Re: DEC Site No.: 828075  
Site Name: Burroughs-UNISYS Site  
Site Address: 1225 Ridgeway Avenue, Rochester, NY 14615

Dear Mr. Rapp:

As mandated by Section 27-1305 of the Environmental Conservation Law, the New York State Department of Environmental Conservation (NYSDEC) must maintain a registry of all disposal sites known to contain hazardous wastes. It is this Department's policy to notify the owner of all or any part of each site or area included in the Registry of Inactive Hazardous Waste Disposal Sites as to changes in site classification.

Our records indicate that you are the owner or part-owner of the above-referenced site. Based on the information that has been gathered to date, the NYSDEC has concluded that this site has been properly remediated and that no further action is required. Therefore, this letter constitutes notification of DEC's intention to delist this site from the Registry of Inactive Hazardous Waste Disposal Sites in New York State. State laws require that DEC set a 60-day public notification period of our intention to delist a site from the Registry, and receive any public comments on the proposed deletion. At the conclusion of this period, if no new information is presented, this site will be removed from the Registry. If we receive any information which causes us to reconsider this deletion, you will be notified of this change.

If you have any further questions, please contact me at (518) 402-9553.

Sincerely,

***Kelly A. Lewandowski***

Public Notice:

Region 8 - The Department of Environmental Conservation has determined that the Registry of Inactive Hazardous Waste Disposal Sites in New York State needs to be amended to delete site number 828075, known as the Burroughs-UNISYS Site. This site is located in the City of Rochester, in the County of Monroe, and is located at 1225 Ridgeway Avenue. The reason for deletion is:

- The Interim Remedial Measures and the Remedy for this site which included the excavation and removal of underground storage tanks and the installation of a groundwater soil vapor extraction (GW/SVS) system which operated from 1990 to March 1997 have been completed. Based on the results of groundwater monitoring and soil sampling conducted after the GW/SVS was shut down, it has been determined that the site has been successfully remediated. The site will be removed from the Registry of Inactive Hazardous Waste Sites in New York State.

Written comments on this proposed deletion are welcome, and should be sent to:

Project Manager: Todd Caffoe  
New York State Department of Environmental Conservation  
Region 8 Headquarters  
6274 E. Avon Lima Road  
Avon, NY 14414

All written comments must be received by February 19, 2005. A summary of all written comments will be assembled and a summary will be available for viewing at our Region 8 Headquarters in Avon, NY.
