Hi Ruth,

The railing on the retaining wall was previously repaired by Sticker Mule, LLC. Photograph 3A in the Annual Site Inspection Report showed the repaired railings in the background. Since we were conducting other work in the area, we took another photo (attached) that is a better image showing the completed repairs.

Please let us know if you have any questions.

Thank you,  
Aaron

Aaron –

Please confirm that repairs were made to the rails along the north side of the creek (approximately a 30 foot drop)

There doesn't appear to be a photo of those repairs.
