RE: Triple Cities Metal Finishing, Site No. 808045  
Approval of Site Characterization Report (Revised June 2014)

Dear Mr. Sundquist:

The New York State Department of Environmental Conservation (Department) has completed its review of the Site Characterization Report (Revised June 2014) for the Triple Cities Metal Finishing site located in the Town of Chemung, Chemung County, New York. The Department approves the report contingent on the associated data being uploaded to EQUS according to the Department's guidelines, which can be found online at <http://www.dec.ny.gov/chemical/62440.html>. Please confirm when this has been completed (an e-mail to me is sufficient).

Based on the Department's review of the Site Characterization Report (Revised June 2014), additional site characterization is warranted. Any additional site characterization activities and results will be presented in an addendum to the report.

Please contact me at (518) 402-9814 with any questions.

Sincerely,

Josh Haugh  
Project Manager  
Remedial Section C, Remedial Bureau E  
Division of Environmental Remediation
