Re: **Periodic Review Report – Operable Unit 1**
Revere Smelting & Refining Site (Site No. 3-36-053), Middletown, New York

Dear Richard:

On behalf of Ecobat Resources New York, LLC (Ecobat), GHD Consulting Services Inc. (GHD) is providing this draft of the *Periodic Review Report (PRR) – Operable Unit 1 (OU-1)* in response to the letter received via electronic mail from the New York State Department of Environmental Conservation (NYSDEC) on March 24, 2025. This PRR documents the implementation of and compliance with site-specific Site Management (SM) requirements in OU-1. Ecobat is submitting this report as a draft to facilitate the review of this report, and a final copy with required signatures will be provided once comments have been received. This report will also be submitted through the NYSDEC's large file transfer system, Aspera, due to the file size of the PRR.

Please let us know if you have any questions or comments on this submittal.

Sincerely,

Darren Basich
