

Inactive Hazardous Waste Site Operations and Maintenance Review Report

F

Form Date 96.10.01

Site Name: Vibratech Inc.		Class: 4	Number: 915165
O&M Funding Source:		<input type="checkbox"/> State Superfund	<input type="checkbox"/> Federal Superfund <input type="checkbox"/> Municipal <input checked="" type="checkbox"/> Responsible Party
O&M Information:		O&M Start: 1997	End: Annual Cost: \$2500.00 <input checked="" type="checkbox"/> Estimated
Interim Remedial Measures/Operable Units in O&M Phase:			
<input type="checkbox"/> Drum Removal <input checked="" type="checkbox"/> Soil Removal <input type="checkbox"/> Tank Removal			
<input type="checkbox"/> Cap/Cover <input type="checkbox"/> Containment Structure <input type="checkbox"/> Fence/Security			
<input type="checkbox"/> Groundwater Recovery/Treatment <input type="checkbox"/> Leachate Collection/Treatment <input type="checkbox"/> Vapor Extraction/Treatment			
<input type="checkbox"/> Air Sparging/Stripper System <input type="checkbox"/> Treatment/Filtration Plant/System <input type="checkbox"/> Potable Water			
Supply/System Other: Ex-situ SVE (complete)			
Institutional Controls: <input type="checkbox"/> Deed Restriction <input type="checkbox"/> Discharge Permit <input type="checkbox"/> Department of Health <input type="checkbox"/> Other: None			
O&M Review Information:			
Reports: Phase I, Phase II, Supplemental Groundwater Investigation, Supplemental Soil Sampling Program, Sve Work Plan, IRM Decision Document & Order on Consent, Soil Remediation Construction Summary Report-Sve Program, May '96 Monitoring & Catchbasin Remediation, Record of Decision, Post remediation Groundwater Monitoring Plan, Final Closure Report-Ex-situ Sve Program, Post Rem. Gw Mon. Report - 2 nd , 3 rd , & 4 th Qtr. 1997 Post Rem. Gw Mon. Rpt. - 1st Qtr. 1998 St-remediation Gw Monitoring Report - 1st Qtr. 1998 Semi Annual Gw Mon. Rpts. 1998, 1999 2000, Annual 2001 Sampling Report.			
Inspection: 4/3/2002			
Sampling: Fall 2001:			
Other:			
Conclusions:			
Remedy Effective? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No:			
ROD Compliance? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No:			
Consent Order Compliance? <input type="checkbox"/> Yes <input type="checkbox"/> No:			
Other:			
Recommendations:			
<u>Continued monitoring and maintenance. A Completion of remedial activities was received by the Department in January 2002. However, TVOC concentrations in the groundwater still exist at a high of 456 ug/l in one well. While there is evidence of natural attenuation has been occurring and there is no evidence of offsite impacts the concentration are still high enough to warrant further monitoring. It may be appropriate to decrease sampling to bi-annually.</u>			
ROD/Consent Order Modifications? <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes (per above) Reclassify the Site? <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes → Class:			
Comments: * Remediation has been effective for reduction of hazardous waste consisting of chlorinated VOCs. However during routine monitoring there was the evidence of a petroleum product in MW-6, this was reported to SPILLS for further investigation, it was determined that the product was light lube oil.
