Site Name: Luster-Coate

August 2021

Site No. 828113 Tax Map No. 143.10-1-37

Site Location: 32 East Buffalo Street, Churchville, NY 14428

State Superfund Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry).

The site identified above, and located on a map on the reverse side of this page, has been added to the Registry as a Class 2 site that presents a significant threat to public health and/or the environment for the following reason(s):

- The site was being addressed under the Brownfield Cleanup Program (BCP) until it was terminated by the Applicant in May 2021.
- Investigation results to date detected polychlorinated biphenyls (PCBs) in on-site soil and in off-site sediment.
- People who enter the site may contact contaminants in the soil by walking on it, digging or otherwise disturbing the soil.
- Additional actions are needed to define the nature and extent of contamination at the site and to evaluate and address the potential for human exposures.

People are not drinking the contaminated groundwater because the area is served by a public water supply that is not affected by this contamination. Because the site is vacant, the inhalation of site-related contaminants from soil vapor intrusion does not represent a current concern.

DEC will keep you informed throughout the investigation and cleanup of the site.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact DEC's Project Manager listed below.

FOR MORE SITE INFORMATION

Additional information about this site can be found using DEC's "Environmental Site Remediation Database Search" engine which is located on the internet at:

www.dec.ny.gov/cfm/externalapps/derexternal/index.cfm?pageid=3

Site specific documents may be found online through the DECinfo Locator at:

<https://www.dec.ny.gov/data/DecDocs/828113/> and
