APRIL 2026

Site No. 401084 Tax Map No. 42.17_01_07

Site Location: 69 Fuller Road, Albany, NY 12205; Albany County

State Superfund Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program is New York State's superfund program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry). The site identified above, and located on a map on the reverse side of this page, has been added to the Registry as a Class 2 site that presents a significant threat to public health and/or the environment for the following reason(s):

- Past uses of the site have resulted in contamination of groundwater, soil and soil vapor. Applicable standards, criteria and guidance values are exceeded for volatile organic compounds. Additional investigations are needed to determine the nature and extent of contamination and the potential for human exposure.

DEC will keep you informed throughout the investigation and cleanup of the site.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact the DEC Project Manager listed below.

FOR MORE SITE INFORMATION

Additional information about this site can be found using DEC's "Environmental Site Remediation Database Search" engine which is located on the internet at: <https://appfactory.dec.ny.gov/DERExternalSearch/>.

Site specific documents may be found online through the DECinfo Locator at:

<https://www.dec.ny.gov/data/DecDocs/401084/>

Comments and questions are always welcome and should be directed as follows:
