Inspection: _____			
Sampling: _____			
Other: _____			
Conclusions:			
Remedy Effective? <input type="checkbox"/> Yes <input type="checkbox"/> No: ? _____			
ROD Compliance? <input type="checkbox"/> Yes <input type="checkbox"/> No: ? _____			
Consent Order Compliance? <input type="checkbox"/> Yes <input type="checkbox"/> No: ? _____			
Other: _____			
Recommendations:			
<p>According to Peter Ouderkirk, the seepage into Fish Creek should be sampled. In order to de-list this site, a petition must be made by Camden Wire. The first thing we need to do is meet with the RP to discuss the status of the site, and inform them that OM&M needs to be conducted in order to de-list the site from the Registry. We will need to determine the number of wells needed, number of sampling rounds needed, and analysis requirements for samples. We need to determine which 2 lagoons were remediated and their location relative to monitoring wells so that a monitoring and closure sampling plan can be developed. We need to determine if the 2 new monitoring wells were installed and if not, decide whether or not we need to put some in, so we can conduct monitoring to determine if the site needs OM&M, or if they were installed, were they drilled to 15 feet and why? If drinking water wells are in use, then DOH should be contacted for possible sampling. We need to determine how to prevent damage to wells that could be a result from car racing on the site, i.e. we might want to install a fence around the monitoring wells. Finally, we need to get a copy of the deed restriction for our files.</p>			
ROD/Consent Order Modifications? <input type="checkbox"/> No <input type="checkbox"/> Yes (per above) Reclassify the Site? <input type="checkbox"/> No <input type="checkbox"/> Yes → Class:			
Comments: A thorough file review was conducted in Spring 2002 and a conference call was held with Peter Ouderkirk to discuss the status of the site. It seems OM&M has never been done. A memo summarizing the status and identifying actions which should be taken was written from Bill Peters to Peter in June 2002. The actions are summarized in the recommendations above.
