**Project Team**

## General Contractor and Subcontractors:

- Mega Contracting Group, LLC (Mega)
- Creamer Environmental, Inc. (CEI)
- McVac Environmental
- Weber Surveying (Weber)

## Engineers and Consultants:

- Roux Environmental Engineering and Geology, D.P.C. (Roux)
- GZA GeoEnvironmental Inc. of New York (GZANY)
- WSP USA (WSP)

**Remedial Action Work Summary**Work Activities Performed Onsite:

- Cleaning of frac tanks in preparation of relocation and demobilization.
- Installation of Support of Excavation (SOE).

Contractor Work Performed Onsite:

Creamer Environmental, Inc (CEI) continued cleaning and preparing the frac tank and carbon vessels currently located in the northwest corner of Site for relocation and demobilization. McVac Environmental provided a vacuum truck and assisted in cleaning the frac tank and carbon vessels. Sediment recovered from frac tanks and carbon vessels was stabilized with "Cut-n-Dry" lime kiln dust and prepped for disposal inside the tension fabric structure (TFS). Weber laid out SOE details in the proposed Gas Holder 3 excavation area and established survey benchmarks for future excavation work. CEI continued installation of steel chairs for SOE.

Exposed soil in the TFS were covered with Atmos odor suppressing foam at the end of the day. The vapor management system (VMS) associated with the TFS was operated throughout the day. Dust and odor control measures (wetting, tarping, limiting vehicle speeds, etc.) were performed as needed, to ensure there were no impacts to the neighborhood. Truck tires were cleaned before leaving the Site to ensure no material was tracked offsite and tarps were confirmed to be secure on all trucks.

Air Monitoring:

- No VOC or dust exceedances were observed from the community air monitoring program (CAMP).
- GZANY to provide a summary report of CAMP activities separately.

Erosion and Sediment Control:

- None

Sampling Conducted:

- None.

Other Items of Note:

- Construction activities were observed as part of the ongoing combined sewer overflow (CSO) project west of Nevins Street.
