1.0 Executive Summary

The 1888 Bathgate Avenue Redevelopment Site is located at 4181 Third Avenue in the Bronx, New York (hereinafter referred to as the "Site"). The Site is located in the Borough of the Bronx, New York and is identified as Tax Block 2924, Lot 7 (former Lots 7, 10, 25, 30, and 34) on the New York City Tax Map. The Site is currently enrolled in the New York State (NYS) Brownfield Cleanup Program (BCP) (Site No. C203088), which is administered by the New York State Department of Environmental Conservation (NYSDEC). The Site was investigated and remediated in accordance with Brownfield Cleanup Agreement (BCA) Index No. C203088-03-17, which was executed in May 2017 by Wilfrid East Properties LLC, Wilfrid East LIHTC LLC, and Wilfrid West Properties LLC (collectively the "Original Applicants"). The BCA was amended on August 2, 2017 to add the Applicants Wilfrid Realty Corp., Wilfrid Properties LLC, Wilfrid LIHTC LLC, and ACMH Wilfrid Housing Development Fund Corporation (collectively, with the Original Applicants the "Applicants").

A Site Management Plan (SMP) was developed in December 2018 as required under the NYSDEC's DER-10 (Technical Guidance for Site Investigation and Remediation), dated May 2010, and the guidelines provided by the NYSDEC. The Site was remediated to Track 2 Restricted Residential Soil Cleanup Objectives (RRSCOs) in accordance with the NYSDEC-approved Remedial Action Work Plan (RAWP) and Decision Document (DD). The remedy included:

- Soil excavation and off-site disposal
- Underground storage tank (UST) removal
- Material import
- Remedial design
- Insitu Chemical Oxidation (ISCO) for groundwater treatment
- Institutional control in the form of an Environmental Easement (EE)
- Completion of a SMP

A Periodic Review Report for the period from December 26, 2018 to April 26, 2021 was submitted and approved by the NYSDEC in a letter dated March 3, 2021.

This Periodic Review Report (PRR) cover the period from April 26, 2020 and April 26, 2021. It summarizes and evaluates the performance, effectiveness, and protectiveness of the Engineering Controls (ECs) and Institutions Controls (ICs) established for the Site for the reporting period.

Periodic Review Report April 26, 2020 to April 26, 2021 1888 Bathgate Avenue Redevelopment Site NYSDEC Site #: C203088

Based on the data during the reporting period, the institutional and engineering controls appear to remain in place as specified in the December 2018 Site Management Plan. The ISCO remedy to treat impacted groundwater at the site has made some improvements. However, exceedances in groundwater quality are still present for several CVOCs in several wells.

It is recommended that site management continue per the December 2018 Site Management Plan for the next year. A closer evaluation will be made to the groundwater quality data by the end of the next period to determine if additional action is warranted.

2.0 Site Overview

2.1 Site Description

The Site is located in the Bronx, Bronx County, New York and is identified as Section 2, Block 2924, Lot 7 (formerly Lots 7, 10, 25, 30, and 34) on the New York City Tax Map, as shown on **Figure 1**. The Site is an approximately 0.83-acre area and is bounded by: commercial uses and a public school facility to the north; Third Avenue, followed by Tremont Park to the east; residential and commercial uses to the south; and Bathgate Avenue, followed by institutional and industrial uses and a parking lot to the west. The surrounding area is primarily developed with commercial, institutional, and residential properties, with some industrial uses. A Site Location map and a Site Plan are provided as **Figure 1** and **Figure 2**. The boundaries of the Site are more fully described in the Environmental Easement, provided as **Appendix A**.

2.2 Site and Remedial History

A full Site history, including historical Sanborn maps and a summary of previous investigations conducted at the Site, was provided in the RAWP. Historic records indicated that the Site was developed with private residences and stores as early as 1896, with industrial and manufacturing uses including a lumber yard, various warehouses, Decorative Plastics Co., a glass and glazing facility, a bed spring company, various clothing and accessory manufacturers, a woodworking facility, and a rebar manufacturing facility. ABCO Steel Door (ABCO), a steel door manufacturing facility, occupied the Site between approximately 1980 and 1993. Since approximately 1993, no manufacturing operations occurred at the Site; however, the Site buildings have been used for storage of equipment and supplies by ABCO. The initial environmental investigations at the Site include:

- A Phase I Environmental Site Assessment (ESA) was performed by ALC Environmental (ALC) during April 2016;
- A Phase II Work Plan was completed by ALC and discussed with the New York City Office of Environmental Remediation (OER) during May 2016;
- A Geotechnical Investigation Report was completed by SESI Consulting Engineers D.P.C during August 2016;
- A Remedial Investigation Report was completed by ALC during November 2016;
- A Supplement Remedial Investigation Report was completed by AKRF, Inc. during June 2017.

Periodic Review Report April 26, 2020 to April 26, 2021 1888 Bathgate Avenue Redevelopment Site NYSDEC Site #: C203088

After the initial investigations, a Remedial Action Work Plan (RAWP) was completed by AKRF, Inc. during September 2017. The RAWP outlined the remedial activities and cleanup objectives for the Site. AKRF conducted a Remedial Design Investigation (RDI) between September 12 and 26, 2017 and February 6 and 22, 2018 to aid with the groundwater remedy to be implemented under the RAWP and Decision Document (DD).

The objectives for the remedial program were established through the remedy selection process stated in 6 NYCRR Part 375. Remedial actions were performed at the Site in accordance with the NYSDEC-approved RAWP and DD and applicable federal, state, and local rules and regulations. Detailed descriptions of the completed remedial actions are included in the Final Engineering Report (FER). The following remedial actions were conducted at the Site. Detailed descriptions of the remedial actions were included in the SMP:

- Soil excavation and off-site disposal
- Underground storage tank (UST) removal
- Material import
- Remedial design
- Insitu Chemical Oxidation (ISCO) for groundwater treatment
- Institutional control in the form of an Environmental Easement (EE)
- Completion of a SMP, by AKRF during December 2018.

The information provided below summarizes the baseline soil and groundwater quality after the implementation of the remedial actions (up to 2018).

2.3 Soil Impacts

Following excavation of soil and fill material across the Site, 26 post-excavation endpoint samples were collected in areas that were not excavated to bedrock. Track 2 RRSCOs were met at all endpoint sample locations, or excavation extended to 15 feet below grade. No soil contamination is remaining in place above 15 feet below grade. The endpoint sample analytical results and sample locations and comparison to the UUSCOs and RRSCOs are included in the SMP.

2.4 Groundwater Impacts

Four groundwater monitoring wells (MW-10, 11, 12, and 13) were installed at the site. During the May 14, 2018 baseline groundwater sampling event, Tetrachloroethylene (PCE) was detected

Periodic Review Report April 26, 2020 to April 26, 2021 1888 Bathgate Avenue Redevelopment Site NYSDEC Site #: C203088

at concentrations of 102 μ g/L, 10.7 μ g/L, and 29.1 μ g/L, in groundwater samples from wells MW-11, MW-12, and MW-13 respectively. The highest concentration was detected in the center of the groundwater treatment area, with decreasing concentrations detected downgradient of the treatment area. Breakdown products of PCE, including cis-1,2-dichloroethene and trichloroethylene (TCE), were detected above the TOGS of 5 μ g/L in samples from MW-13 at respective concentrations of 22.4 μ g/L and 24 μ g/L. No chlorinated volatile organic compounds (CVOCs) were detected above the TOGS standards in well MW-10.

One round of groundwater samples was collected on September 6, 2018, approximately two months after the initial ISCO event. CVOCs were detected at concentrations above the NYSDEC TOGS in the majority of the groundwater samples, with the exception of MW-11. PCE was detected at concentrations of 12.5 μ g/L, 19.5 μ g/L, and 61.7 μ g/L in samples from MW-10-MW-12, and MW-13, respectively, above the NYSDEC TOG of 5 μ g/L. These concentrations slightly increased compared to the baseline sampling event in May 2018. Cis-1,2 dichloroethene and TCE were detected at respective concentrations of 28.8 μ g/L and 34 μ g/L in sample from MW-13. No other CVOCs were detected at concentrations above their respective NYSDEC TOGS. The groundwater data is summarized in **Table 1**.

2.5 Remedial Goals and Site Closure Criteria

Remedial activities completed at the Site were conducted in accordance with the NYSDECapproved RAWP and DD. The remedial goals included the attainment of the RRSCOs.

2.6 Remedial System

As the remedy for this Site involved excavation and removal of impacted soil, implementation of an in-situ groundwater treatment program, and followed by the implementation of institutional and engineering controls, there are no active treatment systems currently operating at the Site. Therefore, this section is not applicable.

2.7 Current Remedy Status

Following the implementation of the ISCO to treat groundwater, no active remediation is conducted. Monitoring is being implemented to evaluate the effectiveness of the remedy. A detailed discussion on the performance, effectiveness and protectiveness is provided in Section 4.

3.0 Institutional Controls/Engineering Controls

Since remaining impacted groundwater exists at the Site, Institutional Controls and Engineering Controls (IC/ECs) are required to protect human health and the environment. The intent of this section is to provide a description of the IC/ECs in place for the Site, the objective and status of each IC/EC, as well as to provide a mechanism used to monitor and enforce each IC/EC. The IC/EC Certification form completed for the Site for this reporting period was prepared in accordance with Section 6.3(c) of NYSDEC's DER-10 document and is provided as **Appendix B**.

3.1 Institutional Controls

A series of ICs is required by the RAWP to: (1) implement, maintain and monitor EC systems; (2) prevent future exposure to remaining contamination; and (3) limit the use and development of the Site to Restricted Residential, Commercial, and Industrial uses only. Adherence to these ICs on the Site is required by the Environmental Easement (EE) and will be implemented under the SMP. ICs identified in the EE may not be discontinued without an amendment to or extinguishment of the EE. The IC boundaries are included in the SMP. These ICs are:

- The Site may be used for restricted residential, commercial or industrial use;
- All ECs must be operated and maintained as specified in the SMP;
- All ECs must be inspected at a frequency and in a manner defined in the SMP;
- The use of groundwater underlying the Site is prohibited without necessary water quality treatment as determined by the NYSDOH or the New York City Department of Health to render it safe for use as drinking water or for industrial purposes, and the user must first notify and obtain written approval to do so from the Department;
- Groundwater and other environmental or public health monitoring must be performed as defined in the SMP;
- Data and information pertinent to Site management must be reported at the frequency and in a manner as defined in the SMP;
- All future activities that will disturb remaining contaminated material must be conducted in accordance with the SMP;

- Monitoring to assess the performance and effectiveness of the remedy must be performed as defined in the SMP;
- Operation, maintenance, monitoring, inspection, and reporting of any mechanical or physical component of the remedy shall be performed as defined in the SMP;
- Access to the Site must be provided to agents, employees or other representatives of the State of New York with reasonable prior notice to the property owner to assure compliance with the restrictions identified by the EE; and
- The potential for vapor intrusion must be evaluated for any buildings developed in the area within the IC boundaries noted on **Figure 2**, and any potential impacts that are identified must be monitored or mitigated; and
- In-ground vegetable gardens and farming on the Site are prohibited.

3.2 Engineering Controls

The following information summarizes the ECs implemented at the Site.

3.2.1 ISCO Groundwater Treatment Program

An ISCO Groundwater Treatment Program was established as part of the Site remedy. Approximately 8,325 gallons of a 5% to 10% sodium permanganate/water solution were injected into 24 temporary injections points located in the southwestern portion of the Site (the groundwater treatment area). The injection points were spaced approximately 12 to 14 feet apart to achieve 6 to 7 feet overlapping radius of influence (ROI). Multiple intervals were targeted in the treatment area above the bedrock surface, up to approximately 28 feet below grade. Groundwater is monitored via the four post-remedial monitoring wells installed in the southwestern portion of the Site to evaluate the effectiveness of the in-situ groundwater treatment program.

3.2.2 Criteria for Completion of Remediation/Termination of Remedial Systems

Generally, remedial processes are considered completed when monitoring indicates that the remedy has achieved the remedial action objectives identified by the decision document. The framework for determining when remedial processes are complete is provided in Section 6.4 of NYSDEC DER-10.

3.2.2.1 ISCO Groundwater Treatment Program

The ISCO treatment program will not be discontinued unless prior written approval is granted by the NYSDEC. In the event that monitoring data indicates that the ISCO treatment program may no longer be required, a proposal to discontinue the treatment will be submitted by the remedial party. Conditions that may warrant discontinuing the ISCO treatment program include contaminant concentrations in groundwater that: (1) reach levels that are consistently below ambient water quality standards; (2) have become asymptotic to a low level over an extended period of time, as accepted by the NYSDEC; or (3) the NYSDEC has determined that the ISCO treatment program has reached the limit of its effectiveness. This assessment will be based in part on post-remediation contaminant levels in groundwater collected from monitoring wells located throughout the site. Systems will remain in place and operational until permission to discontinue their use is granted in writing by the NYSDEC.

3.2.2.2 Monitoring Wells associated with Monitoring Natural Attenuation

Groundwater monitoring activities to assess natural attenuation will continue, as determined by the NYSDEC with consultation with NYSDOH, until residual groundwater concentrations are found to be consistently below ambient water quality standards or have become asymptotic at an acceptable level over an extended period. In the event that monitoring data indicates that monitoring for natural attenuation may no longer be required, a proposal to discontinue such monitoring will be submitted by the remedial party, but will otherwise continue until permission to discontinue is granted in writing by the NYSDEC. If groundwater contaminant levels become asymptotic at a level that is not acceptable to the NYSDEC, a revised chemical oxidation injection/treatment plan would be developed for the Site and submitted to the NYSDEC for review and approval. The dosage of any reagents may change based on the results of the postremedial groundwater samples. If a revision to the treatment plan is warranted, notification will be made to NYSDEC with the proposed changes.

4.0 Remedy Performance, Effectiveness, and Protectiveness

The remedial implementation of soil excavation effectively removed all on-site soils that exceeded the RRSCOs to a maximum depth of 15 feet below grade. Post-excavation soil endpoint samples were collected, except at locations excavated down to bedrock. Additional information regarding the soil excavation and cleanup activities is summarized in the SMP.

As for the groundwater, CVOCs exceeding pertinent standards are still persistent in the samples collected from the monitoring wells. In the reporting period (April 2020 to April 2021), Well MW-10 had only PCE concentrations exceeding standards and ranging between 12.6 and 35.2 ug/L. Well MW-11 had concentrations of PCE and TCE reduced and appear to be breaking down into the daughter compounds of cis-1,2 DCE and vinyl chloride. PCE concentrations in MW-11 had a slight rebound in the last two quarters (4QT20 and 1QT21). Well MW-12 had concentrations of PCE between 3.68 and 10.7 ug/L, with the latest results being below standards. Well MW-13 has several exceedances for PCE, TCE and cis-1,2 DCE. A summary of historical groundwater data is included as **Table 1**. The monitoring well locations are depicted on **Figure 2**. A graphical representation of the historical CVOCs concentrations in each well is provided in the charts in **Appendix C**.

It appears that the implementation of the ISCO to treat impacted groundwater at the site has made some improvements specially in MW-12. However exceedances are still present for several CVOCs in several wells.

5.0 Monitoring Plan Compliance Report

This section of the PRR provides a summary of the components of the monitoring plan specified in the December 2018 SMP.

Institutional Controls:	1. The property may be used for restricted residential, commercial, and industrial use.
	2. Environmental Easement
	3. All ECs must be monitored at a
	frequency and in a manner defined in
	the SMP.
Engineering Controls:	1. Groundwater Treatment Program (In-
	situ chemical oxidation)
Monitoring:	1. Post-remedial groundwater monitoring
	and sampling quarterly for one year.
Reporting:	1. Groundwater Monitoring Report –
	Quarterly for one year.
	2. Periodic Review Report - Annually

The SMP requirements included post-remedial groundwater sampling from four onsite wells (Monitoring wells MW-10, MW-11, MW-12, and MW-13) on a quarterly basis. A total of four quarterly groundwater sampling events have been conducted in the reporting period from April 26, 2020 to April 26, 2021). The most recent quarterly groundwater sampling event occurred in March 2021. The analytical results of the groundwater samples collected during the investigations were compared to the NYSDEC Title 6 New York Codes, Rules, and Regulations (6NYCRR) Part 703.5 Class GA groundwater standards and submitted as a separate report.

A summary of historical groundwater data is included as **Table 1**. The monitoring well locations are depicted on **Figure 2**. Based on the results of the post-remedial groundwater sampling events, exceedances of chlorinated compounds still exist in onsite wells. Quarterly groundwater monitoring and sampling will continue per the SMP.

6.0 Operation & Maintenance Plan Compliance Report

The remedy for this Site included excavation and removal of impacted soil, implementation of an in-situ groundwater treatment program, and implementation of institutional and engineering controls. There are no mechanical systems such as a groundwater pump and treat system, sub-slab depressurization system, or air sparge/soil vapor extraction systems. Therefore, the operation and maintenance of such components are not applicable.

7.0 Green Remediation/Climate Change Resilience

The remedy for this Site involved excavation and removal of impacted soil followed by the implementation of institutional and engineering controls. The Site is currently in the Site Management phase, during which the only activities completed at the Site related to the remedy involve periodic ground water sampling and inspections to verify compliance with the IC/ECs specified in the December 2018 SMP. As a result, there were no environmental impacts that could affect the "environmental footprint" of the Site during this reporting period. In addition, there are no planned remedial activities that could negatively impact the environment. The remedial system at the Site does not consume energy, water or materials and produces no "greenhouse" gasses or wastes.

8.0 Cost Evaluation

The annual cost for the required monitoring is approximately \$33,000 based on costs incurred in a calendar year. This cost includes quarterly groundwater sampling, analysis and reporting along with the development of this PRR.

9.0 Conclusions and Recommendations

The remedy for the Site involved excavation and removal of impacted soil, implementation of an in-situ groundwater treatment program, and followed by the implementation of institutional and engineering controls. The Site is currently in the site management phase of the overall remedial process. Site management activities involve routine inspections, as outlined in the SMP, to confirm that all institutional and engineering controls implemented for the Site remain in place and are effective.

Based on the evaluation of the performance, effectiveness and protectiveness of the remedy during the current reporting period, and as detailed in the preceding sections, the institutional and engineering controls appear to remain in place as specified in the December 2018 Site Management Plan for the Site. The ISCO remedy to treat impacted groundwater at the site has made some improvements in some wells. However, exceedances are still present for several CVOCs in several wells.

It is recommended that site management continue per the December 2018 Site Management Plan for the next year. A closer evaluation will be made to the groundwater quality data by the end of the next period to determine if additional action is warranted. Periodic Review Report April 26, 2020 to April 26, 2021 1888 Bathgate Avenue Redevelopment Site NYSDEC Site #: C203088

10.0 Certifications

For each institutional or engineering control identified for the site, I certify that all of the following statements are true:

(a) the institutional control and/or engineering control employed at this site is unchanged from the date the control was put in place, or last approved by DER;

(b) nothing has occurred that would impair the ability of such control to protect public health and the environment;

(c) nothing has occurred that would constitute a violation or failure to comply with any Site Management Plan for this control;

(d) access to the site will continue to be provided to DER to evaluate the remedy, including access to evaluate the continued maintenance of this control; and

(e) if a financial assurance mechanism is required under the oversight Final DER-10 Page 25 of 226 Technical Guidance for Site Investigation and Remediation May 2010 document for the site, the mechanism remains valid and sufficient for their intended purpose under the document.

2/6/21

Hazem M. Hijazi, PE

For RESNY Engineering – 1218 Central Ave, Suite 100, Albany, NY 12205

For each Institutional or Engineering Control identified for the Site, I certify that all of the following statements are true:

(a) The inspection of the Site to confirm the effectiveness of the Institutional and Engineering Controls required by the remedial program was performed under my direction;

(b) The Institutional Control and/or Engineering Control employed at this Site is unchanged from the date the control was put in place, or last approved by the Department;

(c) Nothing has occurred that would impair the ability of the control to protect the public health and environment;

(d) Nothing has occurred that would constitute a violation or failure to comply with any Site Management Plan for this control;

(e) Access to the Site will continue to be provided to the Department to evaluate the remedy, including access to evaluate the continued maintenance of this control;

(f) If a financial assurance mechanism is required under the oversight document for the Site, the mechanism remains valid and sufficient for the intended purpose under the document;

(g) Use of the Site is compliant with the Environmental Easement;

(h) The Engineering Control systems are performing as designed and are effective;

(i) To the best of my knowledge and belief, the work and conclusions described in this certification are in accordance with the requirements of the site remedial program and generally accepted engineering practices; and

(j) The information presented in this report is accurate and complete.

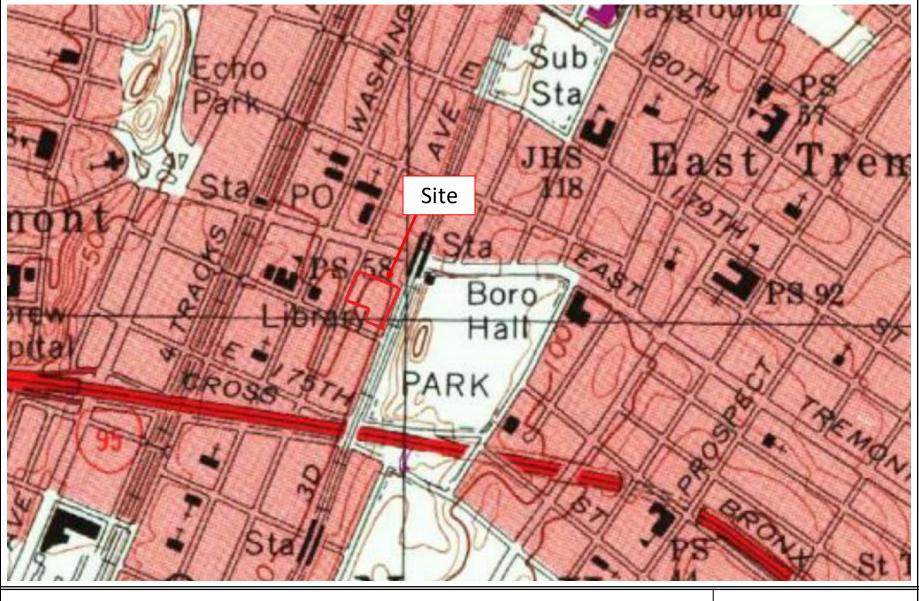

I certify that all information and statements in this certification form are true. I understand that a false statement made herein is punishable as a Class "A" misdemeanor, pursuant to Section 210.45 of the Penal Law. I, Hazem Hijazi, of For RESNY Engineering – 1218 Central Ave, Suite 100, Albany, NY 12205, am certifying as Owner's/Remedial Party's Designated Site

ENVIRONMENTAL EASEMENT GRANTED PURSUANT TO ARTICLE 71, TITLE 36

OF THE NEW YORK STATE ENVIRONMENTAL CONSERVATION LAW

ast

THIS INDENTURE made this 10th day of <u>Uctober</u>, 20<u>18</u>, between Owner(s) Wilfrid Realty Corp., having an office at 4181 3rd Ave, Bronx, New York 10457, County of Bronx, State of New York (the "Grantor"), and The People of the State of New York (the "Grantee."), acting through their Commissioner of the Department of Environmental Conservation (the "Commissioner", or "NYSDEC" or "Department" as the context requires) with its headquarters located at 625 Broadway, Albany, New York 12233,

WHEREAS, the Legislature of the State of New York has declared that it is in the public interest to encourage the remediation of abandoned and likely contaminated properties ("sites") that threaten the health and vitality of the communities they burden while at the same time ensuring the protection of public health and the environment; and

WHEREAS, the Legislature of the State of New York has declared that it is in the public interest to establish within the Department a statutory environmental remediation program that includes the use of Environmental Easements as an enforceable means of ensuring the performance of operation, maintenance, and/or monitoring requirements and the restriction of future uses of the land, when an environmental remediation project leaves residual contamination at levels that have been determined to be safe for a specific use, but not all uses, or which includes engineered structures that must be maintained or protected against damage to perform properly and be effective, or which requires groundwater use or soil management restrictions; and

WHEREAS, the Legislature of the State of New York has declared that Environmental Easement shall mean an interest in real property, created under and subject to the provisions of Article 71, Title 36 of the New York State Environmental Conservation Law ("ECL") which contains a use restriction and/or a prohibition on the use of land in a manner inconsistent with engineering controls which are intended to ensure the long term effectiveness of a site remedial program or eliminate potential exposure pathways to hazardous waste or petroleum; and

WHEREAS, Grantor, is the owner of real property located at the address of 4181 3rd Avenue in the City of New York, County of Bronx and State of New York, known and designated on the tax map of the New York City Department of Finance as tax map parcel number: Block 2924 Lot 7, being the same as that property conveyed to Grantor by deed dated January 26, 2017 and recorded in the City Register of the City of New York as CRFN # 2017000064989. The property subject to this Environmental Easement (the "Controlled Property") comprises approximately 0.8288 +/- acres, and is hereinafter more fully described in the Land Title Survey dated May 11, 2018 prepared by Robert J. Fehringer, L.L.S. of Fehringer Surveying, P.C., which will be attached to the Site Management Plan. The Controlled Property description is set forth in and attached hereto as Schedule A; and

WHEREAS, the Department accepts this Environmental Easement in order to ensure the protection of public health and the environment and to achieve the requirements for remediation

Environmental Easement Page 1

established for the Controlled Property until such time as this Environmental Easement is extinguished pursuant to ECL Article 71, Title 36; and

NOW THEREFORE, in consideration of the mutual covenants contained herein and the terms and conditions of Brownfield Cleanup Agreement Index Number: C203088-03-17 as amended August 2, 2017, Grantor conveys to Grantee a permanent Environmental Easement pursuant to ECL Article 71, Title 36 in, on, over, under, and upon the Controlled Property as more fully described herein ("Environmental Easement").

1. <u>Purposes</u>. Grantor and Grantee acknowledge that the Purposes of this Environmental Easement are: to convey to Grantee real property rights and interests that will run with the land in perpetuity in order to provide an effective and enforceable means of encouraging the reuse and redevelopment of this Controlled Property at a level that has been determined to be safe for a specific use while ensuring the performance of operation, maintenance, and/or monitoring requirements; and to ensure the restriction of future uses of the land that are inconsistent with the above-stated purpose.

2. <u>Institutional and Engineering Controls</u>. The controls and requirements listed in the Department approved Site Management Plan ("SMP") including any and all Department approved amendments to the SMP are incorporated into and made part of this Environmental Easement. These controls and requirements apply to the use of the Controlled Property, run with the land, are binding on the Grantor and the Grantor's successors and assigns, and are enforceable in law or equity against any owner of the Controlled Property, any lessees and any person using the Controlled Property.

A. (1) The Controlled Property may be used for:

Restricted Residential as described in 6 NYCRR Part 375-1.8(g)(2)(ii), Commercial as described in 6 NYCRR Part 375-1.8(g)(2)(iii) and Industrial as described in 6 NYCRR Part 375-1.8(g)(2)(iv)

(2) All Engineering Controls must be operated and maintained as specified in the Site Management Plan (SMP);

(3) All Engineering Controls must be inspected at a frequency and in a manner defined in the SMP;

(4) The use of groundwater underlying the property is prohibited without necessary water quality treatment as determined by the NYSDOH or the New York City Department of Health and Mental Hygiene to render it safe for use as drinking water or for industrial purposes, and the user must first notify and obtain written approval to do so from the Department;

(5) Groundwater and other environmental or public health monitoring must be performed as defined in the SMP;

(6) Data and information pertinent to Site Management of the Controlled

Environmental Easement Page 2

County: Bronx Site No: C203088 Brownfield Cleanup Agreement Index : C203088-03-17 as amended August 2, 2017

Property must be reported at the frequency and in a manner defined in the SMP;

(7) All future activities on the property that will disturb remaining contaminated material must be conducted in accordance with the SMP;

(8) Monitoring to assess the performance and effectiveness of the remedy must be performed as defined in the SMP;

(9) Operation, maintenance, monitoring, inspection, and reporting of any mechanical or physical components of the remedy shall be performed as defined in the SMP;

(10) Access to the site must be provided to agents, employees or other representatives of the State of New York with reasonable prior notice to the property owner to assure compliance with the restrictions identified by this Environmental Easement.

B. The Controlled Property shall not be used for Residential purposes as defined in 6NYCRR 375-1.8(g)(2)(i), and the above-stated engineering controls may not be discontinued without an amendment or extinguishment of this Environmental Easement.

C. The SMP describes obligations that the Grantor assumes on behalf of Grantor, its successors and assigns. The Grantor's assumption of the obligations contained in the SMP which may include sampling, monitoring, and/or operating a treatment system, and providing certified reports to the NYSDEC, is and remains a fundamental element of the Department's determination that the Controlled Property is safe for a specific use, but not all uses. The SMP may be modified in accordance with the Department's statutory and regulatory authority. The Grantor and all successors and assigns, assume the burden of complying with the SMP and obtaining an up-to-date version of the SMP from:

Site Control Section Division of Environmental Remediation NYSDEC 625 Broadway Albany, New York 12233 Phone: (518) 402-9553

D. Grantor must provide all persons who acquire any interest in the Controlled Property a true and complete copy of the SMP that the Department approves for the Controlled Property and all Department-approved amendments to that SMP.

E. Grantor covenants and agrees that until such time as the Environmental Easement is extinguished in accordance with the requirements of ECL Article 71, Title 36 of the ECL, the property deed and all subsequent instruments of conveyance relating to the Controlled Property shall state in at least fifteen-point bold-faced type:

This property is subject to an Environmental Easement held

by the New York State Department of Environmental Conservation pursuant to Title 36 of Article 71 of the Environmental Conservation

Law.

F. Grantor covenants and agrees that this Environmental Easement shall be incorporated in full or by reference in any leases, licenses, or other instruments granting a right to use the Controlled Property.

G. Grantor covenants and agrees that it shall, at such time as NYSDEC may require, submit to NYSDEC a written statement by an expert the NYSDEC may find acceptable certifying under penalty of perjury, in such form and manner as the Department may require, that:

(1) the inspection of the site to confirm the effectiveness of the institutional and engineering controls required by the remedial program was performed under the direction of the individual set forth at 6 NYCRR Part 375-1.8(h)(3).

the institutional controls and/or engineering controls employed at such site:
 (i) are in-place;

(ii) are unchanged from the previous certification, or that any identified changes to the controls employed were approved by the NYSDEC and that all controls are in the Department-approved format; and

(iii) that nothing has occurred that would impair the ability of such control to protect the public health and environment;

(3) the owner will continue to allow access to such real property to evaluate the continued maintenance of such controls;

(4) nothing has occurred that would constitute a violation or failure to comply with any site management plan for such controls;

(5) the report and all attachments were prepared under the direction of, and reviewed by, the party making the certification;

(6) to the best of his/her knowledge and belief, the work and conclusions described in this certification are in accordance with the requirements of the site remedial program, and generally accepted engineering practices; and

(7) the information presented is accurate and complete.

3. <u>Right to Enter and Inspect</u>. Grantee, its agents, employees, or other representatives of the State may enter and inspect the Controlled Property in a reasonable manner and at reasonable times to assure compliance with the above-stated restrictions.

4. <u>Reserved Grantor's Rights</u>. Grantor reserves for itself, its assigns, representatives, and successors in interest with respect to the Property, all rights as fee owner of the Property, including:

A. Use of the Controlled Property for all purposes not inconsistent with, or limited by the terms of this Environmental Easement;

B. The right to give, sell, assign, or otherwise transfer part or all of the underlying fee

County: Bronx Site No: C203088 Brownfield Cleanup Agreement Index : C203088-03-17 as amended August 2, 2017

interest to the Controlled Property, subject and subordinate to this Environmental Easement;

5. <u>Enforcement</u>

A. This Environmental Easement is enforceable in law or equity in perpetuity by Grantor, Grantee, or any affected local government, as defined in ECL Section 71-3603, against the owner of the Property, any lessees, and any person using the land. Enforcement shall not be defeated because of any subsequent adverse possession, laches, estoppel, or waiver. It is not a defense in any action to enforce this Environmental Easement that: it is not appurtenant to an interest in real property; it is not of a character that has been recognized traditionally at common law; it imposes a negative burden; it imposes affirmative obligations upon the owner of any interest in the burdened property; the benefit does not touch or concern real property; there is no privity of estate or of contract; or it imposes an unreasonable restraint on alienation.

B. If any person violates this Environmental Easement, the Grantee may revoke the Certificate of Completion with respect to the Controlled Property.

C. Grantee shall notify Grantor of a breach or suspected breach of any of the terms of this Environmental Easement. Such notice shall set forth how Grantor can cure such breach or suspected breach and give Grantor a reasonable amount of time from the date of receipt of notice in which to cure. At the expiration of such period of time to cure, or any extensions granted by Grantee, the Grantee shall notify Grantor of any failure to adequately cure the breach or suspected breach, and Grantee may take any other appropriate action reasonably necessary to remedy any breach of this Environmental Easement, including the commencement of any proceedings in accordance with applicable law.

D. The failure of Grantee to enforce any of the terms contained herein shall not be deemed a waiver of any such term nor bar any enforcement rights.

6. <u>Notice</u>. Whenever notice to the Grantee (other than the annual certification) or approval from the Grantee is required, the Party providing such notice or seeking such approval shall identify the Controlled Property by referencing the following information:

County, NYSDEC Site Number, NYSDEC Brownfield Cleanup Agreement, State Assistance Contract or Order Number, and the County tax map number or the Liber and Page or computerized system identification number.

Parties shall address correspondence to:	Site Number: C203088 Office of General Counsel NYSDEC 625 Broadway Albany New York 12233-5500
With a copy to:	Site Control Section Division of Environmental Remediation NYSDEC 625 Broadway Albany, NY 12233

Environmental Easement Page 5

All notices and correspondence shall be delivered by hand, by registered mail or by Certified mail and return receipt requested. The Parties may provide for other means of receiving and communicating notices and responses to requests for approval.

7. <u>Recordation</u>. Grantor shall record this instrument, within thirty (30) days of execution of this instrument by the Commissioner or her/his authorized representative in the office of the recording officer for the county or counties where the Property is situated in the manner prescribed by Article 9 of the Real Property Law.

8. <u>Amendment</u>. Any amendment to this Environmental Easement may only be executed by the Commissioner of the New York State Department of Environmental Conservation or the Commissioner's Designee, and filed with the office of the recording officer for the county or counties where the Property is situated in the manner prescribed by Article 9 of the Real Property Law.

9. <u>Extinguishment.</u> This Environmental Easement may be extinguished only by a release by the Commissioner of the New York State Department of Environmental Conservation, or the Commissioner's Designee, and filed with the office of the recording officer for the county or counties where the Property is situated in the manner prescribed by Article 9 of the Real Property Law.

10. <u>Joint Obligation</u>. If there are two or more parties identified as Grantor herein, the obligations imposed by this instrument upon them shall be joint and several.

11. <u>Consistency with the SMP</u>. To the extent there is any conflict or inconsistency between the terms of this Environmental Easement and the SMP, regarding matters specifically addressed by the SMP, the terms of the SMP will control.

of influence (ROI). Multiple intervals were targeted in the treatment area above the bedrock surface, up)
to approximately 28 feet below grade. Groundwater will be monitored via the four post-remedial monitoring wells installed in the southwestern portion of the Site to evaluate the effectiveness of the				

Parcel

Engineering Control

in-situ groundwater treatment program.

Groundwater samples will be collected from the four post-remedial monitoring wells (MW-10, MW-11, MW-13, and MW-14) approximately three months after the each ISCO treatment event. Two rounds of groundwater samples have been collected from the post-remedial wells (one round prior to the initial treatment event and one after the treatment event). This data will be utilized as baseline concentrations for which future sampling events will be compared.

Groundwater monitoring activities to assess natural attenuation will continue, as determined by the NYSDEC with consultation with NYSDOH, until residual groundwater concentrations are found to be consistently below ambient water quality standards or have become asymptotic at an acceptable level over an extended period. In the event that monitoring data indicates that monitoring for natural attenuation may no longer be required, a proposal to discontinue such monitoring will be submitted by the remedial party, but will otherwise continue until permission to discontinue is granted in writing by the NYSDEC. If groundwater contaminant levels become asymptotic at a level that is not acceptable to the NYSDEC, a revised chemical oxidation injection/treatment plan would be developed for the Site and submitted to the NYSDEC for review and approval. The dosage of any reagents may change based on the results of the post-remedial groundwater samples. If a revision to the treatment plan is warranted, notification will be made to NYSDEC with the proposed changes.

SECOND AMENDMENT TO CONDOMINIUM DECLARATION OF WILFRID CONDOMINIUM

Pursuant to Article 9-B of the Real Property Law of the State of New York

WILFRID CONDOMINIUM 1880-1888 Bathgate Avenue & 4179-4197 Third Avenue Bronx, New York Block 2924 F/K/A Lot 7 N/K/A Lots 1001-1005 County of Bronx, City of New York, State of New York

BY

THE BOARD OF MANAGERS OF WILFRID CONDOMINIUM 48-02 25th Avenue, Suite 400 Astoria, New York 11103

Date of Amendment:

December 16, 2020

Record & Return to:

HIRSCHEN SINGER & EPSTEIN LLP 902 Broadway, 13th Floor New York, New York 10010 Attention: Oliver G. Chase, Esq.

SECOND AMENDMENT TO CONDOMINIUM DECLARATION

SECOND AMENDMENT TO CONDOMINIUM DECLARATION by the **BOARD OF MANAGERS OF WILFRID CONDOMINIUM**, an unincorporated association having an address at 48-02 25th Avenue, Suite 400, Astoria, New York 11103 (the "**Board of Managers**"), dated as of the 16th day of December, 2020 (the "**Second Amendment**").

WHEREAS, WILFRID REALTY CORP. ("Ground Lessor"), as landlord, and ACMH WILFRID HOUSING DEVELOPMENT FUND CORPORATION ("HDFC"), as tenant, entered into that certain Ground Lease (the "Ground Lease") dated as of June 28, 2017, a memorandum of which is dated June 28, 2017 and recorded on July 18, 2017 in the Office of the City Register, Bronx County (the "City Register's Office") in CRFN #2017000263999, for certain real property located at 1880-1888 Bathgate Avenue and 4179-4197 3rd Avenue, Bronx, New York and designated as Block 2924, Base Lot 7 on the Tax Map of the City of New York, Bronx County, as more particularly set forth on the attached Exhibit A (the "Property");

WHEREAS, WILFRID PROPERTIES LLC and HDFC (together, the "Declarant") previously submitted a Condominium Declaration (the "Original Declaration"), as amended by that certain First Amendment to Condominium Declaration (the "First Amendment"; the Original Declaration, together with the First Amendment and this Second Amendment, the "Declaration") pursuant to the provisions of Article 9-B of the Real Property Law of the State of New York ("Condominium Act") and created a leasehold Condominium known as WILFRID CONDOMINIUM ("Condominium") on the Declarant's leasehold estate in the Property. The Original Declaration was dated August 27, 2018 and recorded in the City Register's Office on May 2, 2019 in CRFN #2019000140636. The First Amendment was dated October 21, 2019 and recorded in the City Register's Office on November 19, 2020 in CRFN #2020000324924. The floor plans (the "Floor Plans"; the Floor Plans, together with the Declaration and By-Laws of the Condominium, are referred to herein as the "Condominium Documents"), certified by SLCE Architects, LLP on April 25, 2019 and filed with the Tax Map Unit, Land Records Division, New York City Department of Finance as Condominium No. 240, were recorded in the City Register's Office on May 2, 2019 as CRFN #2019000140637, and were subsequently amended pursuant to the First Amendment;

WHEREAS, by Leasehold Condominium Deed dated as of even date herewith, HDFC has transferred the leasehold condominium unit known as Unit 1 ("Unit 1"), to Ground Lessor;

WHEREAS, by Bargain and Sale Deed dated as of even date herewith, Ground Lessor has transferred its fee interest in the Property, excluding the fee interest appurtenant to Unit 1, to the HDFC;

WHEREAS, as of the date hereof and simultaneously with this Second Amendment, (i) the Ground Lease is being terminated, (ii) Ground Lessor is subjecting its fee interest in the Property to the Condominium Act and the Declaration, and (iii) the Condominium is being converted to a fee condominium, all as contemplated in the Declaration; and

WHEREAS, the Board of Managers, as consented to by the Unit Owners, desires to amend the Declaration to reflect that the Condominium is a fee condominium as of the date hereof.

NOW THEREFORE, the Board of Managers does hereby declare as follows:

1. Pursuant to Section 1(d) of the Declaration, Ground Lessor subjects its fee interest in the Property to the Condominium Act and to the Declaration.

2. Further pursuant to Section 1(d) of the Declaration, the Condominium is converted to a fee condominium. All references to the "Units" in the Condominium Documents as being leasehold units are hereafter modified to reflect that the Units are fee condominium units. All references to "Unit Owners" shall refer to the owners of the fee (and, if applicable, beneficial owner) owner(s) of such in the Units.

3. Capitalized terms not otherwise defined herein shall have the meanings given to them in the Declaration. Capitalized terms not otherwise defined herein or in the Declaration shall have the meanings set forth in Section 339-e of the Condominium Act.

4. Except as specifically modified herein, all terms and conditions of the Declaration, By-Laws and Floor Plans remain unmodified and in full force and effect.

[Signature Page Follows.]

IN WITNESS WHEREOF, the Board of Managers and Ground Lessor have caused this Second Amendment to Condominium Declaration to be executed as of the date and year first written above.

CONFIRMATORY DEED

THIS INDENTURE, made as of the 16th day of December 2020

BETWEEN

WILFRID REALTY CORP., a New York corporation having with an office at c/o Goetz Fitzpatrick LLP, One Penn Plaza, 31st Floor, New York, New York 10119 (hereinafter referred to as "Grantor"),

and

WILFRID REALTY CORP., a New York corporation having with an office at c/o Goetz Fitzpatrick LLP, One Penn Plaza, 31st Floor, New York, New York 10119 (hereinafter referred to as "Grantee"),

WITNESSETH, that the Grantor, in consideration of One Dollar and other valuable consideration paid by the Grantee does hereby grant and release to Grantee, the heirs or successors and assigns of Grantee forever

The condominium unit identified as Lot 1001 on Block 2924 on the Tax Map of the City of New York, Bronx County in the building known as the Wilfrid Condominium and by the street address 1880-1888 Bathgate Avenue and 4179–4197 3rd Avenue, Bronx, New York situate, lying and being in the Borough and County of Bronx and the State of New York, bounded and described more particularly as set forth in Schedule A annexed hereto and made a part hereof (the "**Premises**");

TOGETHER with all right, title and interest, if any, of Grantor in and to any streets and roads abutting the above described Premises to the center lines thereof;

TOGETHER with the appurtenances and all the estate and rights of Grantor in and to said Premises;

TOGETHER with, and subject to, the rights, obligations, easements, restrictions and other provisions set forth in the Declaration (as such term is defined in Schedule A) and the by-laws of the Condominium (as such term is defined in Schedule A), as the same may be amended from time to time all of which constitute covenants running with the land and shall bind any person having at any time any interest or estate in the Premises, as though recited and stipulated at length herein;

TO HAVE AND TO HOLD the Premises herein granted to Grantee, the heirs or successors and assigns of Grantee forever.

SAID PREMISES being a portion of such premises leased by Grantor to ACMH Wilfrid Housing Development Fund Corporation, a New York not-for-profit corporation ("**HDFC**") pursuant to that certain Ground Lease dated June 28, 2017 ("**Ground Lease**") as evidenced by that certain Memorandum of Ground Lease dated June 28, 2017 and recorded July 18, 2017 in CRFN 2017000263999 in the Office of the City Register of the City of New York, Bronx County

("Register's Office"), the beneficial and equitable leasehold interest in such Ground Lease was transferred to Wilfrid Properties LLC, a New York limited liability company ("Moderate LLC") and Wilfrid LIHTC LLC, a New York limited liability company ("LIHTC LLC") pursuant to that certain Declaration of Interest and Nominee agreement dated as of June 28, 2017 and recorded on July 18, 2017 in CRFN 201700026400 in the Register's Office, which leasehold premises was subjected to a leasehold condominium regime known as Wilfrid Condominium pursuant to that certain Declaration of Condominium and By-laws ("Condo Declaration") dated August 27, 2018 and recorded in May 2, 2019 in CRFN 2019000140636 in the Register's Office, pursuant to which the HDFC and Moderate LLC owned, respectively, fee and beneficial interest in the Premises. As of the date hereof, Grantor has conveyed its fee interest in the land and building, subject to the Ground Lease, exclusive of the portion thereof appurtenant to the Premises to the HDFC, pursuant to that certain bargain and sale deed dated as of the date hereof and to be recorded prior hereto. As of the date hereof, the condominium established by the Condo Declaration is being converted to a fee condominium pursuant to that certain Second Amendment to the Condominium Declaration of Wilfrid Condominium dated as of the date hereof and recorded herewith and the Ground Lease is being terminated pursuant to that certain Termination of Memorandum of Ground Lease to be dated as of the date hereof and recorded herewith, such that the Grantee is the fee owner of the Premises.

AND this Confirmatory Deed is intended to confirm, on the public record, the fee interest of Grantee in the Premises and that the legal description of such Premises is set forth in Schedule "A", annexed here and made a part hereof.

AND Grantor covenants that Grantor has not done or suffered anything whereby the same Premises have been encumbered in any way whatever, except as aforesaid.

AND the Grantor, in compliance with Section 13 of the Lien Law, covenants that the Grantor will receive the consideration for this conveyance and will hold the right to receive such consideration as a trust fund to be applied first for the purpose of paying the cost of the improvement and will apply the same first to the payment of the cost of the improvement before using any part of the same for any other purpose.

THIS PROPERTY IS SUBJECT TO AN ENVIRONMENAL EASEMENT HELD BY THE NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION PURSUANT TO TITLE 36 OF ARTICLE 71 OF THE ENVIRONMENTAL CONSERVATION LAW.

THIS INDENTURE, made as of the 16th day of December 2020

BETWEEN

ACMH WILFRID HOUSING DEVELOPMENT FUND CORPORATION, a New York notfor-profit corporation having an office at c/o ACMH, Inc., 254 West 31st Street, 9th Floor, New York, New York 10016 (hereinafter referred to as "**HDFC**") and **WILFRID PROPERTIES LLC**, a New York limited liability company with an office at 48-02 25th Avenue, Suite 400, Astoria, New York 11103 ("**Moderate LLC**" and together with HDFC, the "**Grantor**")

and

ACMH WILFRID HOUSING DEVELOPMENT FUND CORPORATION, a New York notfor-profit corporation having an office at c/o ACMH, Inc., 254 West 31st Street, 9th Floor, New York, New York 10016 (hereinafter referred to as "**HDFC**") and **WILFRID PROPERTIES LLC**, a New York limited liability company with an office at 48-02 25th Avenue, Suite 400, Astoria, New York 11103 ("**Moderate LLC**" and together with HDFC, the "**Grantee**")

WITNESSETH, that the Grantor, in consideration of One Dollar and other valuable consideration paid by the Grantee does hereby grant and release to Grantee, the heirs or successors and assigns of Grantee forever

The condominium units identified as Lots 1002, 1003 and 1004 on Block 2924 on the Tax Map of the City of New York, Bronx County in the building known as the Wilfrid Condominium and by the street address 1880-1888 Bathgate Avenue and 4179–4197 3rd Avenue, Bronx, New York situate, lying and being in the Borough and County of Bronx and the State of New York, bounded and described more particularly as set forth in Schedule A annexed hereto and made a part hereof (the "**Premises**");

TOGETHER with all right, title and interest, if any, of Grantor in and to any streets and roads abutting the above described Premises to the center lines thereof;

TOGETHER with the appurtenances and all the estate and rights of Grantor in and to said Premises;

TOGETHER with, and subject to, the rights, obligations, easements, restrictions and other provisions set forth in the Declaration (as such term is defined in Schedule A) and the by-laws of the Condominium (as such term is defined in Schedule A), as the same may be amended from time to time all of which constitute covenants running with the land and shall bind any person having at any time any interest or estate in the Premises, as though recited and stipulated at length herein;

TO HAVE AND TO HOLD the Premises herein granted to Grantee, the heirs or successors and assigns of Grantee forever.

SAID PREMISES being a portion of the premises leased by Wilfrid Realty Corp., a New York corporation ("Lessor") to HDFC pursuant to that certain Ground Lease dated June 28, 2017 ("Ground Lease") as evidenced by that certain Memorandum of Ground Lease dated June 28, 2017 and recorded July 18, 2017 in CRFN 2017000263999 in the Office of the City Register of the City of New York, Bronx County ("Register's Office"). The beneficial and equitable leasehold interest in such Ground Lease is held by Moderate LLC and Wilfrid LIHTC LLC, a New York limited liability company ("LIHTC LLC") pursuant to that certain Declaration of Interest and Nominee agreement dated as of June 28, 2017 and recorded on July 18, 2017 in CRFN 201700026400 in the Register's Office. Such leasehold premises were subjected to a leasehold condominium regime known as Wilfrid Condominium pursuant to that certain Declaration of Condominium and By-laws ("Condo Declaration") dated August 27, 2018 and recorded in May 2, 2019 in CRFN 2019000140636 in the Register's Office, pursuant to which the HDFC and Moderate LLC owned, respectively, legal and beneficial leasehold title in the Premises and the condominium unit identified as Lot 1001 in said Block. As of the date hereof, (i) Lessor has conveyed to the HDFC the Lessor's fee interest in the land and building, subject to the Ground Lease, located at 1880-1888 Bathgate Avenue and 4179–4197 3rd Avenue, Bronx, New York and designated as Block 2924 Base Lot 7 on the Tax Map of the City of New York, Bronx County exclusive of the land appurtenant to Unit 1 (as defined in the Condo Declaration) to the HDFC, pursuant to that certain bargain and sale deed dated as of the date hereof and to be recorded herewith; and (ii) beneficial and equitable interest in the Premises was transferred to Moderate LLC pursuant to that certain Amended and Restated Declaration of Interest and Nominee Agreement dated as of the date hereof and to be recorded contemporaneously herewith. The Condo Declaration is being converted to a fee condominium pursuant to that certain Second Amendment to the Condominium Declaration of Wilfrid Condominium dated as of the date hereof and to be recorded contemporaneously herewith; and the Ground Lease is being terminated pursuant to that certain Termination of Memorandum of Ground Lease dated as of the date hereof and to be recorded contemporaneously herewith, such that the Grantee is and shall be the legal and beneficial fee owner of the Premises.

AND this Confirmatory Deed is intended to confirm, on the public record, the legal and beneficial fee interest of Grantee in the Premises and that the legal description of such Premises is set forth in Schedule "A", annexed here and made a part hereof.

AND Grantor covenants that Grantor has not done or suffered anything whereby the same Premises have been encumbered in any way whatever, except as aforesaid.

AND the Grantor, in compliance with Section 13 of the Lien Law, covenants that the Grantor will receive the consideration for this conveyance and will hold the right to receive such consideration as a trust fund to be applied first for the purpose of paying the cost of the improvement and will apply the same first to the payment of the cost of the improvement before using any part of the same for any other purpose.

THIS PROPERTY IS SUBJECT TO AN ENVIRONMENAL EASEMENT

HELD BY THE NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION PURSUANT TO TITLE 36 OF ARTICLE 71 OF THE ENVIRONMENTAL CONSERVATION LAW.

SAID PREMISES being a portion of the premises leased by Wilfrid Realty Corp., a New York corporation ("**Lessor**") to HDFC pursuant to that certain Ground Lease dated June 28, 2017

("Ground Lease") as evidenced by that certain Memorandum of Ground Lease dated June 28, 2017 and recorded July 18, 2017 in CRFN 2017000263999 in the Office of the City Register of the City of New York, Bronx County ("Register's Office"). The beneficial and equitable leasehold interest in such Ground Lease is held by Wilfrid Properties LLC, a New York limited liability company ("Moderate LLC") and LIHTC LLC pursuant to that certain Declaration of Interest and Nominee agreement dated as of June 28, 2017 and recorded on July 18, 2017 in CRFN 201700026400 in the Register's Office. Such leasehold premises were subjected to a leasehold condominium regime known as Wilfrid Condominium pursuant to that certain Declaration of Condominium and By-laws ("Condo Declaration") dated August 27, 2018 and recorded in May 2, 2019 in CRFN 2019000140636 in the Register's Office, pursuant to which the HDFC and LIHTC LLC owned, respectively, legal and beneficial leasehold interest in the Premises. As of the date hereof, (i) Lessor has conveyed to the HDFC the Lessor's fee interest in the land and building, subject to the Ground Lease, located at 1880-1888 Bathgate Avenue and 4179-4197 3rd Avenue, Bronx, New York and designated as Block 2924 Base Lot 7 on the Tax Map of the City of New York, Bronx County exclusive of the land appurtenant to Unit 1 (as defined in the Condo Declaration) to the HDFC, pursuant to that certain bargain and sale deed dated as of the date hereof and to be recorded herewith; and (ii) beneficial and equitable interest in the Premises was transferred to LIHTC LLC pursuant to that certain Amended and Restated Declaration of Interest and Nominee Agreement dated as of the date hereof and to be recorded contemporaneously herewith. The Condo Declaration is being converted to a fee condominium pursuant to that certain Second Amendment to the Condominium Declaration of Wilfrid Condominium dated as of the date hereof and to be recorded contemporaneously herewith; and the Ground Lease is being terminated pursuant to that certain Termination of Memorandum of Ground Lease dated as of the date hereof and to be recorded contemporaneously herewith, such that the Grantee is and shall be the legal and beneficial fee owner of the Premises.

AND this Confirmatory Deed is intended to confirm, on the public record, the legal and beneficial fee interest of Grantee in the Premises and that the legal description of such Premises is set forth in Schedule "A", annexed here and made a part hereof.

AND Grantor covenants that Grantor has not done or suffered anything whereby the same Premises have been encumbered in any way whatever, except as aforesaid.

AND the Grantor, in compliance with Section 13 of the Lien Law, covenants that the Grantor will receive the consideration for this conveyance and will hold the right to receive such consideration as a trust fund to be applied first for the purpose of paying the cost of the improvement and will apply the same first to the payment of the cost of the improvement before using any part of the same for any other purpose.

THIS PROPERTY IS SUBJECT TO AN ENVIRONMENAL EASEMENT HELD BY THE NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION PURSUANT TO TITLE 36 OF ARTICLE 71 OF THE ENVIRONMENTAL CONSERVATION LAW.
