

ABB ENVIRONMENTAL SERVICES

2820.01

February 27, 1998

Mr. Lech Dolata
Project Manager
Bureau of Construction Services
Division of Hazardous Waste Remediation
New York State Department of Environmental Conservation
50 Wolf Road, Room 224
Albany, New York 12233-7010

Subject: Completion Certification
North Lawrence Oil Dump Site
Site No. 6-45-013

This is to certify that remedial construction of the North Lawrence Oil Dump Site was completed in substantial conformance with the Contract Documents with the exceptions and revisions as described in the Remediation Report.

Certified By: William J. Weber

Phone: (518) 457-8807 FAX: (518) 457-8989

A. Sylvester

John P. Cahill
Commissioner

AUG 13 1998

This letter was sent to the people on the attached list.

Dear :

The Department of Environmental Conservation (DEC) maintains a Registry of sites where hazardous waste disposal has occurred. Property located at McAusien Road in the Town of Lawrence and County of St. Lawrence and designated as Tax Map Numbers 36.003-4-11 and 36.003-4-10 was recently reclassified as a Class 4 in the Registry. The name and site I.D. number of this property as listed in the Registry is North Lawrence Oil Dump Site, Site #645013.

The Classification Code 4 means that the site is properly closed – requires continued management.

We are sending this letter to you and others who own property near the site listed above, as well as the county and town clerks. We are notifying you about these activities at this site because we believe it is important to keep you informed.

If you currently are renting or leasing your property to someone else, please share this information with them. If you no longer own the property to which this letter was sent, please provide this information to the new owner and provide this office with the name and address of the new owner so that we can correct our records.

The reason for this recent classification decision is as follows:

- The selected remedy included excavation, solidification, and stabilization of sludge present in the lagoon and the wetland, construction of an on-site disposal cell and placement and compaction of the solidified material in the on-site disposal cell. Site restoration included placement of clean soil in the excavated areas of the lagoon and the wetland and revegetation. Since the remedial work performed at the site is consistent with 1993 Record of Decision, the site criteria for class 4 sites has been achieved.

North Lawrence Oil Dump Site
Site #645013

If you would like additional information about this site or the inactive hazardous waste site remedial program, call:

DEC's Inactive Hazardous Waste Site Toll-Free Information Number 1-800-342-9296 or
New York State Health Department's Health Liaison Program (HeLP) 1-800-458-1158, ext. 6402.

Sincerely,

Robert L. Marino

JUL 29 1998

Steven Santini
P.O. Box 10146
Route 130
Trenton, New Jersey 08620

Dear Mr. Santini:

As mandated by Section 27-1305 of the Environmental Conservation Law (ECL), the New York State Department of Environmental Conservation (NYSDEC) must maintain a Registry of all inactive disposal sites suspected or known to contain hazardous waste. The ECL also mandates that this Department notify the owner of all or any part of each site or area included in the Registry of Inactive Hazardous Waste Disposal Sites as to changes in site classification.

Our records indicate that you are the owner or part owner of the site listed below. Therefore, this letter constitutes notification of change in the classification of such site in the Registry of Inactive Hazardous Waste Disposal Sites in New York State.

DEC Site No.: 645013
Site Name: North Lawrence Oil Dump
Site Address: Cemetery Road, Lawrence, NY 12949

Classification change from 2 to 4

The reason for the change is as follows:

- The selected remedy included excavation, solidification, and stabilization of sludge present in the lagoon and the wetland, construction of an on-site disposal cell and placement and compaction of the solidified material in the on-site disposal cell. Site restoration included placement of clean soil in the excavated areas of the lagoon and the wetland and revegetation. Since the remedial work performed at the site is consistent with 1993 Record of Decision, the site criteria for class 4 sites has been achieved.

Enclosed is a copy of the New York State Department of Environmental Conservation, Division of Environmental Remediation, Inactive Hazardous Waste Disposal Site Report form as it appears in the Registry and Annual Report, and an explanation of the site classifications. The Law allows the owner and/or operator of a site listed in the Registry to petition the Commissioner of the New York State Department of Environmental Conservation for deletion of such site, modification of site classification, or modification of any information regarding such site, by submitting a written statement setting forth the grounds of the petition. Such petition may be addressed to:

John P. Cahill
Commissioner
New York State Department of Environmental Conservation
50 Wolf Road
Albany, New York 12233-0001

For additional information, please contact me at (518) 457-0747.

Sincerely,

Robert L. Marino

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION
 Division of Hazardous Waste Remediation
Inactive Hazardous Waste Disposal Report

Site Name: North Lawrence Oil Dump		Site Code: 645013	
Class Code: 4	Region: 6	County: St. Lawrence	EPA Id: NYD981560907
Address: Mc Ausien Rd.		City: Lawrence	Zip: 12949
Latitude: 44 48' 0"	Longitude: 74 38' 39"		
Site Type: Lagoon	Estimated Size: 2	Acres	

Site Owner / Operator Information:	
Current Owner(s) Name: *** Multiple Site Owners ***	
Current Owner(s) Address:	
Owner(s) during disposal: unknown	
Operator(s) during disposal:	
Stated Operator(s) Address:	
Hazardous Waste Disposal Period: From 1960s	To unknown

Site Description:

Flat topography: Sparsely populated, rural area
Nearest water body: Regulated wetland area adjacent to the southern border which drains to a tributary of Redwater Brook
Nearest water supply: Private well less than one mile away

This area was used for the disposal of waste oils and sludges in the 1960s. The disposal area is adjacent to a wetland. Information provided by local residents indicated that this site was operated in conjunction with the York Oil dump in Moira, just over the Franklin County line (Site ID No. 517002). A State funded Remedial Investigation/Feasibility Study (RI/FS) was completed in the spring of 1993. A Record of Decision (ROD) was signed on March 29, 1993. The ROD called for the on-site stabilization and solidification (s & s) of the contaminated soils which are to be excavated from the lagoon, and the PCB contaminated sediments from the wetland. A work assignment to conduct pilot testing of the s & s of the contaminated soils was issued in February of 1994. The pilot testing of the s & s process was completed in December of 1994. Design of the selected remedy was completed in January of 1996, and all remedial work was completed by October 22, 1997.

Confirmed Hazardous Waste Disposal:

PCBs and heavy metals from waste oil

Quantity:

unknown

Analytical Data Available for:	Air	Groundwater	Surface Water	Soil	Sediment
Applicable Standards Exceeded in:	Groundwater	Drinking Water	Surface Water		
Geotechnical Information:			Depth to		
Soil/Rock Type: Variable glacial deposits			Groundwater: Approximately 1-3 feet		

Legal Action: Type: State	Status:
Remedial Action: Complete	Nature of action: RD-RA

Assessment of Environmental Problems:

Site remediation has been completed, and a groundwater monitoring program is now in place.

Assessment of Health Problems:

Groundwater contamination is limited to the lagoon and immediately downgradient areas. Remediation is complete and there are no ongoing exposures. The site is remote and there is no evidence of public use.

Re: Reclassification Package
North Lawrence Oil Dump
Lawrence (T), St. Lawrence County
Site # 645013

Dear Mr. Barcomb:

My staff reviewed the Site Investigation Information for the North Lawrence Oil Dump. The current proposal is to change the classification from a class 2 to a class 4. The remediation was completed in September of 1997 in accordance with the 1993 Record of Decision. Class 4 is the appropriate classification for this site, and I concur with the proposal.

Sincerely,

G. Anders Carlson, Ph.D.
Director
Bureau of Environmental Exposure
Investigation
