Re: Annual Certification
Siberia Area Land Use Controls
Watervliet Arsenal, Watervliet, New York
NYSDEC Site # 401034

Dear Ms. Barraza:

This letter certifies that the Land Use Control (LUCs) provisions of the Statement of Basis for the Watervliet Arsenal (WVA) Siberia Area remain in-place. Per the LUC provisions, monthly inspections are performed by the WVA public works staff. These inspections, along with annual groundwater monitoring and maintenance conducted under the approved Long Term Monitoring Plan for the WVA, have confirmed that the controls for soil and groundwater have been maintained. There has been no new construction in the Siberia Area; therefore, new controls for soil vapor intrusion have not been required.

Please contact me (518) 266-4785, or at michael.t.wright102.civ@mail.mil, if you have any questions concerning this matter.

Michael T. Wright
Environmental Engineer
