Conclusions:
 Remedy Effective? Yes No:

ROD Compliance? Yes No: See recommendations. Biomonitoring was supposed to be done November 2000.

Consent Order Compliance? Yes No: Is there one?

Other:

Recommendations: Develop monitoring program to evaluate potential long and short term impacts on biota from lead levels remaining in the wetland as soon as possible, to establish baseline (see page 20 of the ROD). A work assignment will be prepared and DFWMR will be consulted for lab referrals and data review. Annual GW monitoring (5 wells) to be conducted in August every year until 2027.

ROD/Consent Order Modifications? No Yes (per above) Reclassify the Site? No Yes -> Class:

Comments: As a result of an inspection of the wetland vegetation in 8/99, by Richard Koeppicus of DFWMR, no further monitoring of wetland vegetation is needed. All contaminants in groundwater samples collected 8/99 were undetected.
