Site Name: Cuba Municipal Waste Disposal

December 13, 2011

Site No.: 902012 **Tax Map No.** 155.00-1-7 and 155.00-1-6.15

Site Location: Jackson Hill Road, Village of Cuba, 14727, Allegany County

Inactive Hazardous Waste Disposal Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (Department) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (the "Registry"). The site identified above, and located on a map on the reverse side of this page, was recently reclassified on the Registry as a Class 4 site as it no longer presents a significant threat to public health or the environment for the following reason(s):

The site operated as a municipal landfill from the 1950s to 1981 accepting household, commercial, and industrial waste. As per the Record of Decision issued in June 2000, remedial activities were undertaken between 2008 and 2009, and included excavation and consolidation of waste and contaminated soil on-site. A soil cover was installed in the areas where waste was excavated and a landfill cap was placed over the consolidated waste and contaminated soil. Trees were planted to treat groundwater at the base of the landfill cap and a retention basin was constructed to manage storm water. Monitoring wells were installed down gradient of the landfill for long-term monitoring of groundwater quality.

Since contamination remains at the site, a Site Management Plan was developed to provide long-term management and monitoring of the engineering and institutional controls. In addition, the Site Management Plan includes monitoring of private wells near the site and requires soil vapor intrusion investigation if a building is constructed at the site in the future. A deed restriction was placed on the property to restrict future land use to its current use as a landfill.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact the Department's Project Manager listed below.

FOR MORE INFORMATION

Additional information about this site can be found using the Department's "Environmental Site Remediation Database Search" engine which is located on the internet at: www.dec.ny.gov/cfm/xtapps/derexternal/index.cfm?pageid=3

Receive Site Updates by Email

Have site information such as this public notice sent right to your email inbox. NYSDEC invites you to sign up with one or more contaminated sites county email listservs available at the following web page: www.dec.ny.gov/chemical/61092.html . It's *quick*, it's *free*, and it will help keep you *better informed*.

As a listserv member, you will periodically receive site-related information/announcements for all contaminated sites in the county(ies) you select.

You may continue also to receive paper copies of site information for a time after you sign up with a county listserv, until the transition to electronic distribution is complete.

Note: Please disregard if you received this notice by way of a county email listserv.
