Wind Direction		

Description of work performed by contr. this report period:

- Contractor worked excavating soils along the north side of Court Street, from the centerline to the sidewalk, in front of # 416. A storm sewer, and a clay tile pipe and two wooden ducts containing tar were removed, along with associated soils. Some tarry soils were found. Excavation to a depth of approximately seven-and-one-half feet below ground surface. Soils were loaded directly into trucks, which were lined with plastic, and draped with plastic sheeting to protect sides of truck from spillage. Road surface under and around truck was also covered with plastic. No tar was visible at bottom of excavation. Eighteen linear feet of sanitary sewer line was replaced. Some material was pushed to the eastern end of the excavation and left for tomorrow, as there was inadequate capacity in the trucks.
