Comments: Total leachate collected in 2000 was 28,000 Gal. It was sampled by then sent to the Binghamton - Johnson City Sewage Treatment Plant. Leachate samples were collected by the B.J.C. STP as part of their pretreatment program. No leachate seeps observed during my inspection. The sod cover appears to well maintained. No erosion noted. Fences and gates in tact and locked. Future leachate sampling and disposal to be at 6 month intervals. Town of Conklin Water Superintendent, Dennis Shimmer 607- 775-4114
