Mr. Gregory J. Handly  
NYSDEC Division of Environmental Remediation  
Route 86, PO Box 296  
Ray Brook, NY 12977-0296

Re: Philmar Electronics, NYSDEC Project #510008

Dear Mr. Handly,

Aztech Technologies, Inc. (Aztech) has prepared this letter to outline the remedial progress and provide a status update for the Philmar Electronics site (NYSDEC Project #51008). The table of the water meter readings recorded to date (**Table 1**), as well as the tabulated analytical results (**Table 2**) are attached.

The system began pumping groundwater on May 19, 2004. On October 18, 2004, five hundred and seventy pounds (570#) of Regenesis Hydrogen Release Compound (HRC) were installed in screened tubes and placed in the recirculation tank located near the former air stripper compound. However, the HRC tubes were removed in November 2008 at the direction of the NYSDEC.

Site visits were conducted on December 16, 2009, February 23, 2010, April 9, 2010, and June 16, 2010 to confirm that the remediation system was operating. On December 16, 2009, the system was running, but it is believed the water meter was malfunctioning due to an incorrect reading. The February 23, 2010 visit confirmed that the water meter was not reading the correct amount of gallons pumped. The meter was replaced on April 9, 2010. During these visits, the system was operating and an hour meter reading was taken. The June 16, 2010 visit indicated that the system was not running due to a float malfunction. The system was reset during the site visit and the float was secured to reduce the possibility of future problems. The system was running upon departure. During the June 16, 2010 visit an hour meter reading and a water meter reading were taken. A summary of the pumping rates, to date, are presented in Table 1.

On April 4, 2010, Aztech collected groundwater samples from monitoring wells MW-6, MW-7, MW-9, DGC-6S, DGC-7S, and DGC-8S. The collection trench and the discharge from the recirculation tank were also sampled on this date. The groundwater samples collected were analyzed by Adirondack Environmental Services for volatile organic compounds (VOCs) by EPA Method 624.

The results from the April 4, 2010 sampling event indicate that cis-1,2-dichloroethene was detected in monitoring well DGC-8S at a concentration of 11 parts per billion (ppb). Additionally, cis-1,2-dichloroethene was detected in the recovery trench and discharge sample at concentrations of 16 ppb, respectively. Trichloroethene was detected in monitoring well DGC-8S at a concentration of 14 ppb. Trichloroethene was also detected in the samples from the recovery trench (6.4 ppb) and the discharge (6.9 ppb). Vinyl chloride was below laboratory detection limit in all samples. Based on the groundwater analytical results, it appears that the trichloroethene in the groundwater is effectively breaking down to its daughter products cis-1,2-dichloroethene and vinyl chloride.

Aztech recommends that the semi-annual groundwater sampling events and bi-monthly (once every two months) system operation and maintenance visits continue until the concentrations of

trichloroethene and cis-1,2-dichloroethene meet the ambient drinking water standards. The next system check will be completed in August 2010, and the next groundwater sampling event will be performed in October 2010.

If you have any questions, please call me at (518) 885-5383.

Sincerely,  
**Aztech Technologies, Inc.**

Rachel Skellie  
Geologist

Aaron Yecies

RE: Philmar Electronics  
Morrisville, NY - Clinton County

Dear Greg Handly:

Adirondack Environmental Services, Inc received 8 samples on 4/12/2010 for the analyses presented in the following report.

There were no problems with the analyses and all associated QC met EPA or laboratory specifications, except if noted.

If you have any questions regarding these tests results, please feel free to call.

Sincerely,

Tara Daniels  
Laboratory Manager

ELAP#: 10709  
AIHA#: 100307

<b>Qualifiers:</b>	ND - Not Detected at the Reporting Limit	S - Spike Recovery outside accepted recovery limits
	J - Analyte detected below quantitation limits	R - RPD outside accepted recovery limits
	B - Analyte detected in the associated Method Blank	T - Tentatively Identified Compound-Estimated Conc.
	X - Value exceeds Maximum Contaminant Level	E - Value above quantitation range

o-Xylene	< 5.0	5.0		µg/L	1	4/16/2010 2:27:00 PM	

Qualifiers: ND - Not Detected at the Reporting Limit

S - Spike Recovery outside accepted recovery limits

J - Analyte detected below quantitation limits

R - RPD outside accepted recovery limits

B - Analyte detected in the associated Method Blank

T - Tentatively Identified Compound-Estimated Conc.

X - Value exceeds Maximum Contaminant Level

E - Value above quantitation range

## **TERMS, CONDITIONS & LIMITATIONS**

All service rendered by the **Adirondack Environmental Services, Inc.** are undertaken and all rates are based upon the following terms:

- (a) Neither **Adirondack Environmental Services, Inc.**, nor any of its employees, agents or sub-contractors shall be liable for any loss or damage arising out of **Adirondack Environmental Services, Inc.**'s performance or nonperformance, whether by way of negligence or breach of contract, or otherwise, in any amount greater than twice the amount billed to the customer for the work leading to the claim of the customer. Said remedy shall be the sole and exclusive remedy against **Adirondack Environmental Services, Inc.** arising out of its work.
- (b) All claims made must be in writing within forty-five (45) days after delivery of the **Adirondack Environmental Services, Inc.** report regarding said work or such claim shall be deemed or irrevocably waived.
- (c) **Adirondack Environmental Services, Inc.** reports are submitted in writing and are for our customers only. Our customers are considered to be only those entities being billed for our services. Acquisition of an **Adirondack Environmental Services, Inc.** report by other than our customer does not constitute a representation of **Adirondack Environmental Services, Inc.** as to the accuracy of the contents thereof.
- (d) In no event shall **Adirondack Environmental Services, Inc.**, its employees, agents or sub-contractors be responsible for consequential or special damages of any kind or in any amount.
- (e) No deviation from the terms set forth herein shall bind **Adirondack Environmental Services, Inc.** unless in writing and signed by a Director of **Adirondack Environmental Services, Inc.**
- (f) Results pertain only to items analyzed. Information supplied by client is assumed to be correct. This information may be used on reports and in calculations and **Adirondack Environmental Services, Inc.** is not responsible for the accuracy of this information.
- (g) Payments by credit card are subject to a 3% additional charge.
