

Public Notice:

Region 4 - The Department of Environmental Conservation has determined that the Registry of Inactive Hazardous Waste Disposal Sites in New York State needs to be amended to delete site number 420023, known as the Catskill Chrome Plating Company site. This site is located in the Town of Catskill, in the County of Greene, and is located at 370 Bridge Street. The reason for deletion is:

- The United States Environmental Protection Agency (USEPA) completed an emergency response action in 1996, which included the removal of drums and chrome-plating waste materials in the on-site building. The March 2002 Record of Decision called for building demolition and contaminated soil removal. The remediation of the site has been completed.

Written comments on this proposed deletion are welcome, and should be sent to:

Project Manager: Michael Mason  
New York State Department of Environmental Conservation  
Division of Environmental Remediation  
Remedial Bureau E  
625 Broadway  
Albany, NY 12233-7017

All written comments must be received by February 9, 2007. A summary of all written comments will be assembled and a summary will be available for viewing at our Region 4 Headquarters in Schenectady, NY.
