Monthly Progress Report
November 2024

I. Activities Completed

- a. Construction Activities: No construction was completed in November 2024.
- b. Progress Meetings: No progress meetings were held in November 2024.

II. Actions Scheduled for Next Month/Spring/When Weather Permits

- a. Construction Activities: No construction is scheduled for December 2024.
- b. Monitoring Activities: The 2024Q4 groundwater monitoring event was completed on October 23-24, 2024. During the groundwater monitoring event, CHA also completed an inspection of the sub-slab depressurization system (SSDS) at 158 Saratoga Avenue and coordinated the mowing of the property with Brightview.
- c. Work Plans: See Section IV. Below.

III. Unresolved Delays and Corrective Actions

- a. Operational Issues: No operational issues were reported.

IV. Proposed Modifications to Work Plans

- a. OU-2 Work Plan: The most recent groundwater monitoring event was conducted on October 23-24, 2024. CHA is awaiting comments from the NYSDEC/NYSDOH regarding the August 20, 2024, online meeting to review remedial alternatives for OU-2 at the site but understands that the Department is awaiting the 2024Q4 results before rendering a decision. CHA is currently awaiting the completion of the data validation process but anticipates submission of the 2024Q4 monitoring report to the NYSDEC in mid-December 2024.
