Tank No.	Tank Size	Material	Cause	Source	Test Method	Leak Rate	Gross Failure
----------	-----------	----------	-------	--------	-------------	-----------	---------------

DEC REMARKS:

Spill is at ERP Site (ID B00190). This area of historic contamination was not identified during RI. Area was distinct from other areas of petroleum contamination previously identified (See also Spills 0010139 & 0404948).

Consultant reports that contamination was identified in vicinity of newly installed manhole on east side of site. Contamination was encountered at groundwater table and appeared to extend off-site to the east, under the retaining wall for Metro North RR. - jpc 08/05/09
