Lynn/Kevin,

Thank you very much for providing this response and for working through the review of the Project with us. We appreciate your time. We'll follow-up as needed with finalized documentation as it becomes available.

Regards and have a great weekend,  
Tom

---

Good Morning,

The Department's Division of Materials Management (DMM) has reviewed the Change of Use Notification (including Attachment A and its Appendices) submitted by Xerox and Montante up to and including February 25, 2026 for the Webster Solar Garden Array (as attached herein) and have confirmed the project will not conflict with any Corrective Action activities occurring on site as required by the Part 373 Permit and would be required under any Order issued in lieu of the Permit. We have also confirmed that all the documents are in compliance with the DMM-4 guidance policy for Solar Developments on

Closed Landfills. Based on this information, we currently have no issues with this project. Our understanding is the project will now move forward for Town Board approval and construction planning. DMM requires that the Final Civil and Electrical Sets, Final Snow and Wind Load Calculations, and any other project revisions be submitted for our approval prior to the start of construction. DMM reserves the right to rescind its decision if future submittals or information becomes available indicating the site is not suitable for the safety and health of the public and the environment.

Please let me or Kevin know if you have any questions.

Sincerely,

*Lynn M. Winterberger*

*ATTENTION: This email came from an external source. Do not open attachments or click on links from unknown senders or unexpected emails.*

Good afternoon Kevin,

We have uploaded the revised final documents related to the Xerox Montante Change in Use, including the civil plans, geotechnical and cover-assessment reports, O&M plan, contingency plan memo, and narrative. In addition, we have provided a consolidated copy of all documentation to date including the documents previously agreed to be considered final. Please let us know if you experience any difficulty accessing the documents.

We have the call on the calendar for tomorrow morning and if that time still works for you and/or Lynn we can confirm status and follow up regarding the conditional approval anticipated this week.

Thank you,  
Tom
