Thomas C. Jorling
Commissioner

DEC 22 1993

Mr. Raymond Standish
Broome County Division of Solid Waste
Government Plaza
PO Box 1766
Binghamton, New York 13902

Dear Mr. Standish

RE: Colesville Landfill - Site No. 704010
Revised EQBA Title 3 Labor Rates

DEC's cost eligibility guidelines for municipal consultant contracts have included maximum salary schedules that are eligible under the EQBA Title 3 grant program. These schedules have been revised based upon a review of contracts negotiated between DEC and its consultants working on hazardous waste sites. These new schedules are effective for all work performed by consultants for eligible activities performed on or after November 1, 1993.

We also amended the average salary schedules to be used when estimating work plans for Title 3 work. These average salary schedules are also effective as of November 1, 1993.

Please note that only increased labor maximums have been incorporated into the new guidelines. No payments or grants will be decreased by the new cost guidelines.

If your consultant is also a standby contractor (or team member) for DEC under the Hazardous Waste Remediation Program, the rates included in the standby contract will be used by DEC as the maximum and average salary rates on the Title 3 program.

Mr. Raymond Standish

Page 2

The maximum labor rates included in these tables and (in the standby contacts if applicable) are for determining eligible costs in the Title 3 grant program. The municipality is free to negotiate different rates with its consultant.

Enclosed are copies of these new rates for your use:

Sincerely,

Brian H. Davidson
