RE: Safety-Kleen Amityville, Site No. 152154

Dear Mr. Fleming:

The New York State Department of Environmental Conservation has reviewed Safety-Kleen's "Phase 1 – Source Area Control Remedial Design" dated September 22, 2014. The Design is based on information collected as part of the Remedial Design Characterization and historic data. The proposed design is consistent with the conceptual design presented in the approved "Supplemental Corrective Measures Work Plan."

Upon review, the proposed Phase 1 injection program design is acceptable. Safety-Kleen may begin implementation of the work upon receipt of this correspondence.

Department staff will be providing field oversight of the portions of the injection program scheduled to begin September 29, 2014.

If you have any questions on this matter, please contact me at (518) 402-9813.

Sincerely,

Kent D. Johnson
