RE: Safety-Kleen Amityville

Dear Mr. Fleming:

The New York State Department of Environmental Conservation (the "Department") has reviewed Safety-Kleen's "Q3 2018 Groundwater Monitoring Program Report". The report provides the results of the September 2018 groundwater sampling event.

Upon review, the Department has the following comments:

The Department is encouraged by the continued decreasing trend of Mineral Spirits concentrations in site groundwater wells.

Safety-Kleen's request to eliminate the Target Cleanup Level for mineral spirits will be addressed in a separate correspondence.

If you have any questions on this matter, please contact me at (518) 402-9813.

Sincerely,

Kent D. Johnson, P.G.
