Subject: 2021 Annual Site Inspection Report  
RG&E Pavilion Former MGP Site  
6903 Ellicott Street Road  
Town of Pavilion, Genesee County, New York 14525  
NYSDEC Site No. 819024

Dear Mr. Starr:

On behalf of the Rochester Gas & Electric Corporation (RG&E), NEU-VELLE LLC (NEU-VELLE) has completed the second post-remediation annual Site Inspection of the RG&E Pavilion Former Manufactured Gas Plant (MGP) site [New York State Department of Environmental Conservation (NYSDEC) Site No. 819024], located at 6903 Ellicott Street Road in the Town of Pavilion, Genesee County, New York (referred to herein as the "Site"). A Site Management Plan (SMP) for the Site has been completed and approved by NYSDEC and is currently pending final signatures of remedial parties.

NEU-VELLE performed a visual inspection of the Site, including an evaluation of the surface cover system for evidence of disturbance, erosion or removal of cover materials, settlement, or other conditions that could potentially result in exposure to subsurface MGP residuals. Photographs were collected during this September 20, 2021 Site Inspection. The existing cover materials at the Site were observed to be in good condition, and there were no noticeable signs of significant deterioration of the surface cover. Additionally, the existing groundwater monitoring well network, consisting five (5) wells finished with "stick-up" protective steel casings, was found to be in good condition. Documentation of NEU-VELLE's inspection is provided as **Attachment A** of this letter report. Please feel free to contact me at (585) 478-3167 with any questions or concerns.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Logan Reid'.

Has ownership of the property changed since the last inspection? Yes / ☒ No

Are Institutional Controls/Engineering Controls (IC/ECs) in place and effective? ☒ Yes / No

If not, explain why.

Are there any changes to the Site use that would affect the SMP or IC/ECs? Yes / ☒ No

Is the Site used for vegetable gardens or agricultural purposes? Yes / ☒ No

Is native soil, the geotextile fabric demarcation layer, or other signs of MGP impact (sheens, staining, tar-like material) visible?

Yes / ☒ No

---

---

Is the site cover intact (i.e., no visible sign of excavations, erosion, damage)?

☒ Yes / No

---

---

Is groundwater used as a potable water source?

Yes / ☒ No

---

---

Are there any site changes (either surface or subsurface) since the last inspection event?

Yes / ☒ No

---

---

---

Photographs taken?

☒ Yes / No

See Photolog

---

Are there any fencing changes since the last inspection event?

Yes / ☒ No
