also for total metals. EP Toxicity results revealed very low concentrations of arsenic at 0.01 ppm, barium at 0.2 ppm, cadmium at 0.005 ppm, chromium at 0.01 ppm, lead at 0.05 ppm, mercury at 0.0002 ppm and selenium at 0.005 ppm. The

Site Code 152116

Site Name New York Pyrotechnics Product Co.

residual contamination levels on site were from 2.9 ppm to 20.6 ppm total arsenic and from 28.8 ppm to 115 ppm total barium. Cleanup goals for the site (as assessed in 1990) were 20 ppm for arsenic and 300 ppm for barium. The clean-up was found to be sufficient. It was determined in 1990 that this site no longer posed a significant threat. An additional arsenic hot spot (90 ppm) was found and removed in 2008.

Site Health Assessment

The site has been remediated and poses no apparent threat to public health.

Site Management Plan Approval:

Status:

Basis for Classification Change

The site was reclassified to Class 5 on October 16, 1991 based on the determination that there were no hazardous wastes at the site and the cleanup had been sufficient. In 1991 sites destined for delisting from the Registry typically were placed in the Class 5 category for one year so that they would appear in one published annual report on the Registry as a cleaned up site. They would subsequently be delisted. The new Part 375 issued in May 1992 changed this practice and thereafter the intermediate Class 5 step was eliminated for sites being delisted. This is one of a couple of sites caught up in this policy change and stuck with its interim Class 5 designation. (The other which we discovered in 2004 was the Doetsch Residence site, #558012, which has now been delisted.) This site should now be delisted since this was the intent in October 1991 and no hazardous waste remains on site. As was determined as part of the October 16, 1991 reclassification to Class 5, this site no longer poses a significant threat to public health or the environment.

APPENDIX 2-1: SSF SITE CLASSIFICATION WORKSHEET

Site Name: New York Pyrotechnics Products Co. Site ID No. 152116

City/Town: Bellport County: Suffolk

1. Has remediation been completed in accordance with a ROD including properly addressing institutional controls (ICs)?	<input checked="" type="checkbox"/> Yes (go to 7)	<input type="checkbox"/> No (go to 2)	
2. Has hazardous waste as defined in ECL §27-1301.1 been disposed at the Site?	<input type="checkbox"/> Yes (go to 3)	<input type="checkbox"/> No (stop)	<input type="checkbox"/> Unsure (go to 11)
3. Does the Site present a current or reasonably foreseeable significant threat to public health or the environment (complete Significant Threat Determination Worksheet)?	<input type="checkbox"/> Yes (go to 4)	<input type="checkbox"/> No (go to 6)	<input type="checkbox"/> Unsure (go to 11)
4. Is the significant threat causing or presenting an imminent danger of causing irreversible or irreparable damage to public health or the environment?	<input type="checkbox"/> Yes (Class 1)	<input type="checkbox"/> No (go to 5)	<input type="checkbox"/> Unsure (stop)
5. Is the Site presenting a significant but not imminent threat to public health or the environment?	<input type="checkbox"/> Yes (Class 2)	<input type="checkbox"/> No (reevaluate)	
6. Has hazardous waste been disposed but it does not present a significant threat to public health or the environment and the site is suitable for placement on the Registry?	<input type="checkbox"/> Yes (Class 3)	<input type="checkbox"/> No (go to 10)	
7. Is the site properly remediated but still requires continued active site management to maintain/achieve protectiveness?	<input type="checkbox"/> Yes (Class 4)	<input checked="" type="checkbox"/> No (go to 8)	<input type="checkbox"/> Unsure (stop)
8. Is the site properly remediated, does not require continued active site management, but is not suitable for delisting or a required IC is not yet in place?	<input type="checkbox"/> Yes (Class 5)	<input checked="" type="checkbox"/> No (go to 9)	<input type="checkbox"/> Unsure (stop)
9. Is the site properly remediated, required ICs are in place, the site does not require continued active site management, and is suitable for delisting?	<input checked="" type="checkbox"/> Yes (Class: C)	<input type="checkbox"/> No (go to 10)	<input type="checkbox"/> Unsure (stop)
10. Based upon investigation, is the degree of contamination such that the Site does not qualify to be placed on the Registry and that additional remedial work is not anticipated at this time?	<input type="checkbox"/> Yes (Class: N)	<input type="checkbox"/> No (reevaluate)	<input type="checkbox"/> Unsure (stop)
11. Does insufficient information exist to properly classify the site?	<input type="checkbox"/> Yes (Class P)	<input type="checkbox"/> No (reevaluate)	<input type="checkbox"/> Unsure (stop)

Current Classification: 5

Proposed Classification: C

Summary of Main Factors Contributing to this Determination: The site was reclassified to Class 5 on October 16, 1991 based on the determination that there were no hazardous wastes at the site and the cleanup had been sufficient. In 1991 sites destined for delisting from the Registry typically were placed in the Class 5 category for one year so that they would appear in one published annual report on the Registry as a cleaned up site. They would subsequently be delisted. The new Part 375 issued in May 1992 changed this practice and thereafter the intermediate Class 5 step was eliminated for sites being delisted. This site should now be delisted since this was the intent in October 1991 and no hazardous waste remains on site.

Albany, NY 12233-7011

RE: **Classification Package**
New York Pyrotechnics
Site #152116
Brookhaven (T), Suffolk County

Dear Ms. Lewandowski:

Staff reviewed the Classification Package for the New York Pyrotechnics site located in Brookhaven, Suffolk County. Based on that review, I understand that historic use of the site as a fireworks manufacturing plant, and a subsequent explosion and fire that destroyed the plant, contaminated site soils with metals. Site-related contaminants were not detected in groundwater samples collected on and off the site. I also understand that contaminated soil was removed from the site and post excavation soil sampling confirmed that Part 375 Unrestricted Use Soil Cleanup Objectives were met.

Based on this information, I concur with the proposal to delist this Class 5 site from the Registry. The signed decision form is enclosed.

If you have any questions, please contact me at (518) 402-7880.

Sincerely,

Steven M. Bates, Assistant Director
Bureau of Environmental Exposure Investigation

Re: DEC Site No.: 152116
Site Name: New York Pyrotechnic Products
Site Address: Association Road, Bellport, NY 11763

Dear Sir/Madam:

As mandated by Section 27-1305 of the Environmental Conservation Law, the New York State Department of Environmental Conservation (Department) must maintain a registry of all disposal sites known to contain hazardous wastes. It is this Department's policy to notify the owner of all or any part of each site or area included in the Registry of Inactive Hazardous Waste Disposal Sites as to changes in site classification.

Our records indicate that you are the owner or part-owner of the above-referenced site. Based on the information that has been gathered to date, the Department has concluded that this site has been properly remediated and that no further action is required. Therefore, this letter constitutes notification of the Department's intention to delist this site from the Registry of Inactive Hazardous Waste Disposal Sites in New York State. State laws require that the Department set a 60-day public notification period of our intention to delist a site from the Registry, and receive any public comments on the proposed deletion. At the conclusion of this period, if no new information is presented, this site will be removed from the Registry. If we receive any information which causes us to reconsider this deletion, you will be notified of this change.

If you have any further questions, please contact me at (518) 402-9553.

Sincerely,

Kelly A. Lewandowski, P.E.

PUBLIC NOTICE

State Superfund Program

Site Name: New York Pyrotechnic Products Co.

December 16, 2009

Site No. 152116 **Tax Map Nos.** 976-1-17, 23-29; and 978-1-22 thru 28

Site Location: Association Road, Bellport, New York 11763

Inactive Hazardous Waste Disposal Site Delist Notice

The New York State Department of Environmental Conservation (the Department) is responsible for the State's Superfund Program and maintains a Registry of Inactive Hazardous Waste Disposal Sites for the purposes of identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The Department has determined that the site (see map on reverse side) no longer presents a threat to public health or the environment and is proposing to delist the site from the Registry for the following reason:

Site related contaminants were not detected in groundwater samples collected on and off the site. The contaminated soil was removed from the site and post excavation soil sampling confirmed that Part 375 Unrestricted Use Soil Cleanup Objectives were met.

Public comments are being received before the decision to remove this site from the Registry is finalized. The public comment period will end January 22, 2010. If you would like to provide us with written comments, please send them to: John Swartwout, NYS Department of Env. Conservation, 625 Broadway, Albany, New York 12233-7015, jbswarto@gw.dec.state.ny.us

A summary of any comments will be assembled and made available for viewing at our Region 1 Office, SUNY @ Stony Brook, 50 Circle Road, Stony Brook, NY 11790.

If we do not receive any new or additional information during this public comment period that changes our delist proposal, we will delist the site on or after February 22, 2010.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact the Department's Project Manager listed above.

FOR MORE INFORMATION

Additional information about this site can be found using the Department's "Environmental Site Remediation Database Search" engine which is located on the internet at:

December 18, 2009

Dear Legal Notice Department Staff:

Enclosed is a copy for a Legal Notice. Please print the enclosed Legal Notice copy for one (1) day. Please print the notice as soon as possible, no later than December 25, 2009.

Send the invoice, affidavit, and two (2) copies of the original Legal Notice to:

NYS Department of Environmental Conservation
Attn: Sara Heigel
625 Broadway - 11th Floor
Albany, NY 12233-7020

Please contact Sara Heigel at (518) 402-9553 if you have any questions or need additional information. Thank you.

Sincerely,

Kelly A. Lewandowski

Public Notice

The New York State Department of Environmental Conservation has determined that site ID # 152116, known as the New York Pyrotechnic Products Co site, may be deleted from the New York State Registry of Inactive Hazardous Waste Disposal Sites. This site is located in the Bellport section of the Town of Brookhaven, within the County of Suffolk, and is located at Association Road. Comments regarding this action must be submitted no later than January 22, 2010. Information regarding the site, the proposed delisting, and how to submit comments electronically can be found at <http://www.dec.ny.gov/chemical/60063.html> or to John Swartwout, Project Manager, NYSDEC, 625 Broadway, Albany, NY 12233-7015.

Re: DEC Site #152116
New York Pyrotechnic Products
Association Road, Bellport, NY 11763

Dear Sir/Madam:

The 60-day notification period and inclusive 30-day public comment period have ended. These requirements were established for the proposed deletion of sites from the New York State Registry of Inactive Hazardous Waste Disposal Sites (the Registry).

This letter serves as your official notification that the subject site has been deleted from the Registry and that the deletion became effective on the date marked above.

If you have any questions relative to this matter or wish to review any associated documents in the repository, please contact John Swartwout, Project Manager, NYS Department of Environmental Conservation, 625 Broadway, Albany, New York 12233-7015, at (518) 402-9620.

Sincerely,

Kelly A. Lewandowski, P.E.
