**Monthly Status Update – February 2025
Wallkill Wellfield Site
City of Middletown, Orange County, New York
Liberty Project No. 240331
March 5, 2025**

Liberty Environmental (Liberty) is pleased to provide this status update for the above-referenced property located in Middletown, Orange County, New York. The following activities were completed during the month of February 2025:

- Project management and proposal preparation activities were completed associated with the disposal of the drummed investigation-derived waste currently staged at the site. Liberty was authorized to proceed with the drum disposal on March 3, 2025.
- Researched property owner contact information for offsite properties with existing and proposed monitoring wells in preparation for the mailing of access request letters.

The following activities are planned for the site. The anticipated completion dates listed below are subject to change:

- Disposal of the drummed investigation-derived waste is planned for March 2025.
- A response to EPA's comment letter, dated December 17, 2024, was prepared and submitted for review and comment. The response letter proposed several action items including the installation of additional delineation monitoring wells, groundwater sampling for natural attenuation parameters, soil remedy confirmation sampling and a plan for monitoring well maintenance. Scheduling of the action items proposed in the response letter will be scheduled following EPA's review and comment.

If you have any questions concerning the information presented above or the site in general, please do not hesitate to contact our office. We may be reached at (800) 305-6019.
