Region 8: dec.sm.e-regbspregion8@dec.ny.gov
Region 9: dec.sm.e-regbspregion9@dec.ny.gov

*Please note that applicants within Region 2 (i.e., New York City) must instead contact the central office in Albany if their application includes a fee (i.e., renewal, new facility, or transfer of ownership).

Tank Owner(s) (1 of 1)

Tank Owner: Oxbo International Corporation

By default, the property (facility) owner is the tank owner for all tanks. However, if this facility has additional tank owners, after completing the owner information below, please go to the TANKS section and assign which tank owner owns each tank. You will need to select "Tank repair/modification" for any tank you wish to assign a different tank owner to.

Tank Owner Name (legal entity)
Oxbo International Corporation

Tank Owner

Phone Type	Number	Extension
Business	(585) 548-5100	

Email

J.metz@oxbo.com

Tank Owner's Address

7101 South Lake Road

Bergen, NY 14416

Contacts

Facility Operator

Please enter the facility operator information.

Would you like to modify the Facility Operator information?
No

Operator Information

Tanks (1 of 7)

Tank Number: 001

Modification Type
No change needed

Warning: If "No change needed" is selected, information for this tank will not be updated.

Name of Tank
001

Tank storage capacity (gallons)
1360

Is this tank aboveground or underground?
Aboveground - in contact with impervious barrier

Type of petroleum stored

hydraulic oil

Tank installation date
03/10/2026

Tank status
In Service

Tank design/construction material
Steel/Carbon Steel/Iron

Tanks (2 of 7)

Tank Number: 002

Modification Type
No change needed

> **Warning:** If "No change needed" is selected, information for this tank will not be updated.

Name of Tank
002

Tank storage capacity (gallons)
220

Is this tank aboveground or underground?
Aboveground - in contact with impervious barrier

Type of petroleum stored
diesel

Tank installation date
03/13/2026

Tank status
In Service

Tank design/construction material
Steel/Carbon Steel/Iron

Tanks (3 of 7)

Tank Number: 003

Modification Type
No change needed

> **Warning:** If "No change needed" is selected, information for this tank will not be updated.

Name of Tank
003

Tank storage capacity (gallons)
220

Is this tank aboveground or underground?
Aboveground - in contact with impervious barrier

Type of petroleum stored
diesel

Tank installation date
03/13/2026

Tank status
In Service

Tank design/construction material
Steel/Carbon Steel/Iron

Tanks (4 of 7)

Tank Number: 004

Modification Type
No change needed

> **Warning:** If "No change needed" is selected, information for this tank will not be updated.

Name of Tank
004

Tank storage capacity (gallons)
220

Is this tank aboveground or underground?
Aboveground - in contact with impervious barrier

Type of petroleum stored
diesel

Tank installation date
03/13/2026

Tank status
In Service

Tank design/construction material
Steel/Carbon Steel/Iron

Tanks (5 of 7)

Tank Number: 005

Modification Type
No change needed

> **Warning:** If "No change needed" is selected, information for this tank will not be updated.

Name of Tank
005

Tank storage capacity (gallons)
220

Is this tank aboveground or underground?
Aboveground - in contact with impervious barrier

Type of petroleum stored
diesel

Tank installation date
03/13/2026

Tank status
In Service

Tank design/construction material
Steel/Carbon Steel/Iron

Tanks (6 of 7)

Tank Number: 006

Name of Tank

006

A unique tank number is required for each tank. Enter the number of the tank, using the tank numbering system at the facility. If none exists, establish one (for example, 001, 002, etc.). Duplicate tank numbers at the same facility or “000" are not acceptable. For replacement tanks, the newly installed tank must have a different number than the tank it is replacing.

For compartmented tanks, treat each compartment as a separate tank and add each compartment to the registration as if they were an independent tank. Also, compartmented tank names should be grouped together with letter suffixes. For example, if you have a tank with 3 individual compartments, the tanks should be named 1A, 1B, and 1C.

Is this tank aboveground or underground?
Aboveground - in contact with impervious barrier

Type of petroleum stored
Diesel (E-Gen)

Tank installation date
08/31/2026

Tank status
In Service

Tank storage capacity (gallons)
760

Tank design/construction material
Galvanized Steel Alloy

Tank internal corrosion protection
None

Tank external corrosion protection
Painted/Asphalt Coating

Tank secondary containment
Double-Walled (AG only)

Tank leak detection
In-Tank System (ATG)

Tank overfill prevention
Product Level Gauge (A/G)

Tank spill prevention
None

If this tank has dispenser(s), do they have under dispenser containment?
Tank does not have dispenser(s)

Pumping/dispensing method

None

Does this tank have piping?
No

Is this tank owned by the property owner?
No

Please select the Tank Owner for this tank
Oxbo International Corporation

Tanks (7 of 7)

Tank Number: 007

Name of Tank
007
