MEMORANDUM

TO: Regional Solid and Hazardous Waste Engineers
FROM: Charles N. Goddard, Chief, Bureau of Hazardous Site Control *WERD*
SUBJECT: Federal Facilities *for*

DATE: March 17, 1987

Attached is a list of Federal facilities recently received from USEPA Region II. There are thirty eight (38) facilities in New York State which are believed to contain hazardous wastes. Each has a status report attached to it.

There is also a list of facilities formerly utilized by the Federal Government. The placement of hazardous wastes at these is not known at the time although site assessments are to be scheduled shortly.

The above is being provided for information purposes.

RECEIVED

MAR 20 1987
NYS DEPT. OF ENVIRONMENTAL CONSERVATION
RECEIVED BY
REGIONAL ENGINEER

Region II ERRD Federal Facilities Program

There are 73 Federal Facilities in our current inventory. We expect this number to increase to approximately 100 when the list is complete. In addition to other federal facilities of which we have no information at this time, we will also add facilities impacting or impacted by federal agencies (e.g., government owned/contractor operated - GOCOs).

25 Federal Facilities in New Jersey

<u>Agency</u>	<u>Amount</u>	<u>IRP</u>	<u>NPL</u>
Department of Defense	13	10	3
Department of Energy	5	1	2
Department of the Interior	3	3 - coop. effort	
Department of Transportation	1	0	0
General Services Administration	3	1	0

36 Federal Facilities in New York

<u>Agency</u>	<u>Amount</u>	<u>IRP</u>	<u>NPL</u>
Department of Defense	22	19	1
Department of Energy	7	7	0
Department of the Interior	6	3 - coop. effort	
Department of Agriculture	1	0	0

12 Federal Facilities in Puerto Rico

<u>Agency</u>	<u>Amount</u>	<u>IRP</u>	<u>NPL</u>
Department of Defense	10	5	0
Department of Energy	2	2	0

Note:

IRP - Installation Restoration Program for hazardous waste site cleanup (DOD) or equivalent FUSRAP program for DOE

NPL - These sites have been proposed for nomination to the NPL

coop. effort - DOI is involved in a cooperative effort with EPA to assess waste sites at some DOI facilities

All federal facilities currently in the inventory have been rated for priority status according to the information we have (see attachments). Rating criteria included both environmental hazards and public concern. Facilities with an "A" rating, or highest priority, have been assigned to project managers, and will be evaluated under the Hazard Ranking System for nomination to the NPL. Following is a breakdown by state of the priority ratings:

- A - high
- B - moderate
- C - low
- LI- lack of information - letters to facility commander will be sent
- U - information in; not yet reviewed

	<u>A</u>	<u>B</u>	<u>C</u>	<u>LI</u>	<u>U</u>
New Jersey	15	2	4	4	0
New York	3	7	4	14	8
Puerto Rico	1	0	3	8	0

The facilities have also been broken down into the action classification under which they fall. For facilities in which EPA is involved or has a working knowledge of the facility's program, we were able to complete this accurately. However, there are many facilities which we are still in the process of investigating. A breakdown by state of the status classifications follows:

- 1 - technical review of on-going advanced studies (comparable to RI/FS) and negotiation of Agreements (comparable to Orders)
- 2 - technical review of on-going Phase I studies (comparable to SI)
- 3 - information search (comparable to PA process internally, although site studies may already be in progress by federal facility)
- 4 - low ranking

	<u>1</u>	<u>2</u>	<u>3</u>	<u>4</u>
New Jersey	14	6	5	0
New York	9	14	13	0
Puerto Rico	0	2	8	2

Federal Facilities - CERCLA

Priority rating:

- A - high
- B - moderate
- C - low
- LI - lack of information - letter needed
- U - information in; not yet reviewed

Status classification:

- 1 - technical review of on-going advanced studies (comparable to RI/FS) and negotiation of Agreements (comparable to Orders)
 - 1a - NPL site
 - 1b - non-NPL site
- 2 - technical review of on-going Phase I studies (comparable to SI)
- 3 - information search (comparable to PA process internally, although site studies may already be in progress by federal facility)
- 4 - low ranking
