Site Name: 251 Walsh Road

May 2019

Site No. 336077

Tax Map No. 13-5-58.2

Site Location: 251 Walsh Avenue, New Windsor, Orange County

State Superfund Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry). The site identified above, and located on a map on the reverse side of this page, has been added to the Registry as a Class 02 site that presents a significant threat to public health and/or the environment for the following reason(s):

Previous uses at the site have resulted in contamination of soil vapor and groundwater at levels exceeding applicable standards, criteria, and guidance values. The main contaminants of concern are volatile organic compounds (VOCs) and polycyclic aromatic hydrocarbons (PAHs). Actions are needed to address the potential for exposures due to soil vapor intrusion in the on-site building and additional investigation is necessary to further define the nature and extent of on- and off-site contamination. The DEC will keep you informed throughout the investigation and cleanup of the site.

DEC will keep you informed throughout the investigation and cleanup of the site.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact DEC's Project Manager listed below.

FOR MORE SITE INFORMATION

Additional information about this site can be found using DEC's "Environmental Site Remediation Database Search" engine which is located on the internet at:
