Region 4
Headquarters

Dear Sir:

As mandated by Section 27-1305 of the Environmental Conservation Law (ECL), the New York State Department of Environmental Conservation (NYSDEC) must maintain a registry of all inactive disposal sites known to contain hazardous waste. The ECL also mandates that this Department notify the owner of all or any part of each site or area included in the Registry of Inactive Hazardous Waste Disposal Sites as to changes in site classification.

Our records indicate that you are the owner or part owner of the site listed below. Therefore, this letter constitutes notification of change in the classification of such site in the Registry of Inactive Hazardous Waste Disposal Sites in New York State.

DEC Site No.: 401010
Site Name: Norton Company
Site Address: Lansing Lane, Colonie, New York 12212

Classification Change from 2 to 4

The reason for the change is as follows:

- A Record of Decision (ROD) was issued in March 1991.

The Remedial construction at the site has been completed. It includes a slurry wall keyed into bedrock, a dewatering system for the area within the slurry wall and a vapor extraction system tied into a vapor incinerator.

The site is properly closed but needs continued management.

Enclosed is a copy of the New York State Department of Environmental Conservation, Division of Hazardous Waste Remediation, Inactive Hazardous Waste Disposal Site Report form as it appears in the Registry and Annual Report, and an explanation of the site classifications. The Law allows the owner and/or operator of a site listed in the Registry to petition the Commissioner of the New York State Department of Environmental Conservation for deletion of such site, modification of site classification, or modification of any information regarding such site, by submitting a written statement setting forth the grounds of the petition. Such petition may be addressed to:

Thomas C. Jorling, Commissioner
New York State Department of Environmental Conservation
