Recommendations: <u>Continue to monitor wells and collect & treat leachate. Continue to maintain landfill cap.</u>			

ROD/Consent Order Modifications? <input type="checkbox"/> No <input type="checkbox"/> Yes (per above) Reclassify the Site? <input type="checkbox"/> No <input type="checkbox"/> Yes → Class: _____			
Comments: Total leachate collected in 2000 was 28,000 Gal. It was sampled by then sent to the Binghamton - Johnson City Sewage Treatment Plant. Leachate samples were collected by the B.J.C. STP as part of their pretreatment program. No leachate seeps observed during my inspection. The sod cover appears to well maintained. No erosion noted. Fences and gates in tact and locked. Future leachate sampling and disposal to be at 6 month intervals. Town of Conklin Water Superintendent, Dennis Shimmer 607- 775-4114

Subject: Re: Conklin Dumps

704013

I plan on visiting Mr. Shimer in the near future to perform an annual inspection. They are sampling the monitoring wells every quarter. I have suggested to him that it might be time for the town to ask for a lesser frequency.

>>> John Strang 08/15/00 11:10AM >>>

John, I just received a telephone call from Dennis Shimer of the Town of Conklin. There is a possible tenant looking to move into the Broome County Corporate Park which is located upgradient from the Dump. They asked about the Dump.

Mr. Shimer got a request from the Town Supervisor to ask the DEC for any correspondence we have that says how well the Dump is performing. I have three annual review reports (March 1997, March 1998 and June 1999 [yours]) and all three reports conclude that the Remedy is effective. I also have the USEPA five-year Review Report that was done in December 1997. I am faxing a copy of these reports to Mr. Shimer.

If you have a more current completed Review Report for the Site, I would fax it to him - Fax number (607) 775-1434. Thanks. John Strang
