Notice of Permit Termination

Dear Mr. Fleming:

Thank you for your Affidavits of Publication and Radio Announcement for our November 17, 2022 Notice of Groundwater Monitoring Completion and Permit Termination. The Department did not receive any comments, so no Responsiveness Summary is required. Based on staff's review and analysis of several years of monitoring data showing that groundwater meets or exceeds New York State Drinking Water Standards, the Department has decided to terminate the Part 373 Post-Closure Care Permit.

Therefore, the Department hereby terminates the above referenced Part 373 Post-Closure Care permit. You may now terminate all sampling, testing, recording, monitoring and recordkeeping required by that permit.

Safety-Kleen must attach a copy of this Notice of Permit Termination to its existing Part 373 Permit and keep them together all times. If you have any other questions, please contact me in New Paltz at john.petronella@dec.ny.gov or by phone at 845-256-3041.

Sincerely

John Petronella
Regional Permit Administrator
