

APPENDIX R
Geophysical (Gamma) Logs for FM-24 and FM-25

ALLT

The graph displays gamma-ray data. The y-axis represents Depth in feet (0 to 15), and the x-axis represents Gamma-ray count rate in counts per second (cps) from 0 to 100. The red line shows a fluctuating but generally increasing trend in gamma-ray count rate as depth increases.

| Depth (ft) | Gamma (cps) |
